Miles Diary:

Mrs Miles's Diary Constance Miles, 2013-08-15 Better times will come again a fascinating insight into how ordinary people cope in extraordinary circumstances At the outbreak of the Second World War Constance Miles was living with her husband in the pretty Surrey village of Shere A prolific correspondent with a keen interest in current affairs Constance kept a war journal from 1939 to 1943 recording in vivid detail what life was like for women on the Home Front She writes of the impact of evacuees of food shortages and the creative uses of what food there was and the fears of the local populace who wonder how they will cope She tells of refugees from central Europe billeted in village houses and later in the war of the influx of American servicemen She travels frequently to London mourning the destruction of familiar landmarks and recording the devastation of the Blitz but still finds time for tea in the Strand In a time when people were asked to put national interests above their own personal comfort and liberty a time when they too were reassured that they'd meet loved ones again Mrs Miles's diaries makes for compulsive reading **Thick Description and Fine Texture** David B. Baker, 2003 The essays contained in this volume offer a unique and personal perspective on the archival research process in the history of psychology Celebrating the achievements of John A Popplestone and Marion White McPherson founders of the Archives of the History of American Psychology at The University of Akron in 1965 nine leading scholars describe the value frustration and satisfaction inherent in the archival process in the history of psychology The essays provide valuable information on modern historiography in the history of psychology and the construction of historical narrative based on archival resources

James Miles Diary, 1865 The collection consists of the Civil War diary of James Miles The diary's entries date from January through March 1865 and include descriptions of battles and the deaths of soldiers by snipers Miles's short entries relate the physical and emotional difficulties of being a soldier as evidenced by an entry about a fellow soldier who had deserted supposed to shoot him but didn't have it in me The last entry is on the day before Miles was killed in action which was ten days before the end of the war **Custer's Last Campaign** John S. Gray, 1993-01-01 Easily the most significant book yet published on the Battle of the Little Bighorn Paul L Hedren Western Historical Quarterly Gray has applied rigorous analysis as no previous historian has done to these oft analyzed events His detailed time motion study of the movements of the various participants frankly boggles the mind of this reviewer No one will be able to write of this battle again without reckoning with Gray Thomas W Dunlay Journal of American History Gray challenges many time honored beliefs about the battle Perhaps most significantly he brings in as much as possible the testimony of the Indian witnesses especially that of the young scout Curley which generations of historians have dismissed for contradictions that Gray convincingly demonstrates were caused not by Curley but by the assumptions made by his questioners The contrasts in this book restate the basic components of what still attracts the imagination to the Little Bighorn Los Angeles Times Book Review Gray's analysis by and large is impressively drawn it is an immensely logical reconstruction that should stand the test of time As a contribution to

Custer and Indian wars literature it is indeed masterful Jerome A Greene New Mexico Historical Review John S Gray was a distinguished historian whose books included the acclaimed Centennial Campaign The Sioux War of 1876 Custer's Last Campaign is the winner of the Western Writers of American Spur award and the Little Bighorn Associates John M Carroll Literary Award

Feminist History in Canada Post-Doctoral Fellow at the Department of History Nancy Janovicek, Catherine Carstairs, 2013-11-25 In the late 1970s feminists urged us to rethink Canada by placing women's experiences at the centre of historical analysis Forty years later women's and gender historians continue to take up the challenge not only to interrogate the idea of nation but also to place their work in a global perspective This volume showcases the work of scholars who draw on critical race theory postcolonial theory and transnational history to re-examine familiar topics such as biography and oral history paid and unpaid work marriage and family and women's political action Taken together these exciting new essays demonstrate the continued relevance of history informed by feminist perspectives

1809-1872 John Morley, 1908 **Frontier Times**, 1926 The OSS and Ho Chi Minh Dixie R. Bartholomew-Feis, 2006

Some will be shocked to find out that the United States and Ho Chi Minh our nemesis for much of the Vietnam War were once allies. Indeed during the last year of World War II American spies in Indochina found themselves working closely with Ho Chi Minh and other anti colonial factions compelled by circumstances to fight together against the Japanese. Dixie Bartholomew Feis reveals how this relationship emerged and operated and how it impacted Vietnam's struggle for independence. Although the OSS did not bring Ho Chi Minh to power Bartholomew Feis shows that its apparent support for the Viet Minh played a significant symbolic role in helping them fill the power vacuum left in the wake of Japan's surrender. Her study also hints that had America continued to champion the anti colonials and their quest for independence rather than caving in to the French we might have been spared our long and very lethal war in Vietnam. Based partly on interviews with surviving OSS agents who served in Vietnam Bartholomew Feis's engaging narrative and compelling insights speak to the yearnings of an oppressed people and remind us that history does indeed make strange bedfellows.

The Tangled Roots of Feminism, Environmentalism, and Appalachian Literature Elizabeth Sanders Delwiche Engelhardt, 2003

In this study Elizabeth Engelhardt finds in the work of four women writers from Appalachia the origins of what is recognized today as ecological feminism a wide reaching philosophy that values the connections between humans and non humans and works for social and environmental justice.
