Minding Organization:

The Minding Organization Moshe F. Rubinstein, Iris R. Firstenberg, 1999-08-30 A few years ago Cementos Mexicanos Cemex the world's third largest cement company was struggling. More than two thirds of their deliveries were late, customer complaints were numerous and new orders were dwindling sharply. Then Cemex executives realized they needed to get a glimpse of the future. They saw themselves responding to customer needs as each need emerged. They visualized successful deliveries with orders placed only an hour in advance. Their entire organization became involved in the process of adapting to unplanned occurrences. By embracing the uncertainty and chaos of their business and a company wide commitment to excellence, Cemex was completely transformed in a matter of months. This is a remarkable example of minding identifying a purpose, developing a team and acting to accomplish that purpose. Achieving this kind of high level connection is what *The Minding Organization* is all about. This book will show you how to transform your organization into one that behaves like a living organism, alive with ideas and instantly able to adapt for survival in an increasingly complex, unpredictable global business world. A minding organization coordinates its efforts as a single being, the right hand literally knows what the left hand is doing. The minding process will help you save precious work time, avoid costly mistakes, build incentives for speed and find creative solutions when unpredictable problems arise. Creating a minding organization will teach you how to operate on the edge of chaos, embracing uncertainty as a strategy. Bring insights up front that would normally be learned much later. Distribute decision making in such a way that everyone has the responsibility to be right and the authority to be wrong. Create an environment in which the human spirit can soar. *The Minding Organization* will show you how less planning and more adapting makes for a competitive advantage as you learn to cope with new ever changing conditions and innovate faster than your competitors. Praise for *The Minding Organization*: Professor Rubinstein is one of the foremost experts on creativity within organizations. *The Minding Organization* is a well written guide that is must reading for anyone responsible for minding the organization. Norman R. Augustine, Chairman of the Executive Committee, Lockheed Martin. The authors make intuitive good sense and give strategic thinkers the tools they need to turn perceived liabilities into assets. I've made it must reading for everyone in my organization. The only people I haven't recommended it to are my competitors. Timothy W. Hannemann, Executive Vice President and General Manager, TRW. This book gives an accessible view of the organization as a living, connected organism. Drs. Rubinstein and Firstenberg have shared an insightful and elegant concept of what successful twenty first century organizations MUST be like if they want to survive and grow. We are putting the ideas in this book to use now. Michael E. Allgeier, Division Vice President, Sensors and Electronics Segment, Raytheon. Rubinstein is as ebullient in print as he is in person. *The Minding Organization* transcends time and theory, enabling the practice of innovation as an everyday occurrence. Stephan Argent, Creative Director, iCandy Inc. In this book you'll find out how to open up a world of opportunity by bringing the future to the present, visualizing the ideal end state and working
