S. Byron Welcome

Nobody Owns Th Earth:

No Trespassing! Anders Corr,1999 A squatter s manifesto is at hand Charles Geisler Cornell University **Ancient Egyptian Wisdom for the Internet** Anna Mancini,2002 As cyberspace and real space function differently they cannot implicate the same legal values The most elementary wisdom invites us to forget our legal past so obviously ill adapted to the Internet so as to gain a better insight into the functioning of virtual space Attempts to regulate the Internet in the same way as the real world have inevitably failed and will continue to fail The only solution that can foster the expansion of the net and justify state intervention will come from a philosophy of law suited to virtuality Our philosophical legal traditions stemmed from agricultural and industrial roots and are therefore widely useless within the virtual context They cannot help us but the philosophy of ancient civilizations can At first sight it may seem paradoxical to look to ancient civilizations for counsels on legal regulation of the Internet But the virtual world is not a modern invention it has existed forever Ancient Egyptian Wisdom for the Internet demonstrates that the legal philosophy and knowledge of ancient civilizations are of great value in helping us deal with the Internet Through a challenging exploration of ancient legal knowledge this book offers new perspective on how to deal with and best profit from the Internet *The Root of Heaven and Earth* E. A. Grace,2013-01-01 A story spanning worlds and centuries from a distant destitute future and the ambitions of a young scientist to the possibility of a thriving tomorrow from the dreams of a young village girl in India to the broad vistas of the American West from a rain drenched African jungle and the mighty Congo that flows through it to a seed of understanding that could transform a world This epic tale unravels mysteries arising out of our deepest past and offers a glimpse of the surprising promise that lies ahead *Polyrhythmicity* Kofi Kissi Dompere,2006-03-31 The modern works on African philosophy have not been integrated and fully connected to Africa s antiquity in order to provide a foundational unity for further intellectual refinement The philosophical dimensions of humanism Nkrumah s concept of categorial conversion African concepts of duality polarity unity continual creation and democratic ideals must be shown their African centered origins In considering African philosophy there arise conceptual and logical gaps that require the development of fundamental cognitive unity from the available data with judicious interpretation and restructuring in order to define the parameters of African philosophical unity that will allow these gaps to be closed for intellectual continuity This monograph is devoted to the establishment of the foundations for the development of Africa s intellectual continuity and cognitive unity from antiquity to the present Its main premise is that there is African philosophy with its own method of reasoning analysis and synthesis The monograph initiates self contained philosophical foundations for African intellectual unity that is required to support African cultural unity African personality African essence and humanism needed for the creation of Greater Africa that is implied by African Union These philosophical foundations it is argued formed the thinking system for Africa s social construct law economics politics and governance of empires kingdoms and social units that have come to pass These philosophical foundations constitute the thinking system

that must guide current and future Africa's socioeconomic dynamics The monograph discusses also Africa's contributions to the global intellectual heritage by showing the relationships among foundations of African philosophical tradition and other philosophical systems that lead to rediviva Africana It presents the principles of cognitive unity and continuity on the held position that without clearly developed Africa's philosophical foundations from its antiquity providing intellectual unity and cognitive continuity complete emancipation of Africa will be a mere mimicking of intellectual faults of other nations and philosophical systems The research by African scholars and others on specific philosophical thoughts from different areas of Africa is useful materials that must be integrated into cognitive unity by accepting those that fit and rejecting those that do not fit by a defined logical process Mindful of this a case is thus made in this monograph for African cognitive unity and supporting reasoning methods The system of ideas and perceptive interpretations of relevant data is here referred to as Africentricity and its philosophical foundations that project thought as polyrhythmicity while the study of logic of reasoning about methodological and epistemic problems of polyrhythmicity and Africentricity is referred to as polyrhythmics On practical level these philosophical foundations are shown to support the conceptual basis of Nguzo Saba the Seven Principles of Kwanzaa The monograph would be of interest to philosophers in general professionals researchers and students engaged in African philosophy African studies Black studies socio political philosophy and those interested in knowing the thinking system on the basis of which African essence arises and African social formations were constructed and governed from antiquity
