Machiavel Le Pouvoir Du Prince:

Conflict, Power, and Multitude in Machiavelli and Spinoza Filippo Del Lucchese, 2011-10-20 Conflict Power and Multitude in Machiavelli and Spinoza explores Spinoza's political philosophy by confronting it with that of Niccolò Machiavelli. Filippo Del Lucchese conducts a study of the relationship between Machiavelli and Spinoza from a perspective at once philosophical, historical, and political. The book begins by showing how closely tied the two thinkers are in relation to realism. Del Lucchese then goes on to examine the theme of conflict as a crucial element of an understanding of Machiavelli and Spinoza's conceptions of modernity. The book concludes with an examination of the concept of multiplicity and plural expressions of politics, namely Machiavelli's *popolo* and Spinoza's *multitudo*. Overall, the Machiavelli-Spinoza axis offers a fruitful perspective through which to analyse the relationship between contending ideas of modernity from a historical point of view and provides an original point of departure for discussing some key theoretical, political, and juridical notions that have resurfaced in contemporary debates. *Spinoza-Machiavelli Encounter* Vittorio Morfino, 2018-11-14 Vittorio Morfino draws out the implications of the dynamic Spinoza-Machiavelli encounter by focusing on the concepts of causality, temporality, and politics. This allows him to think through the relationship between ontology and politics, leading to an understanding of history as a complex and plural interweaving of different rhythms. **Histoire de la Science Politique Dans Ses Rapports Avec la Morale** Paul Janet, 1887 Claude Lefort M. Plot, 2013-06-11 This is the first English language volume to offer such a wide-ranging scholarly and intellectual perspective on Claude Lefort. It constitutes the most comprehensive attempt to reconstruct Lefort's engagement with his theoretical interlocutors as well as his influence on today's democratic thought and contemporary continental political philosophy. Utopia David Lee Rubin, 1999 Five essays explore 18th-century Francophone utopias in Patot's *Masse's Haircut*, the schemes of two French exiles in the Netherlands, Rousseau's thought, and the sexual universe of Cercle Social writer Restif de la Bretonne. One contribution is in untranslated French. *L'Icosameron de Casanova* Nat *The Life and Times of Niccolò Machiavelli* Pasquale Villari, 1891 Machiavel Georges Faraklas, 1997 *Chez Machiavel la d couverte de la d pendance sociale du politique et l argument en faveur du peuple s inscrivent dans une syst maticit qui travers l aspect psychologique et militaire du pouvoir vise r aliser la justice sociale*

Jean-Jacques Rousseau, 1915 *Geography, Cartography and Nautical Science in the Renaissance* W.G.L. Randles, 2022-01-26 The transformation of the medieval European image of the world in the period following the Great Discoveries of the 15th and 16th centuries is the subject of this volume. The first studies deal specifically with the emergence of the concept of the terraqueous globe. In the following pieces, Dr Randles looks at the advances in Portuguese navigation and cartography that helped sailors overcome the obstacles to the circumnavigation of Africa and the crossing of the Atlantic, and at the impact of the Discoveries on European culture and science. Other articles are concerned with Portuguese naval

artillery and with attempts to classify the indigenous societies of the newly discovered lands and to map the interior of Africa

Beyond Blood and Coercion Yves Winter, 2009 This dissertation investigates and criticizes two common assumptions about violence in contemporary political theory and philosophy that violence is mute and that it is instrumental Through close readings of the works of Niccol Machiavelli Karl Marx and Friedrich Engels I argue that political violence has a semiotic character that it involves the production of signs and meanings These signs and meanings are not peripheral but central to the operations of political violence because the political effectiveness of violence is partially determined by its representation Practices of representation regulate how political violence is received and understood by an audience which is why political violence cannot be explained by reference to institutions alone Rather it must be interpreted in the context of these practices of representation It calls therefore for a critical hermeneutic attentive to how meanings and signs circulate beyond violence s narrowly functional and instrumental dimensions and beyond the control of violence s wielders My readings offer a model for such an interpretive approach for a critical hermeneutic that accounts for the semiotic aspects inherent in practices of political violence My textual analyses ask how modes of representation and visibility organize particular formations of violence and produce political effects By tracing the disseminations and dispersals of violence in Machiavelli s and Marx s texts I challenge the conventional classification that separates political from non political violence and I raise the question of what makes violence recognizable as political
