Empires and their aftermaths were massive planning institutions in the past two hundred years. The natural and social sciences emerged at least in part as modes of knowledge production for imperial planning. Yet these connections are frequently underemphasized in the history of science and its corollary fields. The Planning Moment explores the myriad ways plans and planning practices pervade recent global history. The book is built around twenty-seven brief case studies that explore the centrality of planning in colonial and postcolonial environments, relationships and contexts through a range of disciplines: the history of science, science and technology studies, colonial and postcolonial studies, urban studies and the history of knowledge. If colonialism made certain landscapes, populations and institutions legible while obscuring others, The Planning Moment reveals the frequently disruptive and violent processes of erasure in imperial planning by examining how common sense was produced and how the intransigence of planning persists long after decolonization. In recognizing the resistance and subversion that often met colonial plans, the book makes visible a range of strategies and techniques by which planning was modified and reappropriated and by which decolonial futures might be imagined. Just Love Ann Mongoven, 2009-07-13. Once upon a time, civic virtue described an ethic of political involvement for all citizens. As American democracy evolved, however, the public and private spheres separated. The latter became domesticated and disengaged from public life by an ideology based on gender and a disinterested love of neighbor. Private passion was to be isolated from public reason, private love from public justice. But it need not be so. Drawing on examples of ordinary heroes, Ann Mongoven argues for a transformed civic virtue that articulates just love, passionate care for fellow citizens as such. By connecting theory to practice, Mongoven dramatizes the challenges raised through tangible political examples and lets ordinary heroes suggest the path toward civic renewal. **Teaching and Learning Literature with Children and Young Adults**, 1997. **OLIVER TWIST** Meenu Gupta, 2020-12-26.
