Every design must meet the needs of a diverse range of potential bike riders. Across North America, however, many existing bike facility designs provide enough comfort for only the luckiest people taking and exclude many who might otherwise ride.

**IN ALL AGES & ABILITIES** people have a right to safe, comfortable and usable ways for themselves and their families to get to work, school, and other destinations. Safe, usable, and comfortable bike facilities are essential to a healthy, sustainable, and equitable community. This guide provides the knowledge and tools to create a safe, usable, and comfortable bike facility for all ages and abilities.

Third Edition

The third edition of the Urban Bikeway Design Guide revised outdated bicycling rules, removed 20 obsolete rules, and added 10 new rules to make city streets safer for all ages and abilities.

## OUR VISION

Cities where safe, sustainable, and equitable transportation systems connect communities to the resources they need to thrive
