Complicating the History of Western Translation Siobhán McElduff, Enrica Sciarrino, 2014-04-08 As long as there has been a need for language there has been a need for translation yet there is remarkably little scholarship available on pre modern translation and translators This exciting and innovative volume opens a window onto the complex world of translation in the multilingual and multicultural milieu of the ancient Mediterranean From the biographies of emperors to Hittites scribes in the second millennium BCE to a Greek speaking Syrian slyly resisting translation under the Roman empire the papers in this volume fresh and innovative contributions by new and established scholars from a variety of disciplines including Classics Near Eastern Studies Biblical Studies and Egyptology show that translation has always been a phenomenon to be reckoned with Accessible and of interest to scholars of translation studies and of the ancient Mediterranean the contributions in *Complicating the History of Western Translation* argue that the ancient Mediterranean was a translational society even when paradoxically cultures resisted or avoided translation Indeed this volume envisions an expansion of the understanding of what translation is how it works and how it should be seen as a major cultural force Chronologically the papers cover a period that ranges from around the third millennium BCE to the late second century CE geographically they extend from Egypt to Rome to Britain and beyond Each paper prompts us to reflect about the problematic nature of translation in the ancient world and challenges monolithic accounts of translation in the West

Catullus in Twentieth-Century Music Stephanie Oade, 2024-08-24 One of the most famous voices to have survived from the Roman world Catullus's poetry is still amongst the most popular and widely read But what is it that makes this 2 000 year old voice so relevant so personal and so endlessly fascinating Reinventing discussions around the nature of Catullus's lyricism Catullus in Twentieth Century Music takes a completely new approach to Catullus and ideas of lyric It centres around four musical works from the twentieth century each one capturing the essence of Catullus in musical retellings and showcasing a very personal response to the original text Considering how and why these musical composers used Catullus's poetry as their stimulus allows us to uncover new ideas about Catullus's poetry By considering the very process of reception Stephanie Oade takes a broader view of lyric identifying traits and characteristics that are common to both music and poetry thus transcending the boundaries of individual art forms in order to consider the genre in larger interdisciplinary terms It offers insights into compositional processes and challenges audiences to think about ways of engaging with music and poetry More than anything it shows how ancient voices continue to resound in modernity and offer everlasting expression for our own experiences and emotions

The Resurgence of the Theater of Popular Poetry Sandra Cary Robertson, 1984 **International Society of Bassists**, 1989 Proceedings of the ACSA Annual Meeting Association of Collegiate Schools of Architecture, 2000 *Callaloo*, 1994 Some special issues devoted to the literatures of other minorities **JSI**, 2002 **Fanfare**, 1990 **How to Write Songs that Sell** L.
