for being published in this book When we received papers for this issue we discovered that MRP II is a topic about which not only management scientists show interest As the list of authors proves industrial engineers computer scientists and operations researchers from academia as well as practitioners have contributed to this book This we hope makes the book of value for a broad audience We thank all authors who submitted papers And we are in debt to Dr Werner Muller from Springer for his support in this book project **Manufacturing Resource Planning** Joe Booth,1991 **MRP II** John W.
