Nonproliferation Treaty:

Negotiating the Nuclear Non-Proliferation Treaty Roland Popp,Liviu Horovitz,Andreas Wenger,2016-10-04 This volume offers a critical historical assessment of the negotiation of the Treaty on the Non Proliferation of Nuclear Weapons NPT and of the origins of the nonproliferation regime The NPT has been signed by 190 states and was indefinitely extended in 1995 rendering it the most successful arms control treaty in history Nevertheless little is known about the motivations and strategic calculi of the various middle and small powers in regard to their ultimate decision to join the treaty despite its discriminatory nature While the NPT continues to be central to current nonproliferation efforts its underlying mechanisms remain under researched Based on newly declassified archival sources and using previously inaccessible evidence the contributions in this volume examine the underlying rationales of the specific positions taken by various states during the NPT negotiations Starting from a critical appraisal of our current knowledge of the genesis of the nonproliferation regime contributors from diverse national and disciplinary backgrounds focus on both European and non European states in order to enrich our understanding of how the global nuclear order came into being This book will be of much interest to students of nuclear proliferation Cold War history security studies and IR **NPT, the Non-Proliferation Treaty** ,1995 **Nuclear Non-Proliferation** Michael P. Fry,N. Patrick Keatinge,Joseph Rotblat,2012-12-06 This volume appears at a time when the prospects for banishing the threat of nuclear annihilation are brighter than at any time since the first atomic device exploded over the desert at Alamogordo The last few years have seen an extraordinary change in the climate of East West relations The programme of political and economic reform which President Gorbachev initiated in the Soviet Union and which is now spreading throughout most of Eastern Europe has been paralleled by serious efforts to reach agreement on measures for conventional and nuclear disarmament This has led to new hope that international peace and security can at last be built upon the firm foundation of justice respect for international law and a determination to approach problems in a spirit of genuine co operation rather than one of distrust and confrontation This new climate encourages us in the belief that the obvious common sense of preventing the further spread of nuclear weapons will come to be shared by all nations At the same time we have to recognize two very disturbing facts which imply that there can be no slackening of our efforts to strengthen the non proliferation regime *The Nuclear Non-proliferation Treaty* Mohamed Ibrahim Shaker,1980 *The Nuclear Non-proliferation Treaty* Ian Bellany,Coit D. extend the Treaty on the NonProliferation of Nuclear Weapons NPT The Future of the NPT brings together a distinguished group of individuals including the elected President of the 1995 NPT Conference to analyse four crucial agenda areas relevant to the Conference the preConference activities to be undertaken by both States Parties and the Conference Secretariat those security issues that relate to a review of the treaty such as nuclear disarmament and security assurances peaceful uses and verification questions and regional issues With nuclear nonproliferation currently occupying a prominent position on the international security agenda the 1995 Conference offers a unique opportunity for a constructive discussion on these areas and it is hoped that this volume will provide a contribution to that end **Reviewing the Nuclear**

Nonproliferation Treaty (NPT) Henry D. Sokolski, Army War College (U.S.). Strategic Studies Institute, 2010 As currently interpreted it is difficult to see why the Nuclear Nonproliferation Treaty NPT warrants much support as a nonproliferation convention Most foreign ministries including that of Iran and the United States insist that Article IV of the NPT recognizes the inalienable right of all states to develop peaceful nuclear energy This includes money losing activities such as nuclear fuel reprocessing which can bring countries to the very brink of acquiring nuclear weapons If the NPT is intended to ensure that states share peaceful benefits of nuclear energy and to prevent the spread of nuclear bomb making technologies it is difficult to see how it can accomplish either if the interpretation identified above is correct Some argue however that the NPT clearly proscribes proliferation by requiring international nuclear safeguards against military diversions of fissile material Unfortunately these procedures which are required of all non nuclear weapons state members of the NPT under Article III are rickety at best Each chapter of this book is dedicated to clarifying the NPT s key ambiguities and the chapters are roughly structured to trace the NPT s text article by article The analysis set forth here was mostly written or commissioned by the Nonproliferation Policy Education Center Much more of course could have been included in this book But rather than seeking to be comprehensive the aim throughout is to provide a guide for both policymakers and security analysts This guide should assist in navigating the most important debates over how best to read and implement the NPT and in the process spotlighting alternative views of the NPT that are sound and supportable Related products *Treaties in Force A List of Treaties and Other International Agreements of the United States in Force on January 1 2016* can be found here <https://bookstore.gpo.gov/products/sku/044-000-02684-8> *The Warsaw Pact Treaty of Friendship Cooperation and Mutual Assistance Soviet East European Military Relations in Historical Perspective Sources and Reassessments* can be found here <https://bookstore.gpo.gov/products/sku/041-015-00306-2> *Moving Beyond Pretense Nuclear Power and Nonproliferation* can be found here <https://bookstore.gpo.gov/products/sku/008-000-01098-6> *Nuclear Non-proliferation Treaty*, 1985

Non-Proliferation Stockholm International Peace Research Institute, 2020-11-19 Is the appearance of new nuclear weapon states inevitable Who are the sponsors and apologists of nuclear weapons and why are others in favour of renouncing them What are the implications for international security of the increasingly wide use of nuclear energy How can nuclear threats

be defused Originally published in 1985 SIPRI's study suggests some answers to these questions The book examines the situation in a number of countries of key importance for non proliferation the two nuclear weapon states which have declined to join the 1968 Non Proliferation Treaty China and France a group of nuclear threshold states also remaining outside the Treaty Argentina Brazil India Israel Pakistan South Africa and Spain and a group of states both developed and developing which for various reasons have joined the Treaty Canada Egypt South Korea Sweden Switzerland and Taiwan The focus of the book is on motivations for and against nuclear proliferation An analysis of these motivations leads the editor to make detailed recommendations aimed at halting the spread of nuclear weapons Appendices include a list of nuclear facilities in the countries studied specifying the degree of their coverage by international controls and other relevant documentation
