*The Minorities of Northern China* Henry G. Schwarz, 1984      China's Governance Model Hongyi Lai, 2016-06-10 Many studies of government in China either simply describe the political institutions or else focus critically on the weaknesses of the system such as corruption or the absence of Western style democracy Authors of these studies fail to appreciate the surprising ability of China's government to rapidly transform a once impoverished economy and to recover from numerous crises from 1978 to the present This book on the other hand takes a more balanced more positive view This view is based on a study of changes in China's institutions for coping with critical crises in governance since 1978 These changes include better management of leadership succession better crisis management improved social welfare the management of society through treating different social groups differently depending on their potential to rival the Party state and a variety of limited intra party and grassroots democracy This book applies to the Chinese model the term pragmatic authoritarianism It explains changes to and the likely future direction of China's governance model It compares current risks in China's governance with threats that terminated dynasties and the republic in China over the past four thousand years and concludes that the regime can be expected to survive a considerable period despite its existing flaws Few topics in Chinese politics are as significant as the nature state and prospects of the political regime While the topic had been unduly understudied for a long period of time a young generation of scholars has emerged on this subject Among others the book by Hongyi Lai stands out and provides a comprehensive and penetrating analysis on this topic I am confident that his book will make a significant contribution to the study of Chinese politics and may well define the debate on China's political development governance and model for years to come Yongnian Zheng Director East Asian Institute National University of Singapore      Peoples of the Buddhist World Paul Hattaway, 2004 In the past 20 years Christians around the world have launched initiatives to reach Muslims Communists Hindus and other major unreached people groups but the Buddhist world has largely been overlooked Hundreds of millions of Buddhists continue to live and die without any exposure to the Gospel In *Peoples of the Buddhist World* researcher and author Paul Hattaway graphically presents prayer profiles of more than 200 Buddhist people groups around the world beautifully illustrated with color pictures throughout In addition experts have contributed articles on various aspects of Buddhism helping the reader to learn pray and work until that day when the kingdom of the world has become the kingdom of our Lord and of his Christ and he will reign for ever and ever Rev 11:15 From publisher's description

*China's Minority Cultures* Colin Mackerras, 1995 This text covers the period of the Republic of China and the People's Republic of China since 1912 focusing on four aspects of culture religion education family and gender and literature and theatre      Biography of Li Daoyuan 酈道元 Ji Lu, Li Daoyuan simplified Chinese traditional Chinese pinyin L D oyu n 466 or 472 in Zhuo County Hebei 527 was a Chinese geographer writer and politician during the Northern Wei Dynasty He is known as the author of the *Commentary on the Water Classic* *Shuijingzhu* a monumental work on China's geography in ancient times

Li Daoyuan used his position as an official with business in different places to carry field investigations. He is known to have visited the area belonging to the present day Henan Shandong Shanxi and Jiangsu provinces. Another source for his knowledge was the study of ancient geographical books he had access to like the Classic of Mountains and Seas Shanhaijing completed by the time of the early Western Han Dynasty and the Water Classic Shuijing written by Sang Qin during the Three Kingdoms Period and later commentated on by Jin dynasty writer Guo Pu. Li vastly expanded the Water Classic doing his own research and fieldwork. The original Water Classic has not survived but covered 127 rivers and streams and contained about 10 000 characters. Li Daoyuan's Commentary on the Waterways Classic Shui Jing Zhu discusses 1252 watercourses and contains about 300 000 characters in total. The book maps and describes the rivers and streams along with the history geography and culture of the surrounding region. The Kazaks of China Linda Benson, Ingvar Svanberg, 1988 Daily Report United States. Foreign Broadcast Information Service, 1994 *The Altaic-speakers of China* Ingvar Svanberg, 1988 **China's Mongols at University** Zhenzhou Zhao, 2010-04-09. Minority students in China often receive preferential treatment for access to universities. However very little is known about minority student experiences and perceptions on campus after they are accorded what's called meaningful access to university. The Mongols emerged as a distinct ethnic group in China starting in the 11th century and in the centuries that followed conquered a large part of the world. However in modern times this nomadic people's influence has declined and even their survival in China has been threatened. This decline is evidenced by the fact that increasing numbers of Mongols have abandoned their native language and traditional customs especially those who live in cities. How do Mongol university students who form the backbone of the Mongol intellectual community identify themselves in a modern Chinese context? How do they react as university students to the way in which their culture is recognized and represented? Do Mongol students suffer from injustice in the cultural dimension of campus life? China's Mongols at University Contesting Cultural Recognition seeks to answer these questions. Zhenzhou Zhao addresses these issues by comparing the university discourse on minority culture policy institutional structure and daily life and the Mongol student discourse concerning their experiences perceptions of recognition and dedication to self representation on campus. Additionally Gao compares three universities in China. Located in Inner Mongolia Autonomous Region Beijing and Hubei Province respectively each of these universities represents one of three types of higher education accessible to minority students in China: universities located in ethnic areas, standard universities and universities for nationalities. China's Mongols at University explores and discusses an intrinsic connection between marketization and globalization and the disadvantages faced by minority groups. This book argues that China must move from a policy of preferential treatment. China's Minority Nationalities, 1977 Taming China's Wilderness Assoc Prof Patrick Fuliang Shan, 2014-05-28. Until the beginning of the twentieth century the Chinese province of Heilongjiang historically known as Northern Manchuria remained a sparsely populated territory on the northeastern frontier. For about two centuries the rulers

of the Qing dynasty 1644 1912 whose historical homeland was in Manchuria enforced a policy that prohibited Chinese immigration and settlement and maintained the region's reputation as the Great Northern Wilderness Yet as this new study demonstrates by the early 20th century the Chinese government reversed its previous policy and began to encourage immigration into Heilongjiang turning a backwater into a thriving frontier region Covering the period between the reversal of the anti immigration policy around 1900 and the Japanese occupation of Heilongjiang in 1931 this book investigates this distinctive frontier and the impact upon it of the settlement of four million Chinese settlers during a thirty one year period Following an introduction providing a background to the period covered the study is divided into five chapters The first chapter looks at patterns of immigrations settlement and the features of the newly developing frontier society Chapter two then deals with land possession tenure and relations amongst the newly arrived settlers The third chapter discusses the transformation of the ethnic make up of the region and the move from a largely nomadic culture to one of settled farmers Chapter four probes the social problems these changes caused particularly banditry The final chapter revises commonly held notions about Russian dominance of the region arguing that Russia's influence was limited to the railway zone Taken together these chapters not only provide an overview of a territory undergoing rapid and sustained change but also provide insights into wider Chinese history as well as adding to the on going scholarly interest in border and frontier studies

The Education of Poor and Minority Children, 1986-09-23 With this first supplement to his world bibliography which was published in 1981 Weinberg continues his efforts to retrieve and provide access to the many invaluable contributions on the subject of educating the world's poor and minority children that are frequently overlooked in the prevailing emphasis on mainstream educational and institutional concerns Covering the literature that appeared between 1979 and 1985 in some 20 000 entries this volume offers a detailed introduction to schooling as it is affected by the social economic and political forces around it
