Nonviolence In An Aggressive World:

Non-violence in an Aggressive World Abraham John Muste,1972 *Psychology of Non-violence and Aggression* V.K. Kool,2007-11-27 Kool draws on recent research to illustrate that whilst the control of violence is a reaction to aggression nonviolence is by contrast an active behaviour The book explores a wide survey of theories and examples spanning ideas in cognition motivation and behaviour that will provide students with an engaging entry point to the subject **Gandhi, Truth, and Nonviolence** Vinay Lal,2024-12-26 The anthology presents a diverse array of essays delving into Gandhi s political activities ethical beliefs and philosophical stance Distinguished Gandhian scholars contribute to this collection setting it apart from similar compilations by focusing not just on Gandhi s impact or the debate over his relevance but on maintaining his bold ethical ideals and progressive views in an era of skepticism The essays delve into Gandhi s comprehensive dissection of political logic his concept of neighbourly political bonds his fearlessness and adeptness as a yogi The work also discusses the worldwide landscape of nonviolence Gandhi s perspectives on Palestine his legal work in South Africa his dialogues with Tagore the pursuit of his ethical goals and the portrayal of his persona as well as the ongoing relevance of his nonviolent resistance methods as seen in India s anti Citizenship Amendment Act protests These pieces portray Gandhi as a perpetual participant in limitless endeavours as described by philosopher James Carse The book concludes with an interview with Rev James Lawson a pivotal figure in the American civil rights movement which offers a fresh perspective The Gandhi that emerges from these reflections and intellectual explorations has become all but a stranger to India and especially to his native Gujarat *Reconstructing Nonviolence* Roberto Baldoli,2018-09-03 Nonviolent methods of action have been a powerful tool since the early twentieth century for social protest and revolutionary social and political change and there is diffuse awareness that nonviolence is an efficient spontaneous choice of movements individuals and whole nations Yet from a conceptual standpoint nonviolence struggles to engage with key contemporary political issues the role of religion in a post secular world the crisis of democracy and the use of supposedly nonviolent techniques for violent aims Drawing on classic thinkers and contemporary authors in particular the Italian philosopher Aldo Capitini this book shows that nonviolence is inherently a non systematic and flexible system with no pure immaculate thought at its core Instead at the core of nonviolence there is praxis which is impure because while it aims at freedom and plurality it is made of less than perfect actions performed in an imperfect environment by flawed individuals Offering a more progressive transformative and at the same time pluralistic concept of nonviolence this book is an original conceptual analysis of political theory which will appeal to students of international relations global politics security studies peace studies and democratic theory **Nonviolence in the World's Religions** Jeffery D. Long,Michael G. Long,2021-09-23 The twenty first century began with the terrorist attacks of September 11 2001 Much has been written and debated on the relationship between faith and violence with acts of terror at the forefront However the twentieth century also gave rise to many successful nonviolent

protest movements Nonviolence in the World's Religions introduces the reader to the complex relationship between religion and nonviolence. Each of the essays delves into the contemporary and historical expressions of the world's major religious traditions in relation to nonviolence. Contributors explore the literary and theological foundations of a tradition's justification of nonviolence, the ways that nonviolence has come to expression in its beliefs, symbols, rituals and other practices and the evidence of nonviolence in its historic and present responses to conflict and warfare. The meanings of both religion and nonviolence are explored through engagement with nonviolence in Hindu, Buddhist, Chinese, Sikh, Jewish, Christian, Islamic, Jain and Pacific Island religious traditions. This is the ideal introduction to the relationship between religion and violence for undergraduate students as well as for those in related fields such as religious studies, peace and conflict studies, area studies, sociology, political science and history.

The Religious Left in Modern America Leilah Danielson, Marian Mollin, Doug Rossinow, 2018-05-15. This edited collection of exciting new scholarship provides comprehensive coverage of the broad sweep of twentieth century religious activism on the American left. The volume covers a diversity of perspectives including Protestant, Catholic and Jewish history and important essays on African American, Latino and women's spirituality. Taken together these essays offer a comparative and long term perspective on religious groups and social movements often studied in isolation and fully integrate faith based action into the history of progressive social movements and politics in the modern United States. It becomes clear that throughout the twentieth century religious faith has served as a powerful motivator and generator for activism not just as on the right where observers regularly link religion and politics but on the left. This volume will appeal to historians of modern American politics, religion and social movements, religious studies scholars and contemporary activists.

Nonviolence William Robert Miller, 1966.

Aggression and Violence Brad J. Bushman, 2016-10-14. This book provides a broad and contemporary overview of aggression and violence by some of the most internationally renowned researchers in the field. It begins with an integrative theoretical understanding of aggression and shows how animal models shed light on human aggression and violence. Individual risk factors for aggression and violence from different research perspectives are then examined. First there is a cognitive neuroscientific neuropsychological and psychophysiological study of the brain. It then explores the developmental psychological factors in aggressive behavior incorporating work on gender and the family. Other perspectives include the role of testosterone, individual differences and whether humans are innately wired for violence. The following sections moves from the individual to the contextual risk factors for aggression including work on the effects of adverse events and ostracism, guns and other aggressive cues including violent media and drugs and alcohol. Targets of

aggression and violence are covered in the next section including violence against women and loved ones aggression between social groups and the two very contemporary issues of cyberbullying and terrorism The book concludes with work showing how we may make the world a more peaceful place by preventing and reducing aggression and violence The volume is essential reading for upper level students and researchers of psychology and related disciplines interested in a rigorous and multi perspective overview of work on aggression and violence **American Nonviolence** Ira Chernus,2004 Most Americans can recite the names of famous generals and historic battles Some can also name champions of nonviolence like Martin Luther King Jr or recall the struggles for peace and justice that run like a thread through U S history But little attention is paid to the intellectual tradition of nonviolence Ira Chernus surveys the evolution of this powerful idea from the Colonial Era up to today focusing on representative movements Anabaptists Quakers Anarchists Progressives and key individuals Thoreau Reinhold Niebuhr Dorothy Day A J Muste King Barbara Deming including non Americans like Mohandas Gandhi and Thich Nhat Hanh who have helped form the idea of nonviolence in the United States American Nonviolence offers an essential guide for both students and activists **Nonviolence in Theory and Practice** Robert L. Holmes,1990 This book combats the notion that nonviolence is basically something new by stressing its Eastern origins and emphasizing the extent to which many of the recent manifestations of nonviolence are found in the Third World *Bibliography of Books on War, Pacifism, Nonviolence and Related Studies* William Robert Miller,1960 Peace and Nonviolence Edward Guinan,1973 Optical illusions form structures in which curious little men can go up stairs to get to a lower place hang pictures on the ceiling and walk on walls **The Political Theory of Non-violence** John Colin Buhner,1963 Gandhian Thought and Techniques in the Modern World S. C. Gangal,1988 **Non-violent Action, Theory and Practice** April Carter,David Hoggett,Adam Roberts,1966 *Non-violence as a Political Weapon* John Colin Buhner,1948 **Book Review Digest** ,1924 **Gandhi and the Contemporary World** Kashi Prasad Misra,S. C. Gangal,1981 **Seeking Identity** Raymond A. Belliotti,1995 Outlining the unwritten but deeply ingrained system of moral codes that Italian immigrants brought to America Belliotti examines that system in relation to moral theorists who argue we owe the most to people close to us and those who contend we must attach no special weight to our own interests when determining proper moral action He also investigates philosophical historical sociological and political aspects of government authority examines conflicting images of Italian immigrant women and analyzes war and pacifism
