Non-standard Language in English Literature Norman Francis Blake, 1981 **Non-standard Language in English Literature** Norman Francis Blake, 1981 *Writing in Nonstandard English* Irma Taavitsainen, Gunnel Melchers, Päivi Pahta, 1999-01-01 This book investigates linguistic variation as a complex continuum of language use from standard to nonstandard. In our view, these notions can only be established through mutual definition and they cannot exist without the opposite pole. What is considered standard English changes according to the approach at hand and the nonstandard changes accordingly. This book offers an interdisciplinary and multifaceted approach to this central theme of wide interest. The articles approach writing in nonstandard language through various disciplines and methodologies: sociolinguistics, pragmatics, historical linguistics, dialectology, corpus linguistics, and ideological and political points of view. The theories and methods from these fields are applied to material that ranges from nonliterary writing to canonized authors. Dialects, regional varieties, and worldwide Englishes are also addressed.

Non-standard Language in English Literature Norman Francis Blake, 1981-01-01 **The Problems of Literary Translation** Maria T. Sanchez, 2009 This volume examines the various linguistic and cultural problems which point towards the practical impossibility of conveying in one language exactly what was originally said in another. The author provides an exhaustive discussion of Spanish translations from English texts including non standard registers. Equivalence across languages that most elusive of terms in the whole theory of translation is discussed in terms of linguistic equivalence, textual equivalence, cultural equivalence, and pragmatic equivalence. Other aspects studied include how translation has been perceived over the centuries, the differences and the similarities between a writer and a translator, plus a detailed examination of translation as process, all of which bring the problems of literary translation into perspective.

The Language of Postcolonial Literatures Ismail S. Talib, 2002 Exploring literatures from a range of countries, this book provides a comprehensive introduction to some of the central features of language in a wide variety of postcolonial texts.

Defining New Idioms and Alternative Forms of Expression, 2022-05-16 This first volume of ASNEL Papers gathers together a broad range of reflections on and presentations of the social and expressive underpinnings of post colonial literary cultures, concentrating on aspects of orality, social structure, and hybridity, the role of women in cultural production, performative and media representations, theatre, film, advertising, and their institutional forms, and the linguistic basis of literature, including questions of multilingualism, pidgins and creoles, and translation. Some of the present studies adopt a diachronic approach, as in essays devoted to European colonial influences on African literatures, the populist colonial roots of Australian drama, and the intersection of exogenous and autochthonous languages in the cultural development and identity formation of Cameroon, Tanzania, and the Swahili speaking regions of Africa. Broadly synchronic perspectives, which nevertheless take cognizance of developmental determinants, range over dominant genres: poetry, short fiction, and the novel; children's literature, theatre, film, and cover indigenous literatures: Australian Aboriginal, Maori, First
