## Millennial Markers:

**Millennial Markers** Pamela J. Stewart, Andrew Strathern, 1997      The Latter-Day Saints' Millennial Star, 1876

*Millennials and Media Ecology* Anthony Cristiano, Ahmet Atay, 2019-07-03 Millennials and Media Ecology explores issues pertaining to millennials and digital media ecology and studies the cultural pedagogical and political environments such heterogeneous generation populates The book questions whether millennials are properly understood as a heterogeneous group particularly by the institutions and agencies that target them and whether they are demonstrating the ability to set out a path for themselves and take charge of their own life and future A diverse team of expert authors review past and current studies with critical assessment of arguments and propositions and document actual experiences of members of the millennial generation through detailed studies Engaging with topical subject matter and current research on millennials the chapters Question the misunderstanding that digital tools and Internet technologies are making the younger generation dumber and disengaging them from the real world Underscore the legal and economic insights into the commodification of the younger generation as consumers rather than learners Examine the historical trajectory of media technology and whether new practices are having an empowering effect or one of enslavement to an increasingly irreversible technological and socio political regime Shed light on issues of critical pedagogy emerging from digital environments in relation to one s mental abilities and degrees of wisdom Discuss the cultural and political implications of millennials new media trends the changing relationship between millennials and legacy media which rely on the younger generation for survival Offer new insights into the significance of current media trends in relation to issue of credibility and identity This is an essential book for scholars in the fields of Media and Communications and Popular Culture and will be vital reading for postgraduate students and specialists in related fields      **United in Discontent** Julia Suzanne Torrie, 2010 Preparing for air war Order or chaos Organizing evacuations Our stay gives us no pleasure If only family unity can be maintained On the basis of selection Responding to chaos Evacuation s aftermath      **Religion, Race, and COVID-19** Stacey M. Floyd-Thomas, 2022-02-15 Examines how the dynamics emerging from the pandemic affect our most vulnerable populations and shape a new religious landscape The COVID 19 pandemic upset virtually every facet of society and in many cases exposed gross inequality and dysfunction The particular dynamics emerging from the coronavirus pandemic have been felt most intensely by America s most vulnerable populations who are disproportionately people of color and the working poor the people whom the Bible refers to as the least of these This book makes the case that the pandemic was not just a medical phenomenon or an economic or social one but also a religious one Religious practice has been altered in profound ways Controversies around religious freedom have been re ignited over debates concerning whether government can restrict church services Christian white supremacists not only defied shelter in place orders but found new ways to propagate racist attacks with their White Christian identity fueling their reactions to the pandemic Some religious leaders including those in communities of color saw

the virus as an indicator of God's wrath or as a divine test and viewed altering their traditional practices to mitigate the virus's spread as a weakening of faith. Religion, Race, and COVID-19 argues that there is a religious hierarchy in US society that puts the least of these last while prioritizing those who benefit most from white privilege. Yet these vulnerable populations draw on theological and religious resources to contend with these existential threats. The volume shows how social transformation occurs when faith is both formed and informed during crises, offering compelling insight into the saliency and lasting impact of religiosity within human culture.

*Violence* Pamela Stewart, Andrew Strathern, 2002-01-01 This book provides a wide-ranging introduction to the meaning and context of violence. The authors build upon David Riches's concept of the triangle of violence, which examines the relationship between performers, victims, and witnesses, and his proposition that violence is marked by contests regarding its legitimacy as a social act. Adopting an approach which looks at the negotiated and contingent nature of violent behavior, Stewart and Strathern particularly stress the powerful underlying motivation for revenge and the often unacknowledged association between ideas of revenge and concepts of justice. These theoretical perspectives are applied to in-depth case studies from Rwanda, Uganda, Sri Lanka, and Northern Ireland. The authors also draw on extensive field experience in Papua New Guinea, and ethnographic detail is used to address broader issues of considerable global importance.

*The Gen Z Frequency* Gregg L. Witt, Derek E. Baird, 2018-09-03 Generation Z has enormous spending power yet is one of the most challenging cohorts to reach. Ensure your brand stays tuned in to the demographic's impatience, confidence, and evolving trends. Generation Z is projected to be the largest consumer demographic in history, driving a forecast from the HRC Retail Advisory of 40% of all US consumer spending and another 40% of all consumers in the US, Europe, and BRIC by 2020. Brazil, Russia, India, China, according to other sources. Embodying an unrelenting relationship with information and mobile technology from a young age, Generation Z's ecosystem is infinitely more complex and varied than any generation before, which can be daunting for any marketer trying to keep up. *The Gen Z Frequency* offers a comprehensive guide for any brand or organization trying to reach this demographic, covering fundamental truths, content creation, engagement strategies, and tactics such as social media, experiential, emerging technologies, and much more. It is woven with fascinating case studies and real-world stories from the trenches, plus key insights from leading youth brands and Gen Z themselves. Whether you are new to marketing or a seasoned expert, *The Gen Z Frequency* is the ultimate resource for tuning in to Generation Z.

**World Order**, 1999

*Climate Change and Tradition in a Small Island State* Peter Rudiak-Gould, 2013-07-18 The citizens of the Marshall Islands have been told that climate change will doom their country, and they have seen confirmatory omens in the land, air, and sea. This book investigates how grassroots Marshallese society has interpreted and responded to this threat, as intimated by local observation, science, communication, and Biblical exegesis. With grounds to dismiss or ignore the threat, Marshall Islanders have instead embraced it with reasons to forswear guilt and

responsibility they have instead adopted in group blame and having been instructed that resettlement is necessary they have vowed instead to retain the homeland These dominant local responses can be understood as arising from a pre existing vigorous constellation of Marshallese ideas termed modernity the trickster a historically inspired narrative of self inflicted cultural decline and seduction by Euro American modernity This study illuminates islander agency at the intersection of the local and the global and suggests a theory of risk perception based on ideological commitment to narratives of historical progress and decline     Ethnology ,2005     **The Journal of the Royal Anthropological Institute** ,2003 Articles on all aspects of anthropology     Paideuma ,2000     Identity Work Pamela J. Stewart,Andrew Strathern,2000 An examination of the position held by life story narratives in anthropological writings By tracing themes in the life of a subject represented the authors show how a person can be both linked to and alienated from their social world through their own developing experiences     **Sculpture** Philippe Bruneau,Antoinette Le Normand-Romain,1996 Four volumes cover the history of sculpture from earliest times to the 20th century     **Collaborations & Conflicts** Ongka,Andrew Strathern,Pamela J. Stewart,2000 Consists chiefly of the autobiographical narrative of Ongka a leader among the Kawelka people of Mount Hagen Papua New Guinea     **'The Spirit is Coming!'** Andrew Strathern,Pamela J.
