Digital Deals George T. Geis, George S. Geis, 2001 This text presents a model for enhancing corporate development strategy that can be applied across all industries. It enables executives to implement coherent corporate development plans.

Cult Collectors Lincoln Geraghty, 2014-02-24 Cult Collectors examines cultures of consumption and the fans who collect cult film and TV merchandise. Author Lincoln Geraghty argues that there has been a change in the fan convention space where collectible merchandise and toys rather than just the fictional text have become objects for trade nostalgia and a focal point for fans' personal narratives. New technologies also add to this changing identity of cult fandom whereby popular websites such as eBay and ThinkGeek become cyber sites of memory and profit for cult fan communities. The book opens with an analysis of the problematic representations of fans and fandom in film and television. Stereotypes of the fan and collector as portrayed in series such as The Big Bang Theory and films like The 40 Year Old Virgin are discussed alongside changes in consumption practices and the mainstreaming of cult media. Following this theoretical chapters consider issues of gender representation, nostalgia and the influence of social media. Finally extended case study chapters examine in detail the connections between the fan community and the commodities bought and sold. Topics discussed include The San Diego Comic Con and the cult geographies of the fan convention, Hollywood memorabilia and collecting cinema history. The Star Wars franchise merchandising and the adult collector. Online stores and the commercialisation of cult fandom. Mattel, Hasbro and nostalgia for animated eighties children's television.

The Hammer: an American Hero Harold D. Edmunds, 2016-08-18
Mr Williamson is a talented man. He excelled on the football field and then became one of the first Black action heroes on film. The Hammer An American Hero details his rise from obscurity to one of the most talented football players in History. Williamson grew up on the tough streets of Chicago. He excelled in school and graduated from Northwestern University with a degree in architectural engineering. He went on to become a successful football player, creating the controversial bump and run technique. He then went on to become a very successful writer, director, and star of many exciting action films. He also starred on several hit television shows. He played a major part in the explosion of Black action films in the seventies and he continues to make films today. Williamson has successfully brought powerful, intelligent images of African American men to the silver screen for years. He wanted to present positive, strong, heroic images of Black men to the world. He is an American icon, a hero to many of his fans. What motivated Williamson to excel? How did he get bullies to leave him alone in high school? How did he get the name The Hammer? Why did he study martial arts? Why did he write, produce, and direct his own films? Why does he prefer to make independent films? Why did he create his own film production company? Why does he make films overseas? What three rules did he give to film producers who wanted to hire him? Read The Hammer An American Hero to find the answers to these questions. If you are a fan of Mr Williamson or Black cinema, you'll enjoy reading The Hammer An American Hero.

Advertising Strategy Tom Altstiel, Jean Grow, 2006

Advertising Strategy provides students with the experience of an actively teaching professor at one of the top advertising programs in the country and a working creative director agency principle Altstiel and Grow get right to the point by stressing key principles illustrating them and then providing practical information students and working professionals can use. Unlike many books that focus on only work created for large consumer accounts by mega agencies this text also covers business to business in house and small agency work. Key Features: Up to date examples over half were produced in the last two years. Writing for the Internet Interactive Marketing the most comprehensive and up to date general copywriting text that covers the Internet Diversity discussion a whole chapter is devoted to these issues plus examples and case histories related to issues of diversity are woven throughout the text. War Stories the authors tracked down some of the hottest professionals in the business and their anecdotes bring real world experience into each chapter. They are part case history part lessons to be learned and sometimes very funny Words of Wisdom timely quotes from some of the most influential people in our business past and present. These quotes bring key points to life in every chapter. Who's Who short biographies of people mentioned in the book. Located at the end of each chapter these blurbs sometimes include very personal information provided directly by these people. **SimNet MIS** Triad Interactive, Triad Interactive Staff, 2002-12. SimNet MIS is a new computer based tutorial program for the Management Information Systems course MIS. It is based on McGraw Hill's award winning SimNet Xpert but has had 14 new features developed expressly for the MIS course. SimNet MIS is designed to work perfectly alongside any McGraw Hill MIS textbook. When this valuable tool is used in conjunction with a MIS textbook students benefit by having a learning device that allows them to practice and study their skills at home or in the school lab at their own pace.
