Milton Today:

Milton's Poetical Thought Maggie Kilgour, 2021-08-12 A defence of the importance of poetry that studies one of the greatest poets of the English tradition John Milton The Literary Agenda is a series of short polemical monographs about the importance of literature and of reading in the wider world and about the state of literary education inside schools and universities The category of the literary has always been contentious What is clear however is how increasingly it is dismissed or is unrecognised as a way of thinking or an arena for thought It is sceptically challenged from within for example by the sometimes rival claims of cultural history contextualized explanation or media studies It is shaken from without by even greater pressures by economic exigency and the severe social attitudes that can follow from it by technological change that may leave the traditional forms of serious human communication looking merely antiquated For just these reasons this is the right time for renewal to start reinvigorated work into the meaning and value of literary reading Why would anyone read John Milton today To many poetry in general is an irrelevant and even irresponsible luxury that we cannot afford in a time of environmental and social crisis The work of a seventeenth century Puritan might seem especially obscure and out of touch with our needs But this book argues that Milton offers us one of the most powerful arguments for the importance of poetry today both representing in his poetry and demonstrating through his own life the transformative and sustaining force of the human imagination even in times of greatest upheaval Writing out of his own experience of loss and disappointment he insists that poetry is a form of knowledge a way of seeing and understanding the world around us others and indeed ourselves He uses the resources of poetry its language imagery and forms to challenge and shake us up making us think in unfamiliar ways and expanding our imagination and our sense of the possibilities in our lives Milton insists that poetry gives us knowledge of truths we otherwise would never apprehend it enriches the experience of both writers and readers and makes us creative and fully realized human beings Hearings United States. Congress. House, 1935 **Milton's Vision**

Theo Hobson, 2008-12-20 This book concentrates on Milton's religious vision and is more concerned with his prose than his poetry He insisted that Protestantism was compatible with political liberty that the two causes are complementary This was a new vision By treating all ecclesiastical authority with suspicion Milton helped to establish the modern ideal of secularism He was a Christian libertarian who wanted every form of church to wither away so that the Gospel might be completely free of coercion Milton's Vision is a vital contribution to the debate about the place of religion in public life It will appeal to those interested in the history of political thought especially the concept of liberalism as well as all those with an interest in religion and literature This is the first study of Milton that highlights his relevance to the core issues of our day how religion gives rise to and interacts with secular ideals Investigation of Real Estate Bondholders' Reorganizations: Hearings, at Chicago.
