### **Military Base Closures**

David E. Lockwood,2003 Approximately 13 years ago in December 1988 the first military base closure commission recommended the closing and realignment of 145 US domestic bases and facilities This action was the consequence of the Department of Defense s broad reevaluation of its mission in conjunction with the weakening and ultimate collapse of the Soviet Union There was little need according to the Pentagon to continue to retain the vast Cold War era infrastructure Funds saved from closing down under utilised bases DOD further noted could be used to enhance development of new weapons and improved readiness Three additional rounds followed the 1988 round of infrastructure reductions in 1991 1993 and 1995 Since then no further rounds of base closures and realignments have been authorised by Congress despite repeated requests from the Department of Defense in recent years for two additional rounds The reasons for congressional resistance are two fold First there is concern over a likely backlash from constituents living in or near military installations Second many Members of Congress remain wary about a repetition of the perceived political intrusion by the Clinton Administration that occurred in regard to the 1995 recommendations to close Kelly and McClellan air force bases This book reveals the tension in the military facilities that may yet again be up for closure Also discussed are the issues members of Congress feel need be answered before conducting a new round of base closures when the national security environment is uncertain

Exploring the Association Between Military Base Neighborhood Characteristics and Soldiers' and Airmen's Outcomes Sarah Opal Meadows,2013 This report explores the applicability of neighborhood theory and social indicators research to understanding the quality of life in and around military bases It also highlights gaps in neighborhood study methodology that need to be addressed in future research Finally it outlines how a more in depth neighborhood analysis of military installations could be conducted

**Area 51** Annie Jacobsen,2011-05-17 This compellingly hard hitting bestseller from a Pulitzer Prize finalist gives readers the complete untold story of the top secret military base for the first time New York Times It is the most famous military installation in the world And it doesn t exist Located a mere seventy five miles outside of Las Vegas in Nevada s desert the base has never been acknowledged by the U S government but Area 51 has captivated imaginations for decades Myths and hypotheses about Area 51 have long abounded thanks to the intense secrecy enveloping it Some claim it is home to aliens underground tunnel systems and nuclear facilities Others believe that the lunar landing itself was filmed there The prevalence of these rumors stems from the fact that no credible insider has ever divulged the truth about his time inside the base Until now Annie Jacobsen had exclusive access to nineteen men who served the base proudly and secretly for decades and are now aged 75 92 and unprecedented access to fifty five additional military and

intelligence personnel scientists pilots and engineers linked to the secret base thirty two of whom lived and worked there for extended periods In Area 51 Jacobsen shows us what has really gone on in the Nevada desert from testing nuclear weapons to building super secret supersonic jets to pursuing the War on Terror This is the first book based on interviews with eye witnesses to Area 51 history which makes it the seminal work on the subject Filled with formerly classified information that has never been accurately decoded for the public Area 51 weaves the mysterious activities of the top secret base into a gripping narrative showing that facts are often more fantastic than fiction especially when the distinction is almost impossible to make

**Military Bases** United States. General Accounting Office,1989      **Circling the Earth** Elliott Vanveltner Converse,2005 In December 1942 barely a year after the United States had entered World War II the American military establishment was already planning a postwar overseas base network Although initially designed to support an international police force the plans increasingly assumed a national character as the Grand Alliance dissolved into the confrontations of the Cold War Dr Converse not only illustrates how Army Navy and Air Force planners went about their work but also analyzes the numerous factors influencing the nature extent and location of the projected base system These included requirements for postwar US physical and economic security rapidly changing technology interservice rivalries civil military conflicts and reactions by other nations to the prospect of American bases near or on their soil

### **The Faces**

**Behind the Bases** Mark W. Royston,2009-05 Have you ever wondered for whom military bases are named This book gives a short biography for those persons including the halls and monuments at the Service Academies it doesn t dwell on the politics if any that were a part of the naming decision Check on your favorite base and then look at the entire book as a history of our nation

**Realignments** United States. General Accounting Office,1991      **Military Bases** United States. General Accounting Office,1993      **Military Base Realignments and Closures** Brian J. Lepore,2009-05 The 2005 Base Realignment and Closure BRAC round is the biggest most complex and costliest BRAC round ever In addition to base closures many recommendations involve realignments such as returning forces to the U S from bases overseas and creating joint bases However anticipated savings remained an important consideration in justifying the need for the 2005 BRAC round This report assessed 1 challenges that might affect timely completion of recommendations 2 any changes in DoD s reported cost and savings estimates since FY 2008 and 3 the potential for estimates to continue to change Includes recommendations Charts and tables
