Neon Caesar:

Neon Caesar Mark McGarrity, Bartholomew Gill, 1989 The disappearance of her gambling addict husband leaves Toni Spino with a mountain of debt and a new partnership with the Mafia in the family restaurant and her efforts to buy out her partners only involve her further in crime *Caesar's Last Breath* Sam Kean, 2017-07-18 The Guardian's Best Science Book of 2017 the fascinating science and history of the air we breathe It's invisible It's ever present Without it you would die in minutes And it has an epic story to tell In *Caesar's Last Breath* New York Times bestselling author Sam Kean takes us on a journey through the periodic table around the globe and across time to tell the story of the air we breathe which it turns out is also the story of earth and our existence on it With every breath you literally inhale the history of the world On the ides of March 44 BC Julius Caesar died of stab wounds on the Senate floor but the story of his last breath is still unfolding in fact you're probably inhaling some of it now Of the sextillions of molecules entering or leaving your lungs at this moment some might well bear traces of Cleopatra's perfumes German mustard gas particles exhaled by dinosaurs or emitted by atomic bombs even remnants of stardust from the universe's creation Tracing the origins and ingredients of our atmosphere Kean reveals how the alchemy of air reshaped our continents steered human progress powered revolutions and continues to influence everything we do Along the way we'll swim with radioactive pigs witness the most important chemical reactions humans have discovered and join the crowd at the Moulin Rouge for some of the crudest performance art of all time Lively witty and filled with the astounding science of ordinary life *Caesar's Last Breath* illuminates the science stories swirling around us every second Flickering Light Christoph Ribbat, 2013-07-15 Without neon Las Vegas might still be a sleepy desert town in Nevada and Times Square merely another busy intersection in New York City Transformed by the installation of these brightly colored signs these destinations are now world famous representing the vibrant heart of popular culture But for some neon lighting represents the worst of commercialism Energized by the conflicting love and hatred people have for neon *Flickering Light* explores its technological and intellectual history from the discovery of the noble gas in late nineteenth century London to its fading popularity today Christoph Ribbat follows writers artists and musicians from cultural critic Theodor Adorno British rock band the Verve and artist Tracey Emin to Vladimir Nabokov Langston Hughes and American country singers through the neon cities in Europe America and Asia demonstrating how they turned these blinking lights and letters into metaphors of the modern era He examines how gifted craftsmen carefully sculpted neon advertisements introducing elegance to modern metropolises during neon's heyday between the wars followed by its subsequent popularity in Las Vegas during the 1950s and 60s Ribbat ends with a melancholy discussion of neon's decline describing how these glowing signs and installations came to be seen as dated and characteristic of run down neighborhoods From elaborate neon lighting displays to neglected diner signs with unlit letters *Flickering Light* tells the engrossing story of how a glowing tube of gas took over the world and faded almost as quickly as it arrived *Contested Pasts* Jennifer Finn, 2022-04-18 Taking as a

key turning point the self fashioning of the first Roman emperor Augustus author Jennifer Finn revisits the idea of universal history in Polybius Justin and Diodorus combined with the Stoic philosophy of determinism present in authors like Plutarch and Arrian Finn endeavors to determine the ways in which Roman authors manipulated narratives about Alexander s campaigns and even other significant events in Mediterranean history to artificially construct a past to which the Romans could attach themselves as a natural teleological culmination In doing so *Contested Pasts* uses five case studies to reexamine aspects of Alexander s campaigns that have received much attention in modern scholarship providing new interpretations of issues such as his connections to the Trojan and Persian wars the Great Weddings at Susa the battle s of Thermopylae in 480 BCE and 191 BCE and Alexander s conflict at the Persian Gates the context of his Last Plans the role of his memory in imagining the Roman Civil Wars and his fictitious visit to the city of Jerusalem While Finn demonstrates throughout the book that the influence for many of these narratives likely originated in the reign of Alexander or his Successors nevertheless these retroactive authorial manipulations force us to confront the fact that we may have an even more opaque understanding of Alexander than has previously been acknowledged Through the application of a mnemohistorical approach the book seeks to provide a new understanding of the ways in which the Romans and people in the purview of the Romans conceptualized their own world with reference to Alexander the Great
