**A Cautious Patriotism** Gerald L. Sittser, 2000-11-09 World War II was a turning point in twentieth century American history and its effects on American society have been studied from virtually every conceivable historical angle. Until now though the role of religion an important aspect of life on the home front has essentially been overlooked. In *A Cautious Patriotism* Gerald Sittser addresses this omission. He examines the issues raised by World War II in light of the reactions they provoked among Catholics, Episcopalians, Lutherans, Unitarians, and members of other Christian denominations. In the process he enriches our understanding of the relationships between church and society, religion and democracy. In deliberate contrast to the zealous even jingoistic support they displayed during World War I, American churches met the events of the Second World War with ambivalence. Though devoted to the nation, Sittser argues, they were cautious in their patriotic commitments and careful to maintain loyalty to ideals of peace, justice, and humanitarianism. Religious concerns played a role in the debate over American entry into the war and continued to resurface over issues of mobilization, military chaplaincy, civil rights, the internment of Japanese Americans, Jewish suffering, the dropping of the atomic bomb, and postwar planning. Yuan, 2018-11-14. *The Sinitic Civilization: A Factual History through the Lens of Archaeology*. Bronzeware, Astronomy, Divination, Calendar and the Annals. The book covered the time span of history of the Sinitic civilization from antiquity to the 3rd millennium B.C. to A.D. 85. A comprehensive review of history related to the Sinitic cosmological, astronomical, astrological, historical, divinatory, and geographical developments was given. All ancient Chinese calendars had been examined with the ancient thearchs' dates examined from the perspective of how they were forged or made up. The book provides the indisputable evidence regarding the fingerprint of the forger for the 3rd century A.D. book *Shang shu* (remotely ancient history) and close to 50 fingerprints of the forger of the contemporary version of *The Bamboo Annals*. Using the watershed line of Qin Emperor Shihuangdi's book burning of 213 B.C. the book rectified what was the original history before the book burning, filtered out what was forged after the book burning, sorted out the sophistry and fables that were rampant just prior to the book burning, and validated the history against the records in the oracle bones, bronzeware, and bamboo slips. The book covers 95-98% and more of the contents in the two ancient history annals of *The Spring and Autumn Annals* and *The Bamboo Annals*. There are dedicated chapters devoted to interpreting Qu Yuan's poem *Asking Heaven* and *Tian Wen*, the mythical book *The Legends of*
