## **Nested Identities:**

**Nested Identities** Guntram Henrik Herb, David H. Kaplan, 1999 This groundbreaking work explores the vital importance of territory and space to any genuine understanding of nationalism and identity Too often the contributors argue national identity is analyzed apart from the lands that are integral to its formation as territory is seen as a commodity to be brokered rather than as central to a group's self definition This volume combines theoretical insights with structured case studies on how national identity manifests itself in space and at different geographical scales **Social Identity Processes in Organizational Contexts** Michael A. Hogg, Deborah J. Terry, 2014-06-03 This new volume is the first to bring together social and organizational psychologists to explore social identity theory in organizational contexts The chapters are wide ranging they deal with basic social identity theory organizational diversity leadership employee turnover mergers and acquisitions organizational identification cooperation and trust in organizations commitment and work and socialization and influence within organizations This book is an integrative platform for a closer relationship between social psychologists and organizational psychologists who study social identity processes in organizations ***Organizational Relationships in the Networking Age*** Willem Koot, Peter Leisink, Paul Verweel, 2003-01-01 Globalization the information technology revolution individualization and other processes in contemporary society all impact on organizations This text analyzes the framework of these organizational relationships and the dynamics of identity formation and bonding on several levels ***A HAND BOOK ON WORK-LIFE BALANCE*** Dr. C. Swarnalatha, 2017-01-12 We live in a globalized era where success is often defined by over achievement in either professional or personal lives When we focus too much on business or professional goals relationships can suffer **Burial and Social Change in First Millennium BC Italy** Elisa Perego, Rafael Scopacasa, 2016-11-30 In the first millennium BC communities in Italy underwent crucial transformations which scholars have often subsumed under the heading of state formation namely increased social stratification the centralization of political power and in some cases urbanization Most research has tended to approach the phenomenon of state formation and social change in relation to specific territorial dynamics of growth and expansion changing modes of exploitation of food and other resources over time and the adoption of selected socio ritual practices by the ruling elites in order to construct and negotiate authority In contrast comparatively little attention has been paid to the question of how these key developments resonated across the broader social transect and how social groups other than ruling elites both promoted these changes and experienced their effects The chief aim of this collection of 14 papers is to harness innovative approaches to the exceptionally rich mortuary evidence of first millennium BC Italy in order to investigate the roles and identities of social actors who either struggled for power and social recognition or were manipulated and exploited by superior authorities in a phase of tumultuous sociopolitical change throughout the entire Mediterranean basin Contributors provide a diverse range of approaches in order to examine how power operated in society how it was exercised and resisted and how this can be studied through mortuary evidence Section

1 addresses the construction of identity by focusing mainly on the manipulation of age ethnic and gender categories in society in regions and sites that reached notable power and splendor in first millennium BC Italy These include Etruria Latium Campania and the rich settlement of Verucchio in Emilia Romagna Each paper in Section 2 offers a counterpoint to a contribution in Section 1 with an overall emphasis on scholarly multivocality and the multiplicity of the theoretical approaches that can be used to read the archaeological evidence     You and Me Make We: An Exploration of Consumer Nested Identities Carolyn Anne Massiah,2007 Social identity theory which assumes that individuals possess membership in multiple groups which can be ascribed self selected or the result of organizational categorization processes presents an ideal theoretical framework which allowed the current research to examine consumer groups and the nested social identities that exist within them     Reconfiguring Spanish Subjects Monika A. Szumilak,2005     **Hometown Associations and Ethnic Unions in Twentieth Century Nigeria** Charles Wilson Abbott,2006     **Macro- and Micro-regionalism in the Historical Geography of the Pacific Rim** Dianne Elizabeth Meredith,2003     **Europe Without Borders** Mabel Berezin,Martin Schain,2003 Contributors to this volume address such topics as how Europeans now see themselves in relation to national identity whether they identify themselves as citizens of a particular country or as members of a larger socio political entity how both natives and immigrants experience national and transnational identity at the local level and the impact of globalization on national culture and the idea of the nation state     **Europe's Old States in the New World Order** Joseph Ruane,Jennifer Todd,Anne Mandeville,2003 Much attention has been paid to globalization yet little has been focused on the relationship between the national and sub national levels of politics This publication has separate sections on the state in transition on regionalism nationalism and separatism and on the security forces and the maintenance of order The three states chosen Britain France and Spain have historical similarities as ex imperial Atlantic seaboard states with weighty historical and institutional traditions But they also differ in their institutions in their centre periphery relations and in their varying responses to the new phase of change The authors assess the new constitutional configurations in each state decentralisation devolution or autonomous governments and analyse the effect on the peripheries and the maintenance of order The book also includes chapters on conflict in Northern Ireland and the Spanish Basque country and discussion of nationalist identity and assertion in the three countries     **International Journal of Contemporary Sociology** ,2000

**Archaeological Review from Cambridge** ,2004     *Research Companion to the Dysfunctional Workplace* Janice Langan-Fox,Cary L. Cooper,Richard J. Klimoski,2007 From personality disorders to wars over territory this book chronicles unravels and reveals the true nature of problems at work uncovering the subversiveness counter productive behaviour and unspoken issues that management struggle with on a daily basis     Identity and Integration Rosemarie Sackmann,Bernhard Peters,Thomas Faist,2003 Communications and political and economic interactions increasingly cross the borders of states nations and ethnic communities and yet symbolic borders and separate group identities are nevertheless asserted Referring

primarily to immigration from Turkey this book combines both exemplary case studies of Turks within Europe and theoretical papers with innovative perspectives on the relations between integration and identity *Multicultural Nationalism* Asifa M. Hussain, William L. Miller, 2006-07-20 When the focus is on black or Asian minorities Britain is frequently described as a multi cultural state But when the focus is on Scotland England and Wales Britain is also described as a multi national state Yet debates about multiculturalism and nationalism have been held in parallel without sharing even a common vocabulary This book is a pioneering study of how multiculturalism interacts with multinationalism especially within post devolution Scotland It gives equal attention to Scotland s largest visible and invisible minorities ethnic Pakistanis almost all of them Muslim and English immigrants Rising Scottish self consciousness could have posed a challenge both these minorities But in practice potential problems have proved themselves to be solutions integrating rather than alienating In the eyes of the minorities devolution has made Scots at once more proud and less xenophobic Even English immigrants feel devolution has defused tensions calmed frustrations and forced Scots to blame themselves rather than others for their problems Pakistanis have suffered increasing harassment but they attribute that to 9 11 not to devolution And Muslims adopt Scottish identities Scottish attitudes even Scottish nationalism consciously or unconsciously using these as tools of integration The book is based in part on large scale surveys of Pakistani and English minorities within Scotland and of the majority populations in Scotland and England But it is also based on systematic analysis of transcripts of focus group discussions with minorities revealing the variety of opinion within minorities as well as the contrasts between them In particular it presents a unique account of how Scottish Muslims express their feelings in a time of crisis *How Plays Work* Martin Meisel, 2007-06-28 Meisel begins with a look at matters often taken for granted in coding and convention and then under Beginnings at what is entailed in establishing and entering the invented world of the play Each succeeding chapter is a gesture at enlarging the scope The final chapters explore ways in which both the drive for significant understanding and the appetite for wonder can and do find satisfaction and delight Cultivated in tone and jargon free *How Plays Work* is illuminated by dozens of judiciously chosen examples from western drama from classical Greek dramatists to contemporary playwrights both canonical and relatively obscure It will appeal as much to the serious student of the theatre as to the playgoer who likes to read a play before seeing it performed **BOOK JACKET** *American Sociological Review*, 1936 Includes sections Book reviews and Periodical literature

**Sociological Abstracts** Leo P. Chall, 2003 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers **Exploring Early Christian Identity** Bengt Holmberg, 2008 The main point of emphasis in the book is that approaching the Christian movement s early history through investigating its identity helps us to understand how the followers of Jesus developed from an intra Jewish messianic renewal movement into a new religion with

a major Gentile membership and major differences from its Jewish matrix all in only a hundred years Identity is not simply a collection of beliefs that was agreed upon by many first century Christians It is embedded or rather embodied in real life as participation in the founding myths narrativized memory of and accepted teaching on Jesus in cults and rituals as well as in ethical teaching and behavioral norms crystallized into social relations and institutions This is a dynamic feedback process full of conflicts and difficulties both internal and caused by the surrounding society and culture The authors explore different aspects of identity such as how the Gospels narrativization of the social memory shapes and is shaped by the identity of the groups from which they emerge how labels such as Jewish and Christian should and should not be understood the identity forming role of behavioral norms in letters and the interplay between competing leadership ideals and the underlying unity of different Christian groups They also show that identity formation is not necessarily related to innovation in moral teaching nor averse to making use of ancient conventions of masculinity with their emphasis on dominance
