Cybersecurity for entrepreneurs Gloria D'Anna,Zachary A. Collier,2023-05-30 One data breach can close a small business before it even gets going With all that is involved in starting a new business cybersecurity can easily be overlooked but no one can afford to put it on the back burner Cybersecurity for Entrepreneurs is the perfect book for anyone considering a new business venture Written by cybersecurity experts from industry and academia this book serves as an all inclusive reference to build a baseline of cybersecurity knowledge for every small business Authors Gloria D Anna and Zachary A Collier bring a fresh approach to cybersecurity using a conversational tone and a friendly character Peter the Salesman who stumbles into all the situations that this book teaches readers to avoid Cybersecurity for Entrepreneurs includes securing communications protecting financial transactions safeguarding IoT devices understanding cyber laws managing risks and assessing how much to invest in cyber security based on specific business needs ISBN 9781468605723 ISBN 9781468605730 ISBN 9781468605747 DOI 10 4271 9781468605730 **Cyber Security Auditing, Assurance, and Awareness Through CSAM and CATRAM** Sabillon, Regner,2020-08-07 With the continued progression of technologies such as mobile computing and the internet of things IoT cybersecurity has swiftly risen to a prominent field of global interest This has led to cyberattacks and cybercrime becoming much more sophisticated to a point where cybersecurity can no longer be the exclusive responsibility of an organization s information technology IT unit Cyber warfare is becoming a national issue and causing various governments to reevaluate the current defense strategies they have in place Cyber Security Auditing Assurance and Awareness Through CSAM and CATRAM provides emerging research exploring the practical aspects of reassessing current cybersecurity measures within organizations and international governments and improving upon them using audit and awareness training models specifically the Cybersecurity Audit Model CSAM and the Cybersecurity Awareness Training Model CATRAM The book presents multi case studies on the development and validation of these models and frameworks and analyzes their implementation and ability to sustain and audit national cybersecurity strategies Featuring coverage on a broad range of topics such as forensic analysis digital evidence and incident management this book is ideally designed for researchers developers policymakers government officials strategists security professionals educators security analysts auditors and students seeking current research on developing training models within cybersecurity management and awareness *Cybersecurity Readiness* Dave Chatterjee,2021-02-09 Information security has become an important and critical component of every organization In his book Professor Chatterjee explains the challenges that organizations experience to protect information assets The book sheds light on different aspects of cybersecurity including a history and impact of the most recent security breaches as well as the strategic and leadership components that help build strong cybersecurity programs This book helps bridge the gap between academia and practice and provides important insights that may help professionals in every industry Mauricio Angee Chief Information Security Officer GenesisCare USA Fort Myers

Florida USA This book by Dave Chatterjee is by far the most comprehensive book on cybersecurity management Cybersecurity is on top of the minds of board members CEOs and CIOs as they strive to protect their employees and intellectual property This book is a must read for CIOs and CISOs to build a robust cybersecurity program for their organizations Vidhya Belapure Chief Information Officer Huber Engineered Materials CP Kelco Marietta Georgia USA Cybersecurity has traditionally been the purview of information technology professionals who possess specialized knowledge and speak a language that few outside of their department can understand In our current corporate landscape however cybersecurity awareness must be an organization wide management competency in order to mitigate major threats to an organization s well being and be prepared to act if the worst happens With rapidly expanding attacks and evolving methods of attack organizations are in a perpetual state of breach and have to deal with this existential threat head on Cybersecurity preparedness is a critical and distinctive competency and this book is intended to help students and practitioners develop and enhance this capability as individuals continue to be both the strongest and weakest links in a cyber defense system In addition to providing the non specialist with a jargon free overview of cybersecurity threats Dr Chatterjee focuses most of the book on developing a practical and easy to comprehend management framework and success factors that will help leaders assess cybersecurity risks address organizational weaknesses and build a collaborative culture that is informed and responsive Through brief case studies literature review and practical tools he creates a manual for the student and professional alike to put into practice essential skills for any workplace *Cybersecurity in the Transportation Industry* Imdad Ali Shah,Noor Zaman Jhanjhi,2024-07-02 This book offers crucial solutions and insights on how transportation companies can enhance their cybersecurity management and protect their corporate reputation and revenue from the increasing risk of cyberattacks The movement of people and goods from one location to another has always been essential to human development and survival People are now exploring new methods of carrying goods Transportation infrastructure is critical to the growth of a global community that is more united and connected The presented cybersecurity framework is an example of a risk based method for managing cybersecurity risk An organisation can find opportunities to strengthen and explain its management of cybersecurity risk by using its existing procedures and leveraging the framework The framework can provide a foundation for businesses that do not currently have a formal cybersecurity program However there is a strong temptation to give in when a transportation company is facing a loss of millions of dollars and the disruption of the worldwide supply chain Automobile production sales trucking and shipping are high value industries for transportation enterprises Scammers know that these corporations stand to lose much more in terms of corporate revenue and reputation than even the highest ransom demands making them appealing targets for their schemes This book will address the increasing risk of cyberattacks and offer solutions and insight on the safety and security of passengers cargo and transportation infrastructure to enhance the security concepts of communication systems and the dynamic vendor ecosystem Advances in Human

<u>Factors in Cybersecurity</u> Denise Nicholson,2016-08-16 This book reports on the latest research and developments in the field of cybersecurity giving a special emphasis on personal security and new methods for reducing human error and increasing cyber awareness and innovative solutions for increasing the security of advanced Information Technology IT infrastructures It covers a wealth of topics including methods for human training novel Cyber Physical and Process Control Systems social economic and behavioral aspects of the cyberspace issues concerning the cyber security index security metrics for enterprises risk evaluation and many others Based on the AHFE 2016 International Conference on Human Factors in Cybersecurity held on July 27 31 2016 in Walt Disney World Florida USA this book not only presents innovative cybersecurity technologies but also discusses emerging threats current gaps in the available systems and future challenges that may be coped with through the help of human factors research   <u>Computer Security. ESORICS 2024 International Workshops</u> Joaquin Garcia-Alfaro,Ken Barker,Guillermo Navarro-Arribas,Cristina Pérez-Solà,Sergi Delgado-Segura,Sokratis Katsikas,Frédéric Cuppens,Costas Lambrinoudakis,Nora Cuppens-Boulahia,Marek Pawlicki,Michał Choraś,2025-04-01 This two volume set LNCS 15263 and LNCS 15264 constitutes the refereed proceedings of eleven International Workshops which were held in conjunction with the 29th European Symposium on Research in Computer Security ESORICS 2024 held in Bydgoszcz Poland during September 16 20 2024 The papers included in these proceedings stem from the following workshops 19th International Workshop on Data Privacy Management DPM 2024 which accepted 7 full papers and 6 short papers out of 24 submissions 8th International Workshop on Cryptocurrencies and Blockchain Technology CBT 2024 which accepted 9 full papers out of 17 submissions 10th Workshop on the Security of Industrial Control Systems and of Cyber Physical Systems CyberICPS 2024 which accepted 9 full papers out of 17 submissions International Workshop on Security and Artificial Intelligence SECAI 2024 which accepted 10 full papers and 5 short papers out of 42 submissions Workshop on Computational Methods for Emerging Problems in Disinformation Analysis DisA 2024 which accepted 4 full papers out of 8 submissions 5th International Workshop on Cyber Physical Security for Critical Infrastructures Protection CPS4CIP 2024 which accepted 4 full papers out of 9 submissions 3rd International Workshop on System Security Assurance SecAssure 2024 which accepted 8 full papers out of 14 submissions   *Next-Generation Enterprise Security and Governance* Mohiuddin Ahmed,Nour Moustafa,Abu Barkat,Paul Haskell-Dowland,2022-04-19 The Internet is making our daily lives as digital as possible and this new era is called the Internet of Everything IoE The key force behind the rapid growth of the Internet is the technological advancement of enterprises The digital world we live in is facilitated by these enterprises advances and business intelligence These enterprises need to deal with gazillions of bytes of data and in today s age of General Data Protection Regulation enterprises are required to ensure privacy and security of large scale data collections However the increased connectivity and devices used to facilitate IoE are continually creating more room for cybercriminals to find vulnerabilities in enterprise systems and flaws in their corporate governance Ensuring cybersecurity and corporate

governance for enterprises should not be an afterthought or present a huge challenge In recent times the complex diversity of cyber attacks has been skyrocketing and zero day attacks such as ransomware botnet and telecommunication attacks are happening more frequently than before New hacking strategies would easily bypass existing enterprise security and governance platforms using advanced persistent threats For example in 2020 the Toll Group firm was exploited by a new crypto attack family for violating its data privacy where an advanced ransomware technique was launched to exploit the corporation and request a huge figure of monetary ransom Even after applying rational governance hygiene cybersecurity configuration and software updates are often overlooked when they are most needed to fight cyber crime and ensure data privacy Therefore the threat landscape in the context of enterprises has become wider and far more challenging There is a clear need for collaborative work throughout the entire value chain of this network In this context this book addresses the cybersecurity and cooperate governance challenges associated with enterprises which will provide a bigger picture of the concepts intelligent techniques practices and open research directions in this area This book serves as a single source of reference for acquiring the knowledge on the technology process and people involved in next generation privacy and security
