*The Church as Counterculture* Michael L. Budde, Robert W. Brimlow, 2012-02-01 The question What does it mean to be the church has always been among the most controversial and of vital concern to political economic and ecclesial leaders alike How it is answered influences whether Christianity will be a force for legitimating or subverting existing secular relations of power influence and privilege The Church as Counterculture enters the debates on Christian identity purpose and organization by calling for the churches to reclaim their roles as communities of disciples distinct and distinctive groups formed by the priorities and practices of Jesus to constitute a countercultural reality and challenge to secular society and existing power relations The notion of the church as a countercultural community of disciples confounds many conventional divides within the Christian family liberal and conservative church and sect while forcing redefinition of commonplace categories like religion and politics sacred and secular The contributors to this book theologians social theorists philosophers historians Catholics and Protestants of various backgrounds reflect this shifting of categories and divisions The book provides thought provoking Christian perspectives on war and genocide racism and

nationalism the legitimacy of liberalism and capitalism and more Contributors include Michael J Baxter Robert W Brimlow Walter Brueggemann Michael L Budde Curt Cadorette Rodney Clapp Roberto S Goizueta Stanley Hauerwas Marianne Sawicki and Michael Warren      *Kinship Across Borders* Kristin E. Heyer, 2012-10-02 The failure of current immigration policies in the United States has resulted in dire consequences a significant increase in border deaths a proliferation of smuggling networks prolonged family separation inhumane raids a patchwork of local ordinances criminalizing activities of immigrants and those who harbor them and the creation of an underclass none of which are appropriate or just outcomes for those holding Christian commitments *Kinship Across Borders* analyzes contemporary US immigration in the context of fundamental Christian beliefs about the human person sin family life and global solidarity Kristin Heyer expertly demonstrates how current US immigration policies reflect harmful neoliberal economic priorities and why immigration cannot be reduced to security or legal issues alone Rather she explains that immigration involves a broad array of economic issues trade policies concerns of cultural tolerance and criminal justice and at root an understanding of the human person In *Kinship Across Borders* Heyer has developed a Christian immigration ethic grounded in scriptural anthropological and social teachings and rooted in the experiences of undocumented migrants that calls society to promote concrete practices and policies reflecting justice and solidarity      **Humane Migration** Christine G.T. Ho, James Loucky, 2012 Comprehensive and passionate exploration of the debates surrounding the politics economics and ethics of international migration Offers suggestions for humane and rational immigration policies The popular discourse on immigration in North America and Western Europe is usually framed in terms of violations to national law fueled by fear and propped up by the myths of nationhood The rhetoric maintains that immigrants as individuals threaten jobs the local economy and the cultural identity of a country But these views fail to consider the ironic reality that the developed world which tries so emphatically to keep poor people out itself produces the systemic economic conditions that foster migration *Humane Migration* provides a fresh look at the debate on international migration in general and immigration to the United States Europe and Canada in particular It explains clearly why groups migrate and the obstacles they face during their journeys and after arriving at their destinations Arguing that migration is a human right the authors call for better policies that recognize these rights and the many benefits that migrants provide to their new communities This book is an essential text for policy makers students and activists who seek justice for the world's vulnerable populations      **The Mythology of Crime and Criminal Justice** Victor E. Kappeler, Gary W. Potter, 2005 This innovative alternative to traditional textbooks provides insightful observations of myths and trends in criminal justice The authors dissect popular images of crimes and criminals in a cogent compelling and engaging manner They confront the misleading statistics and fears that form the basis of myths and the collateral damage of basing policies on mythical beliefs The text encourages skepticism about commonly accepted beliefs and provides the tools necessary for critical thinking about complex problems BOOK JACKET      *The Social Contract*, 2006      **Columbia Law**
