Nonviolent Action

Gene Sharp

Nonviolent Action:

Nonviolent Action Ronald M. McCarthy, Gene Sharp, Brad Bennett, 2013-07-04 This comprehensive guide to research sources and theories about nonviolent action as a technique of struggle in social and political conflicts discusses the methods and techniques used by groups in various encounters. Although violence and its causes have received a great deal of attention, nonviolent action has not received its due as an international phenomenon with a long history. An introduction that explains the theories and research used in the study provides a practical guide to this essential bibliography of English language sources. The first part of the book covers case study materials divided by region and subdivided by country. Within each country materials are arranged chronologically and topically. The second major part examines the methods and theory of nonviolent action, principled nonviolence and several closely related areas in social science such as conflict analysis and social movements. The book is indexed by author and subject.

The Politics of Nonviolent Action: The dynamics of nonviolent action Gene Sharp, 1973 The Politics of Nonviolent Action is a major exploration of the nature of nonviolent struggle. This unabridged edition is in three volumes: Power and Struggle, The Methods of Nonviolent Action, and The Dynamics of Nonviolent Action. The Dynamics of Nonviolent Action examines the complex operation of this technique against a violent repressive opponent.

A Theory of Nonviolent Action Stellan Vinthagen, 2015-11-15 In this ground breaking and much needed book, Stellan Vinthagen provides the first major systematic attempt to develop a theory of nonviolent action since Gene Sharp's seminal *The Politics of Nonviolent Action* in 1973.

Employing a rich collection of historical and contemporary social movements from various parts of the world as examples from the civil rights movement in America to anti-Apartheid protestors in South Africa to Gandhi and his followers in India and addressing core theoretical issues concerning nonviolent action in an innovative penetrating way, Vinthagen argues for a repertoire of nonviolence that combines resistance and construction. Contrary to earlier research this repertoire consisting of dialogue facilitation, normative regulation, power breaking and utopian enactment is shown to be both multidimensional and contradictory, creating difficult contradictions within nonviolence while simultaneously providing its creative and transformative force.

An important contribution in the field, *A Theory of Nonviolent Action* is essential for anyone involved with nonviolent action who wants to think about what they are doing.

Nonviolent Action Ronald M. McCarthy, Gene Sharp, 1997 This volume traces the modern critical and performance history of this play, one of Shakespeare's most loved and most performed comedies. The essay focus on such modern concerns as feminism, deconstruction, textual theory and queer theory.

Unarmed Insurrections Kurt Schock, In the last two decades of the twentieth century a wave of people power movements erupted throughout the nondemocratic world. In South Africa, the Philippines, Nepal, Thailand

Burma Myanmar China and elsewhere mass protest demonstrations strikes boycotts civil disobedience and other nonviolent actions were brought to bear on a rigid political status quo Kurt Schock compares the successes of the antiapartheid movement in South Africa the people power movement in the Philippines the pro democracy movement in Nepal and the antimilitary movement in Thailand with the failures of the pro democracy movement in China and the anti regime challenge in Burma Schock develops a synthetic framework that allows him to identify which characteristics increase the resilience of a challenge to state repression and which aspects of a state s relations can he exploited by such a challenge By looking at how these methods of protest promoted regime change in some countries but not in others this book provides rare insight into the often overlooked and little understood power of nonviolent action **Social Psychology of Nonviolent Action** Amrit W. Nonviolent action well planned and implemented is shown in this lucid timely and compelling work to effect dramatic outcomes against opponents utilizing violence Ackerman and Kruegler recognize that not all nonviolent efforts meet with success and they are careful to stress that a nonviolent approach involves great risks as well as opportunities It is the effectiveness of the strategies employed which will determine whether those using nonviolent means can prevail against opponents who rely on violence in pursuit of objectives Twelve principles of strategic nonviolence are established in this book they serve as a conceptual foundation and enhance the prospects of success in nonviolent campaigns of resistance The authors also develop six twentieth century examples of nonviolent action from the early Russian Revolution of 1904 1906 through the Solidarity movement in 1980 1981 Each campaign narrative constitutes a fascinating reading experience and illustrates common themes strategies and important aspects of behavior on the part of major participants in nonviolent encounters This is a singularly important book It offers more than a mere plea for nonviolence Ackerman and Kruegler provide hard lessons based on important and often painful historical efforts principles to govern the choice and implementation of strategies when nonviolence is the determined response and insightful analysis to guide assessment and policy Finally the authors consider the evolving international situation and relate current themes and policies to the potential inherent in astute and deliberate programs of nonviolence A work which will focus analysis impact decision making stimulate policy consideration and invigorate research this volume will well serve professionals and students in international relations and numerous related fields
