Nobility And Privilege In Late Imperial Russia:

Nobility and Privilege in Late Imperial Russia Seymour Becker, 1988-06 The transformation of the Russian nobility between 1861 and 1914 has often been attributed to the anachronistic attitudes of its members and their failure to adapt to social change Becker challenges this idea of the decline of the nobility He argues that the privileged estate responded positively to change and greatly influenced their nation's political and economic destiny **Democracy Denied,**

1905-1915 Charles KURZMAN, Charles Kurzman, 2009-06-30 Kurzman proposes that the collective agent most directly responsible for democratization was the emerging class of modern intellectuals a group that had gained a global identity and a near messianic sense of mission following the Dreyfus Affair of 1898 Each chapter of this book focuses on a single angle of this story covering all six cases by examining newspaper accounts memoirs and government reports [Critical Companion to the Russian Revolution, 1914-1921](#) Edward Acton, V. I^U Cherni^Ua^Uev, V. I^U. Cherni^Ua^Uev, William G. Rosenberg, 1997 Essays by 46 historians reflect the impact of the fall of the Soviet Union on the study of the revolution that birthed it including better access to archives and new opportunities for collaborations between Russian and other specialists They cover the revolution as event actors and the question of agency parties movements and ideologies institutions and institutional cultures social groups identities cultures and the question of consciousness economic issues and problems of everyday life and nationality and regional questions Annotation copyrighted by Book News Inc Portland OR *Marriage, Property, and Law in Late Imperial Russia* William G. Wagner, 1994 This is the first systematic study of civil law in late Imperial Russia It shows that efforts to adjust family property and inheritance law to changing social and economic conditions often became intertwined with attempts to shape society in accordance with competing ideological ideals Through a restructuring of the family's legal basis members of the growing educated and professional strata of society in particular endeavoured to promote conflicting conceptions of authority individuality gender and law Legal reform also served for members of the emerging legal and medical professions as a way to establish their authority often at the expense of the state administration and the Orthodox Church Civil law in late Imperial Russia therefore constituted both an important medium for ideological redefinition and a field of battle for those seeking to reform to overthrow or to defend the ancien regime Because this battle extended into the state bureaucracy legislative change proved extremely difficult Newly empowered by the 1864 judicial reform the judiciary responded to legislative inaction by not merely adapting the law but also by promoting an ideal of the family whose values and principles challenged those underlying the autocracy Professor Wagner's detailed and scholarly analysis of these issues offers many important insights into cultural attitudes political structures and the role of law in late Imperial Russia
