## **Older Men:**

**Older Men's Lives** Edward H. Thompson, Edward H. Thompson (Jr.), 1994-06-07 In this multidisciplinary portrait of men and their concerns in later life the contributors use both a life course and gendered perspective to point out that the image and self image of men are continually reconstructed throughout the life cycle Issues examined include the position of older men in society and the changes wrought in their status and roles over time men's relationships to spouse children grandchildren and friends and policy implications *Men, Masculinities, and Aging* Edward H. Thompson (Jr.), 2019 *Men Masculinities and Aging* introduces readers to the gendered nature of aging men's lives Edward H Thompson noted for his work on men and aging explores the intersections of ethnicities class geographies generations and masculinities The book offers a fresh perspective on men's experiences with bodily aging growing older in an ageist society and navigating the virtual absence of cultural guidelines for being an aging man The book also provides a sociological theory framework on how men navigate their social aging as they experience later life and very late life Turning points such as grandfathering the changeover from work to retirement and the onset of health problems or becoming a caregiver are discussed at length as Thompson frames these natural occurrences as now ordinary experiences as aging masculinities are no longer rarities The book will provide educators students researchers and practitioners a means to question standard assumptions about aging men and discuss what underlies most later life masculinities **Elderly Men** Jordan I. Kosberg, Lenard W. Kaye, 1997 This book provides an interdisciplinary overview of common and unique features of elderly men and how they age The editors examine cultural psychological physical and economic factors that affect the quality of life for older men They clearly illustrate the diversity within this population highlighting ethnicity religion and important sociodemographic variables Elderly men are described as a minority in need of critical examination to understand more fully this forgotten population Students and practitioners in the fields of social work and gerontology will find this text's practical application very appealing **Older People at Home** Australian Council on the Ageing, 1985 **Psychotherapy with Older Men** Tammi Vacha-Haase, Stephen R. Wester, Heidi Fowell Christianson, 2011-01-19 Growing older can be a time of great joy and satisfaction for men as they look back on their accomplishments and gain more free time but it can also be a challenging and distressing experience especially for those men raised with the very traditional notions of what it means to be a real man This book will help practitioners working with older and aging men understand the eras in which these men were raised how they view the world the gender role conflicts they experience and the physical mental and emotional challenges and problems they face during the later stages of their lives The authors discuss theories of masculinity and aging and therapeutic considerations for working with this special population Making use of many detailed case studies they explore the psychological issues that are commonly faced by older men such as depression anxiety cognitive impairment and substance use and abuse as well as effective screening and assessment techniques and treatment approaches They then conclude with
