The Mystical Element of Religion: As Studied in Saint Catherine of Genoa and Her Friends Baron Friedrich Von Hügel, Aeterna Press, Amongst the apparent enigmas of life amongst the seemingly most radical and abiding of interior antinomies and conflicts experienced by the human race and by individuals there is one which everything tends to make us feel and see with an ever increasing keenness and clearness More and more we want a strong and interior a lasting yet voluntary bond of union between our own successive states of mind and between what is abiding in ourselves and what is permanent within our fellow men and more and more we seem to see that mere Reasoning Logic Abstraction all that appears as the necessary instrument and expression of the Universal and Abiding does not move or win the will either in ourselves or in others and that what does thus move and win it is Instinct Intuition Feeling the Concrete and Contingent all that seems to be of its very nature individual and evanescent Reasoning appears but capable at best of co ordinating unifying explaining the material furnished to it by experience of all kinds at worst of explaining it away at best of stimulating the purveyance of a fresh supply of such experience at worst of stopping such purveyance as much as may be And yet the Reasoning would appear to be the transferable part in the process but not to move and the experience alone to have the moving power but not to be transmissible

*The Mystical Element of Religion (Vol. 1&2)* Friedrich von Hügel, 2020-10-10 H gel s The Mystical Element of Religion features a critical but largely appreciative philosophy of mysticism The author s three elements of religion are his most enduring contribution to theological thinking The human soul the movements of western civilization and the phenomena of religion itself he characterized by these three elements the historical institutional element the intellectual speculative element and the mystical experiential element This typology provided for him an understanding of the balance tension and friction that exists in religious thinking and in the complexity of reality and existence It was an organizing paradigm that remained central to his project The effort to hold these sometimes disparate dimensions together was structurally and theologically dominant throughout his writing The main subject of H gel s study are the life and teaching of Catherine of Genoa 1447 1510 the Italian Roman Catholic saint and mystic admired for her work among the sick and the poor and remembered because of various writings describing both these actions and her mystical experiences

Four months have sufficed to require a Second Impression. Of this lengthy study of difficult and complex themes, and this evidently not because but in spite of certain peculiarities of style, Germanisms strange on the part of the son of a pure Scotchwoman resident in England for some thirty six years and more, I take this success to be due predominantly to the profound importance and abiding interest of the subject of the book and to the general character of the method attempted here. May the very defects of the work help to bring home to the reader this inexhaustible richness of its subject matter and to indicate the pre-existence, the super-eminence, the independence of the august Object of religion as compared with those very aspirations and convictions which this Object itself occasions and incites and which our analyses so inadequately fathom. God, the Divine Spirit, is indeed before, within, and after all our truest dignity and deepest disquiet. If some years hence a Second Edition is called for, I shall hope greatly to improve the book largely by the aid of my various critics' strictures and requirements which so far have been about the Publisher.
