Mind One:

The World a Spiritual System James Henry Snowden, 1910 *The Origins of the Christian Mystical Tradition* Andrew Louth, 2007-01-25 Andrew Louth traces the Christian mystic tradition from Plato through figures such as Origen Gregory of Nyssa and Augustine and explores the diverse and conflicting influences to be found in Christian spirituality **GAIN WISDOM** S. V. Subramanyam (Prof.), 2010-12 Presents all the 195 Yoga Sutras professed by the legendary Maharishi PATANJALI He affirmed that Yoga is not only limited to sanas but also aims at outer and inner purification control and balance of the self meditation and complete absorption And finally union with the Self Contains 4 Chapters Samadhi Sadhana Vibhuti and Kaivalya Comprises of all the 8 limbs of Ashtanga Yoga 5 external and 3 internal Yama Niyama Asana Pranayama Pratyahara Dharana Dhyana and Samadhi The book fully utilizes available technology to aid elaboration of the commentary on Yoga Sutras which are admittedly terse Charts and tables as well as graphs and pictures adorn the book practically on every page so that the reader finds it helpful to enhance his understanding Stories and quotations from the spiritual greats are added to widen comprehension This then is a book that is truly unique in its presentation that would find ready acceptance by Yoga teachers and students alike all over the world All those students and teachers of Yogasanas who wish to go beyond Asanas and aim at avoidance of mental modifications and the resultant stressful life would find this book a boon

Spreading Indra's Net D. T. Suzuki, 2025-08-26 D T Suzuki's 1950s lectures at Columbia University were foundational for the postwar Zen boom Speaking softly in a bookcase lined room Suzuki then in his eighties introduced East Asian Buddhism to a rapt audience of the general public scholars and students He offered a distinctive interpretation of Zen weaving together his understanding of classical Buddhist texts especially the Flower Garland Sutra with Christian mysticism psychology and twentieth century European and American philosophy The freewheeling lectures captivated listeners drawn from the New York intelligentsia and art world including Carolyn Brown John Cage Arthur Danto Sari Dienes Erich Fromm Phillip Guston Ibram Lassaw and Dorothy Norman and catalyzed public interest in Buddhism *Spreading Indra's Net* presents Suzuki's 1952 1953 lectures in full giving a vivid look at how one of the most important global Buddhist figures of the twentieth century interpreted Zen for an American audience Drawing on archival research in Japan and the United States editor Richard M Jaffe provides an extensive introduction that traces Suzuki's path to Columbia analyzes the content of the lectures and surveys their reception Among the most accessible works of a major figure and a record of a crucial moment in New York history this book displays Suzuki's gifts as a teacher scholar writer and thinker **The Formation of Ch'an**

Ideology in China and Korea Robert E. Buswell, Jr., 2017-03-14 This book is a translation and study of the Vajrasamadhi Sutra and an examination of its broad implications for the development of East Asian Buddhism The Vajrasamadhi Sutra was traditionally assumed to have been translated from Sanskrit but some modern scholars principally in Japan have proposed that it is instead an indigenous Chinese composition In contrast to both of these views Robert Buswell maintains it was

written in Korea around A D 685 by a Korean adept affiliated with the East Mountain school of the nascent Chinese Ch'an tradition. He thus considers it to be the oldest work of Korean Ch'an or Son which in Japan became known as the Zen school and the second oldest work of the Sinitic Ch'an tradition as a whole. Buswell makes his case for the scripture's dating, authorship and provenance by placing the sutra in the context of Buddhist doctrinal writings and early Ch'an literature in China and Korea. This approach leads him to an extensive analysis of the origins of Ch'an ideology in both countries and of the principal trends in the sinicization of Buddhism. Buddhism has typically been studied in terms of independent national traditions but Buswell maintains that the history of religion in China, Korea and Japan should be treated as a whole. Retrieving Nicaea Khaled Anatolios, 2011-08-01. Khaled Anatolios, a noted expert on the development of Nicene theology, offers a historically informed theological study of the development of the doctrine of the Trinity, showing its relevance to Christian life and thought today. According to Anatolios, the development of trinitarian doctrine involved a global interpretation of Christian faith as a whole. Consequently, the meaning of trinitarian doctrine is to be found in a reappropriation of the process of this development such that the entirety of Christian existence is interpreted in a trinitarian manner. The book provides essential resources for this reappropriation by identifying the network of theological issues that comprise the systematic scope of Nicene theology, focusing especially on the trinitarian perspectives of three major theologians: Athanasius, Gregory of Nyssa, and Augustine. It includes a foreword by Brian E. Daley.
