The Miracle Stories of the Early Christian Tradition Gerd Theissen,1983      The Miracle Stories of the Early Christian Tradition Gerd Theissen,1974      **The Miracle Stories of the Early Christian Tradition** Gerd Theissen,1983 A fascinating study of the synoptic miracle stories which looks at their structure reproduction and function      Jesus the Miracle Worker Graham H. Twelftree,1999-05-25 Graham Twelftree extensively examines the miracles of each Gospel narrative He weighs their historical reliability and considers the question of miracles and the modern mind      Jesus and the Miracle Tradition Paul J. Achtemeier,2008-01-01 Working with selected miracles of Jesus from the canonical Gospel traditions and with background studies in the general understanding of miracles in the Greco Roman world of the Hellenistic period this collection of essays shows how we may understand the theological reasons why the early followers of Jesus included these stories in their traditions that constituted the canonical Gospels Using individual stories from the Gospels three of the essays demonstrate how literary critical analysis can show the theological intent of the miracle story A second set of three essays examines the way Mark and Luke view the miracle tradition within their larger task of writing the story of Jesus A final set of three articles examines the Hellenistic background of such stories and the way they were used in secular and Jewish sources to gain perspective on what the early Christians intended with the miracle stories of Jesus      **Miracles in Greco-Roman Antiquity** Wendy Cotter,1999 Miracles in Greco Roman Antiquity presents a collection in translation of miracle stories from the ancient world The material is divided up into four main categories including healing exorcism nature and raising the dead Wendy Cotter in an introduction and notes to the selections contextualizes the miracles within the background of the Greco Roman world and also compares the stories to other Jewish and non Jewish miracle stories of the Mediterranean world This sourcebook provides an interdisciplinary collection of material which will be of value to students of the New Testament

*Miracles in the Christian Tradition* Cummings, Owen F.,2021 Hoping to overcome what John Meier refers to as the academic sneer factor when speaking of the miraculous Owen Cummings examines the history of the miraculous from the Old Testament through attitudes of twenty first century theologians      *Christ the Miracle Worker in Early Christian Art* Lee M. Jefferson,2014 Images and artistic representations were of significant value to the early Christian communities In *Christ the Miracle Worker in Early Christian Art* Lee Jefferson argues in fact that images provided visual representations of vital religious and theological truths crucial to the faithful by which art possessed the power to project concepts and claims beyond the limitations of the written and spoken word Images of Christ performing miracles or healings as demonstrated in this volume functioned as advertisements for Christianity and illustrated explications of the nature of Christ These images of Christ as worker of miracles and healing form the nucleus of an extensive examination of this power of art its role in fostering devotion and the deep connection between art and its underwriting and elucidation of pivotal theological claims and developments back cover      **Miracle Discourse in the New Testament** Duane F. Twelftree, 2013-09-15 How can we explain the difference between the miraculous Christianity expressed in the Gospels and the nearly miracle free Christianity of Paul In this historically informed study senior New Testament scholar Graham Twelftree challenges the view that Paul was primarily a thinker and reimagines him as an apostle of Jesus for whom the miraculous was of profound importance Highlighting often overlooked material in Paul's letters Twelftree offers a fresh consideration of what the life and work of Paul might teach us about miracles in early Christianity and sheds light on how early Christians lived out their faith *The Encyclopedia of Christianity* Erwin Fahlbusch, Geoffrey William Bromiley, 1999 The Encyclopedia of Christianity is the first of a five volume English translation of the third revised edition of Evangelisches Kirchenlexikon Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added The encyclopedia describes Christianity through its 2000 year history within a global context taking into account other religions and philosophies A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries Social and cultural coverage is given to such issues as racism genocide and armaments while historical content shows the development of biblical and apostolic traditions This comprehensive work while scholarly is intended for a wide audience and will set the standard for reference works on Christianity Outstanding reference sources 2000 American Libraries May 2000 Comp by the Reference Sources Committee RUSA ALA **Early Christianity and Its Sacred Literature** Lee Martin McDonald, Stanley E.
