D. Dhawan,1988 The entire Vedic Literature had broadly speaking four different and distinct stages of development over a period of thousands of years since the very pre historic times The Aranyakas or the Forest Texts constitute the third important class of literary work Despite constituting a landmark and rather a turning point in the remarkable philosophic thought of the entire Vedic literature the Aranyakas have of the Vedic scholars researchers Whatever research had been undertaken in this branch of Vedic literature it has invariable been perfunctory or at the most touched only on in significant aspect of the other wise rich philosophic contents of the Hermit Texts A significant feature of this book is that it undertakes a comprehensive analysis of the most intricate spiritual mysteries of the universe Such deep seated intricacies of philosophy have been extricated from a plethora of ritualistic moss and characteristically archaic language of the texts under study The Supreme Being who transcends the duality of subject and object cannot ipso facto be a field of clear definition and demonstration but inspite of such inherent limitations the author has lucidly deciphered His characteristics including His omniscience omnipresence identity between the universal and individual souls permeation of the latter even up to the ends of the hair in the human body etc Even a cursory glance through the work reveals that these two principal Aranyakas are immensely rich in their metaphysical contents The author has rather boldly brought out some of the then prevailing social superstitions like observing of odd omens their ill effects and pseudo mysticism so much so that even the points of comparison and contrast between the two Aranyakas under study have also been meticulously but briefly brought out In short the book presents a panoramic view of the Aryan culture including social conceptions in that hoary past      *Problems of Mysticism and Its Symbolism (Classic Reprint)* Herbert Silberer,2017-10-11 Excerpt from Problems of Mysticism and Its Symbolism We thus arrive at a science which may be called paleo psychology Its fossils are the thought forms throughout the ages and such a science seeks to show fundamental likenesses behind the more superficial dissimilarities About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      **Symbolism of Alchemy and the Occult Arts** Herbert Silberer,Smith Ely Jelliffe, Ph.d,2014-05-03 Prominent among the stones of a fireplace in my

country den one large rounded giant stands out It was bourne by the glacial streams from a more northern resting place and is marked by a fossil of a mollusk that inhabited northern seas many million years ago Yet in spite of the eons of time that have passed it can be compared with specimens of mollusks that live to day Down through the countless centuries the living stream has carved its structural habitations in much the same form The science of Paleontology has collected this history and has attempted a reconstruction of life from its beginnings The same principle here illustrated is true for the thought life of mankind The forms in which it has been preserved however are not so evident The structuralizations are not so definite If they were evolution would not have been possible for the living stream of energy which is utilized by mind stuff cannot be confined if it would advance to more complex integrations Hence the products of mind in evolution are more plastic more subtle and more changing They are to be found in the myths and the folk lore of ancient peoples the poetry dramatic art and the language of later races From age to age however the strivings continue the same The living vessels must continue and the products express the most fundamental strivings in varying though related forms      **On the Kabbalah and its**
