Readers Choice Cybersecurity:

A Woman's Guide to Navigating a Successful Career in Healthcare Information Technology Jeffery

Daigrepoint,2024-06-19 This book features over 50 of the industry's brightest female pioneers who share insightful lessons backed by several years of experience as well as tips for navigating a successful career in HIT. The intent of this book is to provide the opportunity to capture stories from highly successful women to inspire the next generation who want to pursue a career in HIT and to inspire those already working in the field who are eager to advance in their careers. This book also provides insights on industry opportunities, ways to deal with harassment, the history of female tech innovators and negotiating competitive salary and employment agreements. Additional industry experts provided guidance on tapping into venture capital funding and tools for career development. A comprehensive resource guide and glossary of industry terms are also included. Co-authors included Amy Sabilon MSI, Ayanna Chambliss CAP, SHRM CP, Lindsay Rowlands MHA and Stacey B Lee JD.

Advances in Teaching and Learning for Cyber Security Education Phil Legg, Natalie Coull, Charles

Clarke,2024-12-27 This book showcases latest trends and innovations for how we teach and approach cyber security education. Cyber security underpins the technological advances of the 21st century and is a fundamental requirement in today's society. Therefore, how we teach and educate on topics of cyber security and how we overcome challenges in this space require a collective effort between academia, industry and government. The variety of works in this book include AI and LLMs for cyber security, digital forensics and how teaching cases can be generated at scale. Events and initiatives to inspire the younger generations to pursue cyber pathways, assessment methods that provoke and develop adversarial cyber security mindsets and innovative approaches for teaching cyber management concepts. As a rapidly growing area of education, there are many fascinating examples of innovative teaching and assessment taking place. However, as a community, we can do more to share best practice and enhance collaboration across the education sector. CSE Connect is a community group that aims to promote sharing and collaboration in cyber security education so that we can upskill and innovate the community together. The chapters of this book were presented at the 4th Annual Advances in Teaching and Learning for Cyber Security Education conference, hosted by CSE Connect at the University of the West of England, Bristol, the UK, on July 2, 2024. The book is of interest to educators, students and practitioners in cyber security, both for those looking to upskill in cyber security education as well as those aspiring to work within the cyber security sector.

International Conference on Applications and Techniques in Cyber Security and Intelligence ATCI 2018 Jemal Abawajy, Kim-Kwang Raymond Choo, Rafiqul Islam, Zheng

Xu, Mohammed Atiquzzaman, 2018-11-05 The book highlights innovative ideas, cutting edge findings and novel techniques, methods and applications, touching on all aspects of technology and intelligence in smart city management and services. Above all, it explores developments and applications that are of practical use and value for Cyber Intelligence related methods which are frequently used in the context of city management and services.
