Minorities Peoples And Selfdetermination:

Minorities, Peoples and Self-Determination Nazila Ghanea-Hercock, Alexandra Xanthaki, 2005-05-01 The present volume in honour of Professor Patrick Thornberry presents new thinking on minority and indigenous rights in international law Contributors to this 17 chapter volume include an impressive range of academics thinkers practitioners and international civil servants with a number of different approaches to this complex area Not all of them take a legal approach and this exploration benefits from the variety of frameworks utilised in contributing to the controversial area of minority and indigenous rights Debates that receive attention in this volume include self determination definitional issues collective rights and rights to natural resources Other chapters unravel challenges that have not attracted sufficient attention to date such as multiculturalism integration colour as a ground for discrimination and the economic and social rights of minorities The volume also looks critically at the work of the World Bank the African Union the Council of Europe and the OSCE in this arena Finally case studies highlight the regrettable similarities in the suffering of groups in different parts of the world as well as the stark contrast between state claims and their actual practice The contributors are Gudmundur Alfredsson Michael Banton Joshua Castellino Erica Irene A Daes Mar a Amor Est banez Nazila Ghanea Geoff Gilbert B lent G kay Tom Hadden Dominic McGoldrick Timothy Murithi John Packer Chandra K Roy Malcolm N Shaw Martin Scheinin Sia Spiliopoulou kermark and Alexandra Xanthaki *Perspectives on the Rights of Minorities and Indigenous Peoples in Africa* Solomon Dersso, 2010

Minorities, Minority Rights and Internal Self-Determination Ulrike Barten, 2014-09-23 The book questions the classic idea of self determination the right to self determination is a right of peoples not of minorities by examining the content of the right to self determination and the content of minority rights Self determination has four dimensions the political the economic the social and the cultural dimensions Minorities have minority rights that touch on most aspects of life as a member of a minority If there is an overlap between minority rights and the different dimensions of self determination the concept that the right to self determination is only applicable to peoples loses credibility No global and general conclusion is envisaged there are restrictions in place The work is limited to the European framework and is further restricted to classic minorities The argument is based on a legitimacy and justice approach The analysis in this book shows that some minority rights overlap with the different dimensions of internal self determination In short classic minorities in Europe have a right to internal self determination Unrepresented Nations and Peoples Organization Unrepresented Nations and Peoples Organization, 1998

The Law and Practice of the United Nations Benedetto Conforti, Carlo Focarelli, 2016-07-18 The Law and Practice of the United Nations examines the law of the United Nations through an analysis of the Organization's practice from its inception until the present in particular to the transformations the UN has undergone since the end of the Cold War Special consideration is given to Chapter VII of the UN Charter and its interpretation the United Nations

membership and organs competences along with the peaceful settlement of disputes and coercive action for the maintenance of international peace and security In addition this important new edition explores such areas as general and smart sanctions peacekeeping authorizations of the Security Council territorial administrations self determination human rights financing of the Organization acts adoptable by the UN organs and a review of their legality Offering a fully revised and updated analysis of the main legal issues surrounding the United Nations practice The Law and Practice of the United Nations will be of interest to all those involved with legal issues surrounding the United Nations the analysis of said issues and their impacts on international practice **Ukraine and the Peace-conference** Stanislaus Dniestrzański,1919 **Aboriginal Child**

Welfare, Self-Government and the Rights of Indigenous Children Ms Sonia Harris-Short,2013-02-28 This volume addresses the contentious and topical issue of aboriginal self government over child welfare Using case studies from Australia and Canada it discusses aboriginal child welfare in historical and comparative perspectives and critically examines recent legal reforms and changes in the design management and delivery of child welfare services aimed at securing the decolonization of aboriginal children and families Within this context the author identifies the limitations of reconciling the conflicting demands of self determination and sovereignty and suggests that international law can provide more nuanced and culturally sensitive solutions Referring to the UN Declaration on the Rights of Indigenous Peoples and the UN Convention on the Rights of the Child it is argued that the effective decolonization of aboriginal child welfare requires a journey well beyond the single issue of child welfare to the heart of the debate over self government self determination and sovereignty in both national and international law **On Minorities Peoples Self-determination and Secession** Maxim Lipkin,1995

Minority Peoples in the Age of Nation-states Gérard Chaliand,1989 Polar Peoples Hugh Beach,Ian Creery,Fae L. Korsmo,Mark Nutall,Nikolai Vakhtin,1994-01-01 The northern regions of the globe were populated by indigenous peoples long before explorers gold diggers missionaries bureaucrats and others discovered their land Polar Peoples describes the sometimes catastrophic effect these incomers and the changing world in general have had on native ways of life in this vast geographical area It also outlines the awakening of native political activism and some of the most important steps taken towards self determination by the indigenous peoples of the North Greenland Emergence of an Inuit Homeland by Mark Nuttall Unusual because of Home Rule from Denmark Native Peoples of the Russian Far North by Nikolai Vakhtin Little known outside Russia these minority groups face an uncertain future The Alaska Natives by Fae L Korsmo Highly significant because of the Alaska Native Claims Act The Inuit of Canada by Ian Creery Dene and Nunavut claims have been the subject of much political activity in recent months The Saami of Lapland by Hugh Beach Currently dealing with many different issues from the ongoing effects of Chernoby on their reindeer herds to the disintegration of the Soviet Union With each section written by a recognized expert in his or her field Polar Peoples gives a fascinating look at this politically and environmentally changing area on the roof of the world Please note that the terminology in the fields of minority rights and indigenous

peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

Old and New Minorities
 Roberta Medda-Windischer, 2009 The growing diversity of national communities has generated pressures for the construction of new and more defensible forms of accommodating social cohesion and diversity The central question of this book is whether it is possible to develop a defensible model for minority integration encompassing the traditional dichotomy old new minorities and which reconciles unity and diversity The book contends that it is possible to address this issues by bridging two fields of research minorities and migration Studying the interaction and similarities between old and new minority groups is a rather new task because so far these topics have been studied in isolation It is also an important task for future research within Europe as many states have established systems of old minority rights but have not yet developed sound policies for the integration of new minority groups originating from migration The volume is a valuable resource for academics scholars advanced students

Un Law, Fundamental Rights Antonio Cassese, 1979-02-10 In its forty fourth session the General Assembly of the United Nations proclaimed the 1990s as the Decade of International Law One of the main purposes of the decade is the promotion of effective means for peaceful international dispute settlement and especially strenghtening the role of respect for the International Court of Justice the principal judicial organ of the United Nations The editors of this book contribute to this aim by bringing together a variety of opinions by international legal experts on peaceful dispute settlement The subject is approached from different angles ranging from the role of the International Law Commission the Non Aligned Movement to human rights space law disputes in order to identify areas of international law where room exists for further development of existing means for peaceful settlement of international disputes A general conclusion which can be drawn from this survey is that the focus of attention should not be aimed primarily at strenghtening the role of the International Court of Justice e g by amending some of its rules or by trying to increase its political acceptability through diplomatic efforts Instead the focus should be on small scale improvements within specific areas of international law with an emphasis on the relation between dispute settlement supervision Furthermore it seems essential for a real improvement to give non governmental organisations or private persons a greater role in upholding the rule of international law whether in domestic courts or in international fora This work has been published previously in the Leiden Journal of International Law Special Issue 3 LJIL 90
