## North America Archaeology:

**The Archaeology of Ancient North America** Timothy R. Pauketat,Kenneth E. Sassaman,2020-02-27 Unlike extant texts this textbook treats pre Columbian Native Americans as history makers who yet matter in our contemporary world

North American Archaeology Timothy R. Pauketat,Diana DiPaolo Loren,2004-12-27 This volume offers a rich and informative introduction to North American archaeology for all those interested in the history and culture of North American natives Organized around central topics and debates within the discipline Illustrated with case studies based on the lives of real people to emphasize human agency cultural practice the body issues of inequality and the politics of archaeological practice Highlights current understandings of cultural and historical processes in North America and situates these understandings within a global perspective

Historical Dictionary of North American Archaeology Edward B. Jelks,Juliet C. Jelks,1988-05-06 Invaluable both for reference and collection development with a 150 page bibliography this guide to mainly prehistoric sites cultures and artifacts in the United States and Canada features some 1800 signed entries by 151 expert contributors that highlight the information upon which present North American prehistory is based A scholarly achievement Library Journal This dictionary of more than 1800 entries represents a collaboration of 159 archaeologists each an authority on a particular region The result is a source of basic information on the major prehistorical cultures archaeological sites and types of artifacts found in North America The sites were selected from the more than one half million prehistoric archaeological sites recorded in North America because they are the principal ones upon which the major chronologies classifications and interpretations of the continent s prehistory are based The reference has entries for most major types of artifacts and details the important cultures including their phases and subdivisions At the end of each entry is a list of sources which refers primarily to published works but which also cites unpublished documents on file at universities museums and government agencies when these represent the only available source of information

Seeking Our Past Sarah Ward Neusius,G. Timothy Gross,2007 Le c d rom contient des fichiers en format PDF

**The Development of North American Archaeology** James Edward Fitting,1973 A concise history of every region in North America from the Arctic to the Southwest A summary of the most important expeditions of these areas from back cover

**Prehistory of North America** Mark Sutton,2015-12-22 A Prehistory of North America covers the ever evolving understanding of the prehistory of North America from its initial colonization through the development of complex societies and up to contact with Europeans This book is the most up to date treatment of the prehistory of North America In addition it is organized by culture area in order to serve as a companion volume to An Introduction to Native North America It also includes an extensive bibliography to facilitate research by both students and professionals

**Ancient North America** Brian M. Fagan,2000-01-01 Describes the ancient cultures of North America based on archaeological findings including extensive sections on the background of North American exploration and archaeology the Paleo Indians the Great Plains the Far North the West and the Eastern

Woodlands and a chapter on European contact    [The Archaeology of Native North America](#) Dean Snow,Nancy Gonlin,Peter Siegel,2019-07-30 The Archaeology of Native North America presents the ideas evidence and debates regarding the initial peopling of the continent by mobile bands of hunters and gatherers and the cultural evolution of their many lines of descent over the ensuing millennia The emergence of farming urban centers and complex political organization paralleled similar developments in other world areas With the arrival of Europeans to North America and the inevitable clashes of culture colonizers and colonists were forever changed which is also represented in the archaeological heritage of the continent Unlike others this book includes Mesoamerica and the Caribbean thus addressing broad regional interactions and the circulation of people things and ideas This edition incorporates results of new archaeological research since the publication of the first edition a decade earlier Fifty four new box features highlight selected archaeological sites which are publicly accessible gateways into the study of North American archaeology The features were authored by specialists with direct knowledge of the sites and their broad importance Glossaries are provided at the end of every chapter to clarify specialized terminology The book is directed to upper level undergraduate and graduate students taking survey courses in American archaeology as well as other advanced readers It is extensively illustrated and includes citations to sources with their own robust bibliographies leading diligent readers deeper into the professional literature The Archaeology of Native North America is the ideal text for courses in North American archaeology    *The Archaeology of North American Farmsteads*

Mark D. Groover,2022-06-01 From the early colonial period to the close of World War II life in North America was predominantly agrarian and rural Archaeological exploration of farmsteads unveils a surprising quantity of data about rural life consumption patterns and migrations across the continent Mark Groover offers both case studies and an overview of current trends in farmstead archaeology in this exciting new work He also proposes a research design and makes numerous suggestions for evaluating and re evaluating the significance of farmsteads as an archaeological resource His chronological survey of farmstead sites throughout numerous regions of North America provides fascinating insights to students cultural resource management professionals or general readers interested in learning more about what material culture remains can teach us about the American past Farmstead archaeology is a rapidly expanding component of historical archaeology This book offers important lessons and information as more sites become victims of ever accelerating development and urbanization

**[The Oxford Handbook of North American Archaeology](#)** Timothy Pauketat,2011-03-01 This volume explores 15 000 years of indigenous human history on the North American continent drawing on the latest archaeological theories time honored methodologies and rich datasets From the Arctic south to the Mexican border and east to the Atlantic Ocean all of the major cultural developments are covered in 53 chapters with certain periods places and historical problems receiving special focus by the volume s authors Questions like who first peopled the continent what did it mean to have been a hunter gatherer in the Great Basin versus the California coast how significant were cultural exchanges between Native

North Americans and Mesoamericans and why do major historical changes seem to correspond to shifts in religion politics demography and economy are brought into focus The practice of archaeology itself is discussed as contributors wrestle with modern day concerns with the implications of doing archaeology and its relevance for understanding ourselves today In the end the chapters in this book show us that the principal questions answered about human history through the archaeology of North America are central to any larger understanding of the relationships between people cultural identities landscapes and the living of everyday life

**Fantastic Archaeology** Stephen Williams, 1991 A cheerful and delightful excursion into the realms of fraud hucksterism wretched excess and wishful thinking From Indiana Jones to Lost Atlantis from mysticism to Mu Williams reviews the colorful characters and misguided theories which have excited the public and exasperated mainstream archaeologists Michael Crichton

The A to Z of Early North America Cameron B. Wesson, 2009-08-06 Those unfamiliar with the prehistory of North America have a general perception of the cultures of the continent that includes Native Americans living in tipis wearing feathered headdresses and buckskin clothing and following migratory bison herds on the Great Plains Although these practices were part of some Native American societies they do not adequately represent the diversity of cultural practices by the overwhelming majority of Native American peoples Media misrepresentations shaped by television and movies along with a focus on select regions and periods in the history of the United States have produced an extremely distorted view of the indigenous inhabitants of the continent and their cultures The indigenous populations of North America created impressive societies engaged in trade and had varied economic social and religious cultures Over the past century archaeological and ethnological research throughout all regions of North America has revealed much about the indigenous peoples of the continent This book examines the long and complex history of human occupation in North America covering its distinct culture as well as areas of the Arctic California Eastern Woodlands Great Basin Great Plains Northwest Coast Plateau Southwest and Subarctic Complete with maps a chronology that spans the history from 11 000 B C to A D 1850 an introductory essay more than 700 dictionary entries and a comprehensive bibliography this reference is a valuable tool for scholars and students An appendix of museums that have North American collections and a listing of archaeological sites that allow tours by the public also make this an accessible guide to the interested lay reader and high school student

Numismatic Archaeology of North America Marjorie H. Akin, James C. Bard, Kevin Akin, 2016-05-05 Numismatic Archaeology of North America is the first book to provide an archaeological overview of the coins and tokens found in a wide range of North American archaeological sites It begins with a comprehensive and well illustrated review of the various coins and tokens that circulated in North America with descriptions of the uses for and human behavior associated with each type The book contains practical sections on standardized nomenclature photographing cleaning and curating coins and discusses the impacts of looting and of working with collectors This is an important tool for archaeologists working with coins For numismatists and collectors it explains the importance of archaeological context for complete analysis

**The Archaeology**

**of North America** Dean R. Snow, 1976 Surveys the lifeways and cultural achievements and traditions of the prehistoric peoples of the great regions of North America as we know of them from archaeological finds and research **The First North Americans** Brian M. Fagan, 2011 Professor Fagan recounts the increasingly sophisticated acclimation by Native Americans to arctic arid and semiarid lands culminating in the spectacular Ancestral Pueblo societies of the Southwest and the elaborate coastal settlements of California and the Pacific Northwest He then traces the origins of the Moundbuilder societies of the Eastern Woodlands which reached their apogee in the flamboyant Mississippian culture of the South and Southeast and the mounds of the ancient city of Cahokia The book ends with a description of the Algonquian and Iroquoian peoples of the Northeast and St Lawrence Valley and an epilogue that enumerates the devastating consequences of European contact for Native Americans Archaeology of Native North America Dean R. Snow, 2015-09-04 This comprehensive text is intended for the junior senior level course in North American Archaeology Written by accomplished scholar Dean Snow this new text approaches native North America from the perspective of evolutionary ecology Succinct streamlined chapters present an extensive groundwork for supplementary material or serve as a core text The narrative covers all of Mesoamerica and explicates the links between the part of North America covered by the United States and Canada and the portions covered by Mexico Guatemala Belize and the Greater Antilles Additionally book is extensively illustrated with the author s own research and findings

**Prehistoric Exchange Systems in North America** Timothy G. Baugh, Jonathon E. Ericson, 2013-03-14 In this unique volume archaeologists examine the changing economic structure of trade in North America over a period of 6 000 years Organized by geographical and chronological divisions each chapter focuses on trade in one of nine regions from the Archaic through the late prehistoric period Each contribution explores neighboring areas to illustrate the complexity of North American exchange By charting the economic structure of these regions archaeologists economic anthropologists and economic geographers gain greater insight into the dynamics of North American trade and exchange on a continental wide basis **The Archaeology of North America** Dean R. Snow, Werner Forman, 1980 Surveys the lifeways and cultural achievements and traditions of the prehistoric peoples of the great regions of North America as we know of them from archaeological finds and research

**Unlocking the Past** John H. Jameson, 2005 Leading readers to archaeological sites from Canada to the Caribbean and through time from the era of early Norse voyages to World War II this book describes compelling discoveries unearthed by archaeologists in search of North America s historical past The essays challenge our ideas about the continent as they reveal how native and immigrant peoples interacted with their environment and each other over the course of five centuries Through the work of more than 30 archaeological teams readers learn about the rich diversity of historical archaeology exploring the who what where when how and why of the discipline The authors explain how they dissect soils recover fragile objects document each element of excavation and piece together the many fragments of evidence from archives libraries and laboratories The tales in *Unlocking the Past* are organized into five themes

Cultures in Contact unravels the contributions of architecture landscape food dining burial practices and other factors to our understanding of everyday life in the past Challenging and Changing Environments highlights the techniques resources and questions that historical archaeologists use to understand the roots of ways of thinking about and acting on the land Through burial remains left beneath streets and tall buildings Building Cities portrays urban life in large cities like New York World Heritage cities like Quebec and industrial cities like Oakland California Making a Living in Rural America explores the rural tradition in North American history as archaeologists read the traces of ancient farms ranches potteries and mills Cultures in Conflict introduces the archaeology of colonial wars the U S Civil War the epic Battle of Little Bighorn and World War II

*The Archaeology of North America* Dean Snow,2009-01-01
