Digital Literacies for Learning Allan Martin, Dan Madigan, 2006

In the 21st century digital tools enable information to be generated faster and in greater profusion than ever before to the point where its extent and value are literally beyond imagining Such quantities can only be meaningfully addressed using more digital tools and thus our relationship to information is fundamentally changed This situation presents a particular challenge to processes of learning and teaching and demands a response from both information professionals and educators Enabling education in a digital environment means not only changing the form in which learning opportunities are offered but also enabling students to survive and prosper in digitally based learning environments This collection brings together a global community of educators educational researchers librarians and IT strategists to consider how learners need to be equipped in an educational environment that is increasingly suffused with digital technology Traditional notions of literacy need to be challenged and new literacies including information literacy and IT literacy need to be considered as foundation elements for digitally involved learners Leading international experts from the USA Canada Australia New Zealand South Africa Mexico and throughout Europe contribute to the debate and Hannelore Rader Librarian and Dean of the University Libraries University of Louisville Kentucky provides the foreword The book is in two parts In Part 1 Literacies in the Digital Age the contributors analyse how digital technologies have enabled transformative change in the ways in which learning can be constructed and discuss the nature of the new literacies that have emerged in this new virtual and e learning environment In Part 2 Enabling and Supporting Digital Literacies the contributors go on to consider the ways in which digital literacies can be made available to learners and how these literacies are being relocated in a more student centred environment within the broader perspective of learning Readership This book takes the issues raised in the successful Information and IT Literacy also co edited by Allan Martin into a broader context It is essential reading for all information professionals and educators involved in developing strategies and practices for learning in a digital age

,2007 Christian Home Educators' Curriculum Manual Cathy Duffy, 1997-11 Resources in Education, 1982 How

and Why to Read and Create Children's Digital Books Natalia Kucirkova, 2018-12-03 How and Why to Read and Create Children's Digital Books outlines effective ways of using digital books in early years and primary classrooms and specifies the educational potential of using digital books and apps in physical spaces and virtual communities. With a particular focus on apps and personalised reading Natalia Kucirkova combines theory and practice to argue that personalised reading is only truly personalised when it is created or co-created by reading communities. Divided into two parts Part I suggests criteria to evaluate the educational quality of digital books and practical strategies for their use in the classroom. Specific attention is paid to the ways in which digital books can support individual children's strengths and difficulties digital literacies language and communication skills. Part II explores digital books created by children their caregivers teachers and librarians and Kucirkova also offers insights into how smart toys tangibles and augmented virtual reality tools can enrich children's reading for pleasure. How and Why to Read and Create Children's Digital Books is of interest to an international readership ranging from trainee or established teachers to MA level students and researchers as well as designers librarians and publishers. All are inspired to approach children's reading on and with screens with an agentic perspective of creating and sharing. Praise for How and Why to Read and Create Children's Digital Books. This is an exciting and innovative book not least because it is freely available to read online but because its origins are in primary practice. The author is an accomplished storyteller and whether you know as yet little about the value of digital literacy in the storymaking process or you are an accomplished digital player this book is full of evidence informed ideas explanations and inspiration. Liz Chamberlain Open University At a time when children's reading is increasingly on screen many teachers parents and carers are seeking practical straightforward guidance on how to support children's engagement with digital books. This volume written by the leading expert on personalised e-books is packed with app reviews suggestions and insights from recent international research all underpinned by careful analysis of digital book features and recognition of reading as a social and cultural practice. Providing accessible guidance on finding choosing sharing and creating digital books it will be welcomed by those excited by the possibilities of enthusing children about reading in the digital age.
