[Free Speech and Unfree News](#) Sam Lebovic, 2016-03-14 Does America have a free press Many who say yes appeal to First Amendment protections against censorship Sam Lebovic shows that free speech on its own is not sufficient to produce a free press and helps us understand the crises that beset the press amid media consolidation a secretive national security state and the daily newspaper's decline

**Deadline** Elizabeth Atwood, 2025-11-21 In *Deadline 200 Years of Violence against Journalists in the United States* Elizabeth Atwood offers the first comprehensive look at the history of fatal attacks against journalists in the United States between 1829 and the present Atwood describes the political technological and economic context of these assaults and includes brief biographies of the victims and accounts of what happened both to them and to their assailants after the attacks To help us understand these attacks Atwood presents a framework for categorizing them built on John Nerone's studies on assaults on American media workers Atwood categorizes attacks against journalists as attacks

against individuals' ideas and media institutions and undertaken to suppress reporting on certain topics and in the context of wars and other international conflicts. Crucially, Deadline utilizes this framework to offer possible solutions to the issue of violence against journalists. Atwood was inspired to explore the pressing issue of violence against American journalists after the tragic death of one of her colleagues at the Baltimore Sun, Rob Hiaasen, in the Capital Gazette shooting in 2018. Throughout, she demonstrates that distrust of the media and violence against the press in the United States are hardly new developments. Her work examines how intimidation, violence, and censorship have in fact been used against the American press since both its and the nation's founding.

*The Fourth Estate and the Constitution* Lucas A. Powe, 1992-10-02. In 1964, the Supreme Court handed down a landmark decision in *New York Times v. Sullivan*, guaranteeing constitutional protection for caustic criticism of public officials, thus forging the modern law of freedom of the press. Since then, the Court has decided case after case affecting the rights and restrictions of the press, yet little has been written about these developments as they pertain to the Fourth Estate. Lucas Powe's essential book now fills this gap. Lucas A. Powe Jr., a legal scholar specializing in media and the law, goes back to the framing of the First Amendment and chronicles the two main traditions of interpreting freedom of the press to illuminate the issues that today ignite controversy. How can a balance be achieved among reputation, uninhibited discussion, and media power? Under what circumstance can the government seek to protect national security by enjoining the press rather than attempting the difficult task of convincing a jury that publication was a criminal offense? What rights can the press properly claim to protect confidential sources or to demand access to information otherwise barred to the public? And as the media grow larger and larger, can the government attempt to limit their power by limiting their size? Writing for the concerned layperson and student of both journalism and jurisprudence, Powe synthesizes law, history, and theory to explain and justify full protection of the editorial choices of the press. *The Fourth Estate and the Constitution* not only captures the sweep of history of Supreme Court decisions on the press but also provides a timely restatement of the traditional view of freedom of the press at a time when liberty is increasingly called into question.

Examines the Supreme Court's unanimous 1952 decision in favor of a film exhibitor who had been denied a license to show the controversial Italian film *Il Miracolo*. The ruling was a watershed event in the history of film censorship, ushering in a new era of mature and sophisticated American filmmaking.
