**The North American City** Maurice Yeates, Barry J. Garner, 1971     *The North American City* Maurice Yeates, 1998 In the twenty five years since *The North American City* was first published urban geography has become one of the most important and vital areas in geography The fifth edition of this classic text has been thoroughly revised and expanded to include the wide range of urban interests and theoretical approaches being applied to urban questions today     *North American Cities and the Global Economy* Peter Karl Kresl, Gary Gappert, 1995-07-18 As the global economy becomes ever more interconnected what role will North American cities play What challenges will North American cities encounter as they become more integrated in the world economy The contributors to this groundbreaking volume examine these questions and offer a candid analysis of urban economics in a global age Taking a multidisciplinary approach contributors address such salient issues as the politics of international engagement planning strategic linkages between cities cross border interaction and networking in North America wage polarization and urban competitiveness Scholars and students in the fields of urban studies economics international studies and urban planning will find this an invaluable resource In addition this volume will also serve a key resource for city practitioners     *Liberal Dreams and Nature's Limits* James T. Lemon, 2008-05-14 On the agricultural frontier and through technological progress Europeans and others and their descendants have sought to fulfill their dreams of improvement Through businesses governments and other bodies city dwellers expedited these desires by organizing settlements communications trade finance and manufacturing In turn cities grew mighty To assess the present condition of cities *Liberal Dreams and Nature's Limits* focuses on five large North American cities at various times in the past Philadelphia about 1760 New York 1860 Chicago 1910 Los Angeles 1950 and Toronto 1975 Life inside these cities specifically the economy society and politics public services land development and the geographies of circulation workplaces and residential districts is the central concern of this book Another concern is drawing contrasts and similarities between the American and Canadian urban experiences North Americans most now living in cities face the challenge of a social frontier how to maintain civility in a near stagnant economy Despite recent advances in cyberspace nature has imposed limits on technical progress defined by speed convenience and comfort Promethean gains through creative destruction are no longer possible Increased preoccupation with money status and safety suggests that the striving inspired by liberalism is still appealing Yet without growth liberal dreams cannot be fulfilled To ensure work income equity and a degree of freedom in thought and action citizens and leaders in both countries will have to commit themselves as never before to managing fairness through social democracy Sustainable cities are not possible otherwise     **Life and Death in Latin American Cities** Christien Klaufus, 2025-10-21 The infrastructure of death is an undeniable part of urban life yet it is often overlooked in the study of cities This book explores the intricate dynamics between the living and the dead in six Latin American cities Bogotá Medellín Lima Buenos Aires Quetzaltenango and Cuenca Drawing on more than a decade of ethnographic research the

author investigates how urban death infrastructures such as cemeteries and spaces for the deceased are shaped by rapid urbanization legacies of violence neoliberal policies and alternative spiritual practices With a fresh Global South perspective this unique contribution will challenge the boundaries of death studies placing the infrastructure of death at the heart of urban life    **Memory and Monument Wars in American Cities** Marouf A. Hasian Jr.,Nicholas S. Paliewicz,2020-09-16

This book is about the ways U S cities have responded to some of the most pressing political cultural racial issues of our time as agentic remembering actors Our case studies include New York City s securitized remembrances at the National September 11 Memorial and Museum Charlottesville s Confederate monument controversies in the wake of the 2017 Unite the Right Rally and Montgomery s double consciousness at the National Memorial for Peace and Justice and Legacy Museum By tracing the genealogies that can be found across three contested cityscapes New York Charlottesville and Montgomery this book opens up new vistas for research for communication studies as it shows how cities are agentic actors that can wage war on urban landscapes as massive actor networks struggling to remember and forget With the rise of sanctuary cities against nativistic immigration policies invasions from white supremacists and neo Nazis objecting to the great replacement and rhizomic uprisings of Black Lives Matter protests in response to lethal police force against persons of color this timely book speaks to the emergent realities of how cities have become battlegrounds in America s continuing cultural wars    **The American City** Arthur Hastings Grant,Harold S. Buttenheim,1912

**The Colonial Spanish-American City** Jay Kinsbruner,2005-05-01 The colonial Spanish American city like its counterpart across the Atlantic was an outgrowth of commercial enterprise A center of entrepreneurial activity and wealth it drew people seeking a better life with more educational occupational commercial bureaucratic and marital possibilities than were available in the rural regions of the Spanish colonies Indeed the Spanish American city represented hope and opportunity although not for everyone In this authoritative work Jay Kinsbruner draws on many sources to offer the first history and interpretation in English of the colonial Spanish American city After an overview of pre Columbian cities he devotes chapters to many important aspects of the colonial city including its governance and administrative structure physical form economy and social and family life Kinsbruner s overarching thesis is that the Spanish American city evolved as a circumstance of trans Atlantic capitalism Underpinning this thesis is his view that there were no plebeians in the colonial city He calls for a class interpretation with an emphasis on the lower middle class His study also explores the active roles of women many of them heads of households in the colonial Spanish American city    **Muslim American City** Alisa Perkins,2020-07-07 Explores how Muslim Americans test the boundaries of American pluralism In 2004 the al Islah Islamic Center in Hamtramck Michigan set off a contentious controversy when it requested permission to use loudspeakers to broadcast the adh n or Islamic call to prayer The issue gained international notoriety when media outlets from around the world flocked to the city to report on what had become a civil battle between religious tolerance and Islamophobic sentiment The Hamtramck council voted unanimously to allow

mosques to broadcast the adhan making it one of the few US cities to officially permit it through specific legislation Muslim American City explores how debates over Muslim Americans use of both public and political space have challenged and ultimately reshaped the boundaries of urban belonging Drawing on more than ten years of ethnographic research in Hamtramck which boasts one of the largest concentrations of Muslim residents of any American city Alisa Perkins shows how the Muslim American population has grown and asserted itself in public life She explores for example the efforts of Muslim American women to maintain gender norms in neighborhoods mosques and schools as well as Muslim Americans efforts to organize public responses to municipal initiatives Her in depth fieldwork incorporates the perspectives of both Muslims and non Muslims including Polish Catholics African American Protestants and other city residents Drawing particular attention to Muslim American expressions of religious and cultural identity in civil life particularly in response to discrimination and stereotyping Perkins questions the popular assumption that the religiosity of Muslim minorities hinders their capacity for full citizenship in secular societies She shows how Muslims and non Muslims have through their negotiations over the issues over the use of space together invested Muslim practice with new forms of social capital and challenged nationalist and secularist notions of belonging
