Philosophy, Myth and Epic Cinema Sylvie Magerstädt, 2014-12-15 Philosophy Myth and Epic Cinema looks at the power of cinema in creating ideas that inspire our

culture Sylvie Magerst dt discusses the relationship between art illusion and reality a theme that has been part of philosophical debate for centuries She argues that with the increase in use of digital technologies in modern cinema this debate has entered a new phase She discusses the notion of illusions as a system of stories and values that inspire a culture similar to other grand narratives such as mythology or religion Cinema thus becomes the postmodern mythmaking machine par excellence in a world that finds it increasingly difficult to create unifying concepts and positive illusions that can inspire and give hope The author draws on the work of Friedrich Nietzsche Siegfried Kracauer and Gilles Deleuze to demonstrate the relevance of continental philosophy to a reading of mainstream Hollywood cinema The book argues that our longing for illusion is particularly strong in times of crisis illustrated through an exploration of the recent revival of historic and epic myths in Hollywood cinema including films such as Troy The Lord of the Rings Trilogy and Clash of the Titans

Moral Systems and the Evolution of Human Rights Bruce K. Friesen,2014-10-27 This volume offers a comprehensible account of the development and evolution of moral systems It seeks to answer the following questions If morals are eternal and unchanging why have the world s dominant religious moral systems been around for no more than a mere six thousand of the two hundred thousand years of modern human existence What explains the many and varied moral systems across the globe today How can we account for the significant change in moral values in one place in less than 100 years time Using examples from classical civilizations the book demonstrates how increasing diversity compromises a moral system s ability to account for and integrate larger populations into a single social unit This environmental stress is not relieved until a broader more abstract

moral system is adopted by a social system This new system provides a sense of belonging and purpose for more people motivating them to engage in prosocial or moral acts and refrain from socially disruptive selfish acts The current human rights paradigm is the world's first universal indigenous moral system Because moral systems can be expected to continue to evolve this book points to current boundaries of the human rights paradigm and where the next major moral revolution might emerge **Dissertation Abstracts International** ,2001 *Southern Exposure* ,1996 *High Performance* ,1987
