

Militarism Usa

James A. Tyner

Militarism Usa:

The ^ANew American Militarism Andrew J. Bacevich,2013-03-22 An updated edition of Andrew J Bacevich s valuable examination of the dangerous obsession that has taken hold of Americans a marriage of militarism and blind utopian ideology of unprecedented military might and a blind faith in the universality of American values **Militarism, U.S.A.** James A. Donovan,1970 This powerful description of America s aggressive posture is a timely expansion of the now famous article The New Militarism written by General Shoup and Colonel Donovan for The Atlantic Monthly It traces our increasign reliance on the defense establishment and the military way of solving problems from our experience in World War II the first time the coutry had been totally involved in modern technological war to the present national dissension over our involvement in Asia Publisher **Imperial Delusions** Carl Boggs,2005 In this hard hitting critique Carl Boggs argues that the United States is dominated by a new militarism one that has become more potent and menacing since 9 11 He skillfully explores the origins and development of this new militarism and show its devastating effects on American society Addicted to War Joel Andreas,2024-03-26 Addicted to War takes on the most active powerful and destructive military in the world Hard hitting carefully documented and heavily illustrated it reveals why the United States has been involved in more wars in recent years than any other country Read Addicted to War to find out who benefits from these military adventures who pays and who dies Over 120 000 copies of the previous editions are in print This edition is substantially reworked and fully updated including Barack Obama s drone wars Chelsea Manning and WikiLeaks statistics on military spending and the ongoing costs and consequences of the wars in Iraq and Afghanistan **American Militarism and Anti-Militarism in Popular Media, 1945-1970** Lisa M. Munday,2012-01-27 Scholars have characterized the early decades of the Cold War as an era of rising militarism in the United States but most Americans continued to identify themselves as fundamentally anti militaristic To them militaristic defined the authoritarian regimes of Germany and Japan that the nation had defeated in World War II aggressive power hungry countries in which the military possessed power outside civilian authority Much of the popular culture in the decades following World War II reflected and reinforced a more pacifist perception of America This study explores military images in television film and comic books from 1945 to 1970 to understand how popular culture made it possible for a public to embrace more militaristic national security policies yet continue to perceive themselves as deeply anti militaristic **Awake! U. S. A. Are We in Danger? Are We Prepared?** William Freeman,1916 **The Military and Society** David MacIsaac,1975 **Breaking the War Habit** Scott Harding,Charles Howlett,Seth Kershner,2022-07-15 **American Masculinities: A Historical Encyclopedia** Bret Carroll,2003-10-14 This is a highly recommended purchase for undergraduate medium sized and large public libraries wishing to provide a substantial introduction to the field of men s studies Reference User Services Quarterly Pleasing layout and good cross references make Carroll s compendium a welcome addition to collections serving readers of all ages Highly recommended CHOICE An excellent index well chosen photographs

and illustrations and an extensive bibliography add further value American Masculinities is well worth what would otherwise be too hefty a price for many libraries because no other encyclopedia comes close to covering this growing field so well

American Reference Books Annual American Masculinities A Historical Encyclopedia is a first of its kind reference detailing developments in the growing field of men's studies This up to date analytical review serves as a marker of how the field has evolved over the last decade especially since the 1993 publication of Anthony Rotundo's American Manhood This seminal book opened new vistas for exploration and research into American History society and culture Weaving the fabric of American history American Masculinities illustrates how American political leaders have often used the rhetoric of manliness to underscore the presumed moral righteousness and ostensibly protective purposes of their policies Seeing U S history in terms of gender archetypes readers will gain a richer and deeper understanding of America's democratic political system domestic and foreign policies and capitalist economic system as well as the private sphere of the home and domestic life The contributors to American Masculinities share the assumption that men's lives have been grounded fundamentally in gender that is in their awareness of themselves as males Their approach goes beyond scholarship which traditionally looks at men and women in terms of what they do and how they have influenced a given field or era Rather this important work delves into the psychological core of manhood which is shaped not only by biology but also by history society and culture Encapsulating the current state of scholarly interpretation within the field of Men's Studies American Masculinities A Historical Encyclopedia is designed to help students and scholars advance their studies develop new questions for research and stimulate new ways of exploring the history of American life Key Features Reader's Guide facilitates browsing by topic and easy access to information Extensive name place and concept index gives users an additional means of locating topics of interest More than 250 entries each with suggestions for further reading Cross references direct users to related information Comprehensive bibliography includes a list of sources organized by categories in the field Topics Covered Arts Literature and Popular Culture Body Health and Sexuality Class Ethnic Racial and Religious Identities Concepts and Theories Family and Fatherhood General History Icons and Symbols Leisure and Work Movements and Organizations People Political and Social Issues About the Editor Bret E Carroll is Associate Professor of History at California State University Stanislaus He received his Ph D from Cornell University in 1991 He is author of The Routledge Historical Atlas of Religion in America 1997 Spiritualism in Antebellum America 1997 and several articles on nineteenth century masculinity *Proceedings of the Military History Symposium, USAF Academy* United States. Air Force, *The Oxford Handbook of American Military History* Samuel J. Watson, 2026-01-15 The Oxford Handbook of American Military History examines the chronological and thematic range of American military history from the colonial era to the present exploring a variety of connections between war military institutions and American society politics economics and culture in chronological topical and thematic essays The essays feature holistic analytic narratives with a strong emphasis on connections interpretation and insights by leading

scholars with extensive experience teaching American and military history Many of the authors are rising experts with new perspectives and insights many have served in the military or taught in institutions of professional military education The Oxford Handbook of American Military History explains the contexts causes conduct and consequences of armed conflict and their contingency and complexity It evaluates the significance of American conflicts to military history and the history of warfare for example in innovations links parallels or distinctions from European military history the influence of American society on warfare and military institutions and the impact of warfare and armed conflict on American society The handbook explores cultural sources dimensions and effects of armed conflict and military institutions the links between state society and war and structures as well as contingencies patterns and dynamics trends and trajectories over extended periods identifying some surprising connections The Oxford Handbook of American Military History will encourage students and scholars to see military history more broadly in many contexts while remaining grounded in the study of military policy and institutions strategy and operations and tactics and combat

Rivalry and Alliance Politics in Cold War Latin America Christopher Darnton, 2014-06-30 The success or failure of foreign policy initiatives in Latin America is heavily influenced by bureaucratic and military background players Rivalry and Alliance Politics in Cold War Latin America Christopher Darnton's comparative study of the nature of conflict between Latin American states during the Cold War provides a counterintuitive and shrewd explanation of why diplomacy does or doesn't work Specifically he develops a theory that shows how the parochial interests of state bureaucracies can overwhelm national leaders foreign policy initiatives and complicate regional alliances His thorough evaluation of several twentieth century Latin American conflicts covers the gamut of diplomatic disputes from border clashes to economic provocations to regional power struggles Darnton examines the domestic political and economic conditions that contribute either to rivalry continued conflict or rapprochement diplomatic reconciliation while assessing the impact of U S foreign policy Detailed case studies provide not only a robust test of the theory but also a fascinating tour of Latin American history and Cold War politics including a multilayered examination of Argentine Brazilian strategic competition and presidential summits over four decades three rivalries in Central America following Cuba's 1959 revolution and how the 1980s debt crisis entangled the diplomatic affairs of several Andean countries These questions about international rivalry and rapprochement are of particular interest to security studies and international relations scholars as they seek to understand what defuses regional conflicts creates stronger incentives for improving diplomatic ties between states and builds effective alliances The analysis also bears fruit for contemporary studies of counterterrorism in its critique of parallels between the Cold War and the Global War on Terror its examination of failed rapprochement efforts between Algeria and Morocco and its assessment of obstacles to U S coalition building efforts

The American Federationist, 1921 Includes separately paged Junior union section

The military and society : the proceedings... Military History Symposium. 5. 1972. Colorado Springs, Colo, 1975

America's Strategy in Southeast Asia James A. Tyner, 2006-12-21 Geography

encompasses everything from the local where human beings live work and travel to metageographies like nations and regions James A Tyner s inventive and multidisciplinary ideas on geography similarly range from the personal his father s experience in the military during the Vietnam War to a broad discussion of how the United States has come to exercise power through the production of geographic knowledge in this case in Southeast Asia Since the end of the Second World War Southeast Asia has served as a surrogate space to further American imperial interests which are economic political territorial and moral in scope America s Strategy in Southeast Asia contends that the construction of Southeast Asia as a geographic entity has been a crucial component in the creation of the American empire For example America s most blatant experience of colonial rule occurred the Philippines America s longest war was fought in Vietnam and most recently some American policymakers have identified Southeast Asia as the Second Front in the War on Terror Yet America s overriding strategy in Southeast Asia and the region itself remains something of a mystery for the American populace a black box in America s geographical imagination This clear and innovative book educates readers about Southeast Asia s importance in American foreign policy

American Federationist ,1920 To Increase the Efficiency of the Military Establishment of the United States United States. Congress. House. Committee on Military Affairs,1916 **Feminist Praxis against U.S. Militarism**

Wonhee Anne Joh,Nami Kim,2019-12-04 Feminist Praxis against U S Militarism provides critical feminist and womanist analyses of U S militarism that challenge the ongoing U S neoliberal military industrial complex and its multivalent violence that destroys people s lives especially women and other vulnerable populations It highlights the intentional critique of U S militarism from feminist womanist perspectives that seek to show the ways in which gender race ethnicity sexuality and violence intersect to threaten women s lives especially women of color s lives and the broader environment upon which women s lives are dependent Most of all this volume challenges the readers to understand the U S as the warfare counterterror carceral state and its devastating effects on the everyday lives of women especially women of color locally nationally and globally This volume also helps readers understand the racialized gendered impacts of U S militarism in conjunction with the ongoing global economies of dispossession and militarized violence across the borders of nation states Interrogating U S military interventions in other countries can show how the U S War on Terror directly affects U S domestic affairs and daily lives in the United States

Sentinels of Empire Jan K. Black,1986-03-26 This hard hitting critique of US policy toward Latin America includes a historical sketch of US relations with individual countries Black argues persuasively that the US has been the major opponent of needed reforms in Latin American countries and the major proponent of predatory military establishments The unwavering US goal she believes has been preservation of the established US empire in Latin America but she cites differing strategies to attain this goal used by conservatives President Reagan and liberals President Carter She sees a weakening of US hegemony however as pressures for reform become irresistible This book should be read by all who view US policy toward Latin America as benevolent Choice *American Militarism on the Small*

Screen Anna Froula, Stacy Takacs, 2016-03-17 Anna Froula is Associate Professor of Film Studies in the Department of English at East Carolina University USA Stacy Takacs is Associate Professor and Director of American Studies at Oklahoma State University USA

Embracing the Tune of Phrase: An Mental Symphony within **Militarism Usa**

In a global eaten by screens and the ceaseless chatter of immediate transmission, the melodic beauty and emotional symphony developed by the written term often diminish in to the back ground, eclipsed by the persistent sound and interruptions that permeate our lives. Nevertheless, nestled within the pages of **Militarism Usa** a charming literary treasure full of organic feelings, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, this captivating masterpiece conducts visitors on an emotional journey, skillfully unraveling the concealed melodies and profound impact resonating within each carefully crafted phrase. Within the depths of this moving examination, we can explore the book is key harmonies, analyze its enthralling writing style, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
