Governing Europe's spaces Caitriona Carter,Martin Lawn,2015-07-20 What do we imagine when we imagine Europe and the European Union To what extent is our understanding of the EU of its development its policies and its working processes shaped by unacknowledged assumptions about what Europe really is The book constructs a case for re imagining Europe not as an entity in Brussels or a series of fixed relations but as a simultaneously real and imagined space of action which exists to the extent that Europeans and others act in and on it This Europe is constantly being made in particular spaces through specific actor struggles whose interconnections are often ill defined We ask how do those concerned with building Europe with extending and elaborating the EU think of where they are and what they are doing The book captures Europeans in the process of making Europe of performing interpreting modelling referencing consulting measuring and de politicising Europe

Renaissance Mass Murder Stephen D. Bowd,2018-11-08 Renaissance Mass Murder explores the devastating impact of war on the men and women of the Renaissance In contrast to the picture of balance and harmony usually associated with the Renaissance it uncovers in forensic detail a world in which sacks of Italian cities and massacres of civilians at the hands of French German Spanish Swiss and Italian troops were regular occurrences The arguments presented are based on a wealth of evidence histories and chronicles poetry and paintings sculpture and other objects which together provide a new and startling history of sixteenth century Italy and a social history of the Italian Wars It outlines how massacres happened how princes soldiers lawyers and writers justified and explained such events and how they were represented in contemporary culture On this basis Renaissance Mass Murder reconstructs the terrifying individual experiences of civilians in the face of war and in doing so offers a story of human tragedy which redresses the balance of the history of the Italian Wars and of Renaissance warfare in favour of the civilian and away from the din of battle This volume also places mass murder in a broader historical context and challenges claims that such violence was unusual or in decline in early modern Europe Finally it shows that women often suffered disproportionately from this violence and that immunity for them as for their children was often partially developed or poorly respected

Machiavelli in Sixteenth-century French Fiction Heather Ingman, 1988 This book examines the way in which Machiavelli led French poets and dramatists of the sixteenth century towards a new awareness of the complexity of political behaviour It tells the story of the fascinating conflict which developed in French writers minds between their fear of abandoning traditional values and their suspicion that Machiavelli had painted an accurate picture of

modern political behaviour The efforts of these poets and playwrights to come to terms with Machiavelli make their writings an important though hitherto neglected milestone along the road from the Christian to the secular view of politics **Italian**
