*6 Tips to increase your happiness, be more productive, and build healthy habits.*

## **1. DO DEEP WORK**

Have at least 3 hours of undistracted work every day. No social media, no email, no phone. Staying focused and removing distractions is key if you want to accomplish more.

## **2. FOLLOW A GOOD SLEEP ROUTINE**

Wake up and go to bed at the same time every day. This will increase your energy levels and build discipline.

## **3. MASTER DELAYED GRATIFICATION**

Work hard now and make short-term sacrifices for your long-term goal and for the future life you want. Too much partying, TV shows, video games, unhealthy food, etc. will ruin your motivation.

## **4. MOVE YOUR BODY**

Work out a minimum of 3 times per week to train your body, but more importantly, to train your mind. Exercising regularly builds discipline, resilience, and increases your energy. The key is to be consistent.

## **5. BE CONSISTENT**

How you do one thing is how you do everything. If you don't give 100% to your workouts, you're not going to give 100% to your business. Treat everything with excellence and see how your life changes.

## **6. PRACTICE GRATITUDE**

Gratitude is currency. Take the time to give thanks every day and use gratitude to find more contentment with your existence.

**Discourses of Globalisation, and the Politics of History School Textbooks** Joseph Zajda, 2022-08-19 This book focuses on discourses of the politics of history education and history textbooks. It offers a new insight into understanding of the nexus between ideology, the state and nation building as depicted in history education and school textbooks. It especially focuses on the interpretation of social and political change, significant events, looking for possible biases and omissions, leadership and the contribution of key individuals and continuities. The book discusses various aspects of historical narratives and some selected key events in defining identity and nation building. It considers the role of historiography in dominant historical narratives. It analyses history education in both local and global settings and its significance in promoting values education and intercultural and global understanding. It is argued that historical narratives add pedagogies grounded in constructivist, metacognitive and transformational paradigms have the power to engage the learner in significant and meaningful learning experiences informed by multiple discourses of our historical narratives and those of other nations.
