Mind Of Adolf Hitler:

A Psychological Analysis of Adolf Hitler Walter Charles Langer, 2020-07-29 A Psychological Analysis of Adolph Hitler His Life and Legend 1943 is a psychoanalytical report of Hitler prepared for the Office of Strategic Services OSS predecessor to the CIA by American psychologist Walter C Langer in collaboration with three other psychologists Professor Henry A Murray Dr Ernst Kris and Dr Bertram D Lewin In writing this analysis Langer and his colleagues interviewed people who knew Hitler personally and drew upon over 1000 pages of research from a document known as The Hitler Source Book The report made several accurate predictions about Hitler s future such as an assassination attempt on him by the German aristocracy and his suicide in the event of defeat This psychological profile of Hitler was the forerunner of the field of profiling foreign political leaders by the CIA including Soviet Premier Nikita Khrushchev Chinese leaders Mao Zedong and Deng Xiaoping and Cuban leader Fidel Castro also available from Cosimo Reports *The Mind of Adolf Hitler* Walter C. Langer, 1985 The book is based on and contains as its core a World War II report by psychoanalyst Walter C Langer which probed the psychology of Adolf Hitler from the available information The report was prepared for the Office of Strategic Services OSS and submitted in late 1943 or early 1944 The Mind of Adolf Hitler Walter C. Langer, 1973-08-14 *the Mind of Adolf Hitler* ,1972 *The Mind of Adolf Hitler* Walter Charles Langer, 1973-08-01 **The mind of Adolf Hitler** Walter Langer, 1969 The Mind of Adolf Hitler Walter Charles Langer, United States. Office of Strategic Services, William Leonard Langer, Robert George Leeson Waite, 1943 The Mind of Adolf Hitler Walter C. Langer, 1972 **Hitler's Mind** Edleff H. Schwaab, 1992-03-30 This book is the most up to date comprehensive analysis of Hitler written by a psychologist Going beyond the reliance on a Freudian interpretation of Hitler s personality Schwaab employs his knowledge of abnormal psychology to penetrate the paranoid world of Hitler and to demonstrate the depth of his mental disturbance The analysis is framed by a poignant personal reflection on Schwaab s experiences and those of his father who was first a follower of Hitler and later one of those who attempted to assassinate him growing up in Nazi Germany and an afterword in which the meaning of Nazism is placed in the context of contemporary developments in a reunited Germany **Mind of Adolf Hitler** Walter C. Langer, 1990 **The Mind of Adolf Hitler** Hugh Redwald Trevor-Roper, Adolf Hitler Sherree Owens Zalampas, 1990 Zalampas applies the psychological model of Alfred Adler to Adolf Hitler through the examination of his views on architecture art and music This study was made possible by the publication of Billy F Price s volume of over seven hundred of Hitler s watercolors oils and sketches **The Mind of Adolf Hitler** Walter C. Langer, 1972 *The Fascist State of Mind and the Manufacturing of Masculinity* Christina Wieland, 2014-08-13 *The Fascist State of Mind and the Manufacturing of Masculinity* A psychoanalytic approach attempts to describe in psychoanalytic terms the psychological consequences of massive social trauma and national humiliation and the regression that takes place within the individual under these circumstances The book is not about understanding fascism as a historical political or sociological phenomenon but about understanding the

special relationship between masculinity and fascism and the state of mind which both shaped and was shaped by the historical phenomenon of fascism Christina Wieland explores fascism as a product of certain forms of masculinity and focuses on the dynamics of masculinity as a mode of psychic functioning She examines in detail masculine anxieties and defences and their interaction with stresses of modernity and with the social and political unrest that followed World War One The Fascist State of Mind and the Manufacturing of Masculinity is divided into four parts Part One The meaning of fascism and the fascist state of mind theories and definitions Part Two Masculinity its meaning and its vulnerability Part Three Group and group theory and the total environment Part Four Exploring the links between masculinity groups and fascism The Fascist State of Mind and the Manufacturing of Masculinity uses clinical material literary texts and extensive psychoanalytic interpretation of some passages from Mein Kampf to illustrate the interplay of the psychological processes with social and political events This book will appeal to psychoanalysts and psychoanalytic psychotherapists teachers and students of psychoanalysis and gender studies It will also appeal to those interested in the application of psychoanalytic insights in the understanding of social and political phenomena Hitler's Table Talk Hugh R. Trevor-Roper, 1953 *The Pursuit of the Nazi Mind* Daniel Pick, 2012-06-14 The story of how psychoanalysis was used in the war against Nazi Germany in the crucial quest to understand the Nazi mind Daniel Pick brings both the skills of the historian and the trained psychoanalyst to weave together the story of clinical encounters with leading Nazis and the Allies broader interpretations of the Nazi high command and the mentality of the wider German public who supported them Following the bizarre capture of Hitler's deputy Rudolf Hess in 1941 Pick follows closely the story of how leading British psychiatrists assessed their new charge in an attempt to understand both the man himself and the psychological bases of his Nazi convictions At the same time he uncovers the story of how a team of American officers working for the OSS the forerunner of the CIA were engaged in an attempt to understand Hitler's personality from afar using the theories and techniques of Sigmund Freud Drawing upon a large cache of archives on both sides of the Atlantic Pick asks what such psychoanalytical and psychiatric investigations set out to do showing how Freud's famous talking cure was harnessed to the particular needs of military intelligence during the war and the task of post war reconstruction that followed Looking beyond this he then shows just how deeply post war Western understandings of how minds work and groups operate were influenced by these wartime attempts to interpret the psychopathology of Nazism

Of Mind and Murder George R. Mastroianni, 2018-09-07 How could the Holocaust have happened How can people do such things to other people Questions such as these have animated discussion of the Holocaust from our earliest awareness of what had happened These questions have engaged the lay public as well as academics from many different fields Psychologists have taken an active role in trying to understand and explain the motivation thinking and behavior of all those involved in and affected by the Holocaust The present volume is in part an attempt to provide a kind of historical roadmap to the diverse psychological explanations and interpretations that have been developed by psychologists over the last several

decades While many psychological discussions of the Holocaust dismiss or diminish the significance of work that antedates the Milgram obedience experiments in the early 1960s this book engages some of these earlier formulations in detail It strives to be in this sense a more complete history of psychological thought on the Holocaust As many psychologists now accept the idea that a comprehensive psychology of the Holocaust must include more than social influence the book addresses the question What then The answer can be found by looking both backward and forward in time Gordon Allport s 1954 book *The Nature of Prejudice* remains one of the best psychological attempts to grapple with the Holocaust written though that was not its primary purpose In this volume the reader will find both echoes of Allport and new ideas for ways psychologists can engage this profoundly important subject

Mind And Ideology Summer Maclean, 2009 The book offers an extensive background to the history religion politics cognitive psychology and anthropology that explains the behaviour of fanatical political movements and terrorism This is not a book of theory but of factual examples The book examines human nature as it has been demonstrated tested and moulded in myriad established cultures and in special environments The book lets one understand better what is happening in our world today If a reader seeks a universal explanation or theory he will need to formulate one himself from the data provided herein

German Artists and Hitler's Mind Wayne Andersen, 2007 Written in clear prose Wayne Andersen s expansive text accounts for all of modern Germany s major artists the Impressionists Max Liebermann and Lovis Corinth the Expressionists Edvard Munch Ernst Ludwig Kirchner Karl Schmidt Rottluff Erich Heckel and Max Pechstein the post World War I George Grosz Otto Dix and Rudolf Schlichter and the less classifiable Max Beckmann Paula Modersohn Becker Kathe Kollwitz Oskar Kokoschka and Frans Marc Theatre and cabaret life are treated in equal measure to the visual arts with rich coverage of Ibsen s *Ghosts* Brecht s *The Jungle of Cities* and the prototype of modern filmmaking *The Cabinet of Dr Caligari* Andersen assigns his challenging lines of attack to radical issues that established in Germany the essential first wave of twentieth century avant garde art and culture Insisting that German art is masculine and prone to violence he formulates a compelling explanation for how artists and defensive art critics convert violence into art as a pretence to mirroring society He associates Lustmord sex murder imagery in German art theatre and cabaret entertainment with the sexuality of war He sees Germania s primal barbarism in German painting infused with the rise of Germany s Nacktkultur nudist cults A desensitising nakedness replaces sublimated nudity The innocent nakedness of youth offers an opportunity for cultural renewal and a symbol of physical power
