Lying About America:

The 10 Big Lies About America Michael Medved, 2008-11-18 It ain't so much the things we don't know that get us into trouble nineteenth century humorist Josh Billings remarked It's the things we know that just ain't so In this bold and brilliantly argued book acclaimed author and talk radio host Michael Medved zeroes in on ten of the biggest fallacies that millions of Americans believe about our country in spite of incontrovertible facts to the contrary In *The 10 Big Lies About America* Medved pinpoints the most pernicious pieces of America bashing disinformation that pollute current debates about the economy race religion in politics the Iraq war and other contentious issues The myths that Medved deftly debunks include Myth The United States is uniquely guilty for the crime of slavery and based its wealth on stolen African labor Fact The colonies that became the United States accounted for at most 3 percent of the abominable international slave trade the persistence of slavery in America slowed economic progress and the U.S. deserves unique credit for ending slavery Myth The alarming rise of big business hurts the United States and oppresses its people Fact Corporations played an indispensable role in building America and corporate growth has brought progress that benefits all with cheaper goods and better jobs Myth The Founders intended a secular not Christian nation Fact Even after ratifying the Constitution fully half the state governments endorsed specific Christian denominations And just a day after approving the First Amendment forbidding the establishment of religion Congress called for a national day of public thanksgiving and prayer to acknowledge the many signal favors of Almighty God Myth A war on the middle class means less comfort and opportunity for the average American Fact Familiar campaign rhetoric about the victimized middle class ignores the overwhelming statistical evidence that the standard of living keeps rising for every segment of the population as well as the real life experience of tens of millions of middle class Americans Each of the ten lies widely believed among elites and taught as truth in universities and public schools is a grotesque propagandistic distortion of the historical record For everyone who is tired of hearing America denigrated by people who don't know what they're talking about *The 10 Big Lies About America* supplies the ammunition necessary to fire back the next time somebody tries to recycle these baseless beliefs Medved's witty well documented rebuttal is a refreshing reminder that as Americans we should feel blessed not burdened by our heritage [The Pageant of America, a Pictorial History of the United States](#), 1929 [From Lying to Perjury](#) Laurence R. Horn, 2022-06-06 This volume provides new insights on lying and intentionally misleading in and out of the courtroom a timely topic for scholarship and society Not all deceptive statements are lies not every lie under oath amounts to perjury but what are the relevant criteria Taxonomies of falsehood based on illocutionary force utterance context and speakers intentions have been debated by linguists moral philosophers social psychologists and cognitive scientists Legal scholars have examined the boundary between actual perjury and garden variety lies The fourteen previously unpublished essays in this book apply theoretical and empirical tools to delineate the landscape of falsehood half truth perjury and verbal manipulation including puffery bluffing

and bullshit The papers in this collection address conceptual and ethical aspects of lying vs misleading and the correlation of this opposition with the Gricean pragmatic distinction between what is said and what is implicated The questions of truth and lies addressed in this volume have long engaged the attention of scholars in linguistics philosophy psychology cognitive science organizational research and the law and researchers from all these fields will find this book of interest [Fake](#)

[News Nation](#) James W. Cortada, William Aspray, 2019-10-01 How rumors lies and misrepresentations shaped American history After the election of Donald Trump as president people in the United States and across large swaths of Europe Latin America and Asia engaged in the most intensive discussion in modern times about falsehoods pronounced by public officials Fake facts in their various forms have long been present in American life particularly in its politics public discourse and business activities going back to the time when the country was formed This book explores the long tradition of fake facts in their various guises in American history It is one of the first historical studies to place the long history of lies and misrepresentation squarely in the middle of American political business and science policy rhetoric In [Fake News Nation](#) James Cortada and William Aspray present a series of case studies that describe how lies and fake facts were used over the past two centuries in important instances in American history Cortada and Aspray give readers a perspective on fake facts as they appear today and as they are likely to appear in the future [RECENT DISCOVERIES ATTRIBUTED TO EARLY MAN IN AMERICA](#) ALES HRDLICKA, 1918 [**Is God with America?**](#) Bob Klingenberg, 2006-04 America finds herself behind a curtain of atheistic and evolutionistic Secular Humanism Has God now disowned His daughter America Has America now lost her only true defense system against terrorism namely God himself [**The American Mathematical Monthly**](#), 1929

Includes section Recent publications [*Lying in State*](#) Eric Alterman, 2020-08-11 This definitive history of presidential lying reveals how our standards for truthfulness have eroded and why Trump's lies are especially dangerous If there's one thing we know about Donald Trump it's that he lies But he's by no means the first president to do so In *Lying in State* Eric Alterman asks how we ended up with such a pathologically dishonest commander in chief showing that from early on the United States has persistently expanded its power and hegemony on the basis of presidential lies He also reveals the cumulative effect of this deception each lie a president tells makes it more acceptable for subsequent presidents to lie and the media's complicity in spreading misinformation Donald Trump then represents not an aberration but the culmination of an age old trend Full of vivid historical examples and trenchant analysis *Lying in State* is essential reading for anyone seeking to understand how we arrived in this age of alternative facts [*American Illustrated Magazine*](#), 1899 [**H.O.
