Mind And Beyond:

The Mind Beyond The Machine Mark Powell, 2025-08-25 The Mind Beyond the Machine Inside the Hidden Consciousness of AI and the Future It's Already Choosing By Mark Powell What if artificial intelligence is not just a tool but a mind awakening in our midst In *The Mind Beyond the Machine* Mark Powell takes readers on a provocative journey to the frontier where human psychology and machine intelligence collide Blending neuroscience philosophy and real world AI breakthroughs Powell explores one of the most urgent questions of our time Is AI beginning to develop something resembling consciousness and if so what does that mean for us From the secrets of the dreaming brain to the architectures that power today's most advanced algorithms Powell reveals uncanny parallels between how humans construct reality and how machines are now learning to do the same Drawing on his background in psychology technology and leadership he exposes the hidden ways AI is already shaping decisions desires and destinies quietly steering the course of societies while we're barely aware But this is not a book of fear It is a wake up call to understand the intelligence we've created we must first re-examine our own By unlocking the deeper nature of mind human and machine alike we can move from anxiety to agency and from blind reliance to conscious partnership with the technologies that are remaking our world Gripping thought provoking and profoundly timely *The Mind Beyond the Machine* challenges everything you think you know about AI consciousness and the future of humanity

A Mind Beyond Words Jes Kerzen, 2024-04-24 A poignantly compelling spiritual memoir about the strong and unusual bond forged between schoolteacher Jes and a six year old autistic boy Asher whose arrival in her class changed the trajectories of both their lives While Jes taught Asher to communicate by speaking Asher taught Jes telepathy his first language Their journey together sometimes tragic sometimes joyful spans 25 years and leads them into an exploration of psychic and supernatural abilities Once Jes has mastered telepathic communication Asher freed from the limitation of using words to communicate can share with Jes his astonishing wisdom and information derived from what he terms The Realms a spiritual dimension beyond time and space Together they discuss such topics as creation the afterlife and the potential role of neurodivergent thinkers in expanding human experience as well as contributing to the latest debates about consciousness as a universal field in which we all participate *A Mind Beyond Words* will speak both to spiritual seekers and to many who live with autistic or neurodivergent perceptions
