**Steps towards a Mindful Organisation** Fabrice Mielke, 2021-03-23

This book presents a guideline for turning any organisation into a more mindful one, allowing it to manage unexpected events and develop stronger resilience. The author conducted empirical research with a German IT company's staff and its leadership in a longitudinal way. The whole team was trained in individual mindfulness competencies. Individual mindfulness is a state of being that can be developed through mindfulness mediation. When combined with social interactions, cultural adaptations, and structural changes, collective mindfulness develops. Collective mindfulness allows an organisation to become more agile. The author argues that mindfulness training influences the openness and knowledge sharing behaviour of an organisation first on an individual and then a collective level. Such training can generate awareness, increase empathy between the team members, and lead towards a more successful organisation. This study can inspire team managers to improve the work environment as well as academics to update their current level of research in the field of individual and collective mindfulness.

Mindfulness Meditation: Peace and Tranquility

You can't find happiness in your past. You can't find happiness in your future. You can find happiness in your present. There is life in the here and now, and it is real happiness. Through mindfulness, you can harness your energy within to be aware of the things that can make you happy. There is no need to wait for decades before you can feel happiness. You can be happy every day. Many of us are alive yet don't recognize this as a miracle. But if you focus on your breathing and you become mindful of every movement of your lungs, you are experiencing a miracle within. Some of us are forgetful because we are not truly present in the now. Our mind could be trapped in our anger, our regrets, our fears, and we might be failing to see of what is being there. This is known as forgetfulness. Someone can be physically present but his mind is somewhere else. You might be trapped in the future or past. You're not living in the here and in the now. This is forgetfulness, which is on the other side of the spectrum of mindfulness. This book contains proven steps and strategies on how you can harness the power of mindfulness meditation to find your way to your happiness and tranquility within.
