**The Art of Movie Storyboards** Fionnuala Halligan, 2015-10-01. The unsung heroes of film storyboard artists are the first to give vision to a screenplay translating words on the page into shots for the screen. Their work is a unique art form in itself. Many storyboards are beautiful in their own right but ultimately the skill of the artist lies in their visual communication of a script with multiple factors to consider: composition, movement, camera angles, special effects, and the rhythm and pacing of a scene. *The Art of Movie Storyboards* celebrates this art showcasing a vast collection of storyboards in a range of styles and including some of cinema's greatest moments. The collection includes the work of pioneers such as William Cameron Menzies' *Gone with the Wind* and Saul Bass' *Psycho*, *Spartacus*, as well as contemporaries such as Raoul Monge's *Pan's Labyrinth* and Jane Clark's *Harry Potter and the Goblet of Fire*. Many are seen here for the first time and all are accompanied by insights into the films featured, their directors, and of course the storyboard artists.
