Nordic World Heritage:

Our Nordic Heritage Leif Anker, Ingalill Snitt, 1997 Om de 18 nordiske sevrdigheder som er p UNESCO s World Heritage liste *World Heritage Review*, 2016 **Urban Heritage in Europe** Gábor Sonkoly, 2023-04-17 Urban heritage which is part of the conceptual expansion of cultural heritage has become an extraordinarily complex notion Any aspect of urban life and experience can become heritage and this heritage is then continuously reinterpreted and exploited as a source not only for a city s identification but also for its cultural and economic innovation This book provides a detailed overview of Central European urban heritage It examines the key aspects of urban heritage tangible monumental natural landscape world heritage urban quarter and heritage experience dark heritage The regimes of urban heritage approach retraces 200 years of the development of European urban heritage to understand how it has become so significant and how it could integrate practically every area of urban existence The novelty of the book is the interpretation of this development as a process of successive and integrating regimes which are examined through the changing urban heritage agency and discourse Through the examples of European cities and towns such as Belgrade Budapest Gdansk Krakow Ljubljana Subotica Szentendre Vienna but also Edinburgh Nordic cities and Rome these changes reveal their inner complexities and become comparable in an interdisciplinary analysis Further a particular aspect of the history of these cities is revealed through the development of their own urban heritage The book is primarily aimed at academics researchers and postgraduate students of cultural and economic geography cultural history culture and heritage management modern and contemporary history as well as urban history planning and sociology *Nordic World Heritage* Jon Suul, 1996-01-01 Report of NCM Working Group for Nature and Outdoor Recreation Supplied with inserted correction slip Cultural Tourism Hilary du Cros, Bob McKercher, 2014-12-05 Cultural Tourism remains the only book to bridge the gap between cultural tourism and cultural and heritage management The first edition illustrated how heritage and tourism goals can be integrated in a management and marketing framework to produce sustainable cultural tourism The current edition takes this further to base the discussion of cultural tourism in the theory and practice of cultural and heritage management CM and CHM under the understanding that for tourism to thrive a balanced approach to the resource base it uses must be maintained An umbrella approach to cultural tourism represents a unique feature of the book proposing solutions to achieve an optimal outcome for all sectors Reflecting the many important developments in the field this new edition has been completely revised and updated in the following ways New sections on tangible and intangible cultural heritage and world heritage sites Expanded material on cultural tourism product development the cultural tourism market and consumer behaviour planning and delivery of exceptional experiences New case studies throughout drawn from cultural attractions in developing countries such as Southeast Asia China South Africa and the Pacific as well as from the developed world particularly the United States Britain Japan Singapore Australia and Canada Written by experts in both tourism and cultural heritage management this book will enable professionals and

students to gain a better understanding of their own and each other's roles in achieving sustainable cultural tourism. It provides a blueprint for producing top quality long term cultural tourism products. **Evaluation of the Nordic World Heritage Foundation and Renewal of Category 2 Centre Status** Unesco. Executive Board, 2008 **Climate**

Governance in the Arctic Timo Koivurova, E. Carina H. Keskitalo, Nigel Bankes, 2010-03-12 Climate change is affecting the Arctic environment and ecosystems at an accelerating speed twice the rate of the global average. This is opening the Arctic to transportation and resource development and creating serious challenges for local communities and indigenous peoples. Climate Governance in the Arctic considers two aspects of climate change from an institutional perspective. It focuses on how relevant regimes, institutions and governance systems support mitigation of climate change. It also examines the extent to which the varying governance arrangements in the Arctic support adaptation and the development of adaptation processes for the region. The book's focus on Arctic governance offers unique insights within climate change mitigation and adaptation research. **World Heritage Sites and Indigenous Peoples' Rights** Stefan Disko, Helen Tugendhat, 2014 This book includes twenty case studies of World Heritage sites from around the world that explore from a human rights perspective indigenous peoples' experiences with World Heritage sites and with the processes of the World Heritage Convention. The book will serve as a resource for indigenous peoples, World Heritage site managers and UNESCO as well as academics and it will contribute to discussions about what changes or actions are needed to ensure that World Heritage sites can play a consistently positive role for indigenous peoples in line with the spirit of the United Nations Declaration on the Rights of Indigenous Peoples.

Föður Er Hlíðin Iiro Ikonen, 2004 *Sustainable Tourism Management at World Heritage Sites* World Tourism Organization, 2009 World Heritage Sites are among the most emblematic tourism destinations and attractions facing numerous challenges due to an ever increasing tourism activity and related development issues. This Conference was held as part of a strategic collaboration between UNWTO and the UNESCO World Heritage Centre in order to address key tourism policy and management issues such as coordination between heritage management and tourism organisations extending benefits to local communities, reducing tourism congestion and environmental impacts, increasing site financing and enhancing the interpretation and communication of heritage values through tourism. This report summarizes the rich exchange of experience from the Conference including the overall conclusions, expert presentations, a range of case studies across the Asia region as well as the results of field exercises and working group discussions analysing the Mount Huangshan National Park and Hongcun Xidi Ancient Villages, illustrating how World Heritage Sites can be integrated into broader regional and destination level tourism management processes. **Handbook on Tourism Governance** Jarkko Saarinen, C. M. Hall, 2025-02-12 This Handbook provides a comprehensive overview of contemporary issues on governance in various tourism research, policy and development contexts. Expert contributors examine the relationship between governance, sustainability, resilience and justice in tourism, including critical discussions on good governance for tourism in the future.

The Routledge Research Companion to Planning and Culture Greg Young, 2016-03-23 It has become increasingly evident that effective planning for sustainable communities environments and economies pivots on the ability of planners to see the possibilities for culture in comprehensive social historical and environmental terms and to more fully engage with the cultural practices processes and theorisation that comprise a social formation More broadly an approach to planning theory and practice that is itself formed through a close engagement with culture is required This Research Companion brings together leading experts from around the world to map the contours of the relationship between planning and culture and to present these inextricably linked concepts and issues together in one place By examining significant trends in varying national and international contexts the contributors scrutinise the theories and practices of both planning and culture and explore not only their interface but significant divergences and tensions In doing so this collection provides the first comprehensive overview and analysis of planning and culture interdisciplinary and international in scope It is comprised of six parts organised around the themes of global and historical contexts key dimensions of planning and cultural theory and practice and cultural and planning dynamics Each section includes a final chapter that provides a case study lens which pulls the themes of the section together with reference to a significant planning issue or initiative
