Oppenheim,2003-09-25 This book reports the work of a 20 year collaboration between a multidisciplinary group of clinicians and developmental scientists who have created and investigated a new tool to elicit and analyze children s narratives This tool is the MacArthur Story Stem Battery a systematic collection of story beginnings that are referred to as stems These stems are designed to elicit information from children about their representational worlds This method is particularly exciting because using it allows developmental psychologists and others to gain information directly from children about their emotional states and what they are able to understand and in turn to use this information to explore significant emotional differences among children This work will appeal to researchers and practitioners in developmental and clinical psychology

**Douglas MacArthur** Arthur Herman,2017-03-28 A new definitive life of an

American icon the visionary general who led American forces through three wars and foresaw his nation's great geopolitical shift toward the Pacific Rim from the Pulitzer Prize finalist and bestselling author of *Gandhi* *Churchill* *Douglas MacArthur* was arguably the last American public figure to be worshipped unreservedly as a national hero the last military figure to conjure up the romantic stirrings once evoked by George Armstrong Custer and Robert E Lee But he was also one of America's most divisive figures a man whose entire career was steeped in controversy Was he an avatar or an anachronism a brilliant strategist or a vainglorious mountebank Drawing on a wealth of new sources Arthur Herman delivers a powerhouse biography that peels back the layers of myth both good and bad and exposes the marrow of the man beneath MacArthur's life spans the emergence of the United States Army as a global fighting force Its history is to a great degree his story The son of a Civil War hero he led American troops in three monumental conflicts World War I World War II and the Korean War Born four years after Little Bighorn he died just as American forces began deploying in Vietnam Herman's magisterial book spans the full arc of MacArthur's journey from his elevation to major general at thirty eight through his tenure as superintendent of West Point field marshal of the Philippines supreme ruler of postwar Japan and beyond More than any previous biographer Herman shows how MacArthur's strategic vision helped shape several decades of U S foreign policy Alone among his peers he foresaw the shift away from Europe becoming the prophet of America's destiny in the Pacific Rim Here too is a vivid portrait of a man whose grandiose vision of his own destiny won him enemies as well as acolytes MacArthur was one of the first military heroes to cultivate his own public persona the swashbuckling commander outfitted with Ray Ban sunglasses riding crop and corncob pipe Repeatedly spared from being killed in battle his soldiers nicknamed him Bullet Proof he had a strong sense of divine mission Mac was a man possessed in the words of one of his contemporaries of a supreme and almost mystical faith that he could not fail Yet when he did it was on an epic scale His willingness to defy both civilian and military authority was Herman shows a lifelong trait and it would become his undoing Tellingly MacArthur once observed Sometimes it is the order one disobeys that makes one famous To capture the life of such an outsize figure in one volume is no small achievement With Douglas MacArthur Arthur Herman has set a new standard for untangling the legacy of this American legend Praise for Douglas MacArthur This is revisionist history at its best and hopefully will reopen a debate about the judgment of history and MacArthur's place in history New York Journal of Books Unfailingly evocative close to an epic More than a biography it is a tale of a time in the past almost impossible to contemplate today as having taken place with MacArthur himself as a figure perhaps too remote to understand but all the more important to encounter The New Criterion With Douglas MacArthur American Warrior the prolific and talented historian Arthur Herman has delivered an expertly rendered compulsively readable account that does full justice to MacArthur's monumental achievements without slighting his equally monumental flaws Commentary *MacArthur's Jungle War* Stephen R. Taaffe, 1998 His book tells not only how victory was gained through a combination of technology tactics and army navy cooperation but also how the New Guinea

campaign exemplified the strategic differences that plagued the Pacific War since many high ranking officers considered it a diversionary tactic rather than a key offensive     *Psychodynamic Diagnostic Manual, Second Edition* Vittorio Lingiardi,Nancy McWilliams,2017-05-22 Now completely revised over 90% new this is the authoritative diagnostic manual grounded in psychodynamic clinical models and theories Explicitly oriented toward case formulation and treatment planning PDM 2 offers practitioners an empirically based clinically useful alternative or supplement to DSM and ICD categorical diagnoses Leading international authorities systematically address personality functioning and psychological problems of infancy childhood adolescence adulthood and old age including clear conceptualizations and illustrative case examples Purchasers get access to a companion website where they can find additional case illustrations and download and print five reproducible PDM derived rating scales in a convenient 8 1 2 x 11 size New to This Edition Significant revisions to all chapters reflecting a decade of clinical empirical and methodological advances Chapter with extended case illustrations including complete PDM profiles Separate section on older adults the first classification system with a geriatric section Extensive treatment of psychotic conditions and the psychotic level of personality organization Greater attention to issues of culture and diversity and to both the clinician s and patient s subjectivity Chapter on recommended assessment instruments plus reproducible downloadable diagnostic tools In depth comparisons to DSM 5 and ICD 10 CM throughout Sponsoring associations include the International Psychoanalytical Association Division 39 of the American Psychological Association the American Psychoanalytic Association the International Association for Relational Psychoanalysis Psychotherapy the American Association for Psychoanalysis in Clinical Social Work and five other organizations     *Wisconsin, Its Story and Biography 1848-1913* Ellis Baker Usher,1914     A Tale of Two Sons John MacArthur,2010 A study of the parable of the prodigal son found in Luke 15 11 32 of the New Testament discussing its application to modern life     *MacArthur* Martin Burns,1951

MacArthur,2010-03-29 The Parable of the Prodigal Son still stands out as a crucial lesson about our struggle with sin and dependence on divine salvation There is a part of this story that often goes untold but it s a message you need to hear Nearly two thousand years ago Jesus told a simple parable about a family a father and his two sons It was a story of rebellion repentance and unfathomable grace that is beautiful in its simplicity and rich in God s forgiveness Previously published as A Tale of Two Sons pastor teacher and author John MacArthur provides fascinating new insight into one of the Bible s most important stories the parable of the prodigal son as it was originally intended twenty two verses from Luke that will reawaken you to a new understanding of God s love and the joy our repentance brings to Him Using accurate and captivating historical context The Prodigal Son allows you to experience a tale of inexhaustible grace and an ending you ve never heard before     **An Empire Story** Henrietta

Elizabeth Marshall,1908     Selkie Nataly Gruender,2025-08-12 From the author of Medusa comes a beautiful and emotional story featuring a selkie a mythological creature who can turn from a seal into a human Seven years ago Quinn finally dared to transform from a seal into a human and took her first steps on land As a selkie she is both a daughter of land and sea But when a human stole her pelt he stole her freedom as well forcing Quinn to become his wife and bear his children As legend tells capturing a selkie will bring you luck and she became a coveted prize Constrained to a life that was no longer her own Quinn longed for nothing more than to find her pelt and seize her freedom Then one day her eldest daughter hands Quinn her pelt and without a second thought Quinn snatches it and escapes to the sea But she s no longer used to swimming and doesn t know where her herd has gone And after an almost disastrous encounter with her former husband leaving her severely injured Quinn doesn t have the strength to go searching Instead she finds herself taking shelter on a nearby island with a lighthouse and three lighthouse keepers Quinn doesn t trust humans anymore and wants to stay hidden from the keepers But she can t survive on her own Can she learn to trust these humans and shed her hatred of all humankind Or will she give into her fears and accept the monstrous fate that others have bestowed upon her     *The Banners and the Glory*

Leticia Franieck,2018-03-29 Latency is a developmental period that plays a transitional role like a bridge between early childhood and adolescence the beginning of early adulthood However the latency period is a subject that has not been studied enough in psychoanalysis in recent years Most of the psychoanalytic frameworks that have built on and extended Freud s work have focussed their attention either on the understanding of the child s early development the early dyadic and triadic relationship of the infant and the early organization of the mind or on the understanding of adolescent development when sexuality explodes accompanied by all unconscious libidinal elements from the early organization which were repressed in latency As a result interest in the latency period has been put in the shade left dormant as its definition would imply The aim of this book is to raise a number of relevant questions which have not received much attention in psychoanalysis up to now To this end empirical findings are related to conceptual elaboration in order to advance knowledge     Great Military Leaders William T.
