Ombria In Shadow:

Ombria in Shadow Patricia A. McKillip, 2002-01-08 When Ombria's prince Royce Greve breathes his last in palace rooms high above the city he leaves his young son and mistress at the mercy of his ancient and powerful great aunt Domina Pearl. Meanwhile in a dreamlike underworld peopled by Ombria's ghosts a sorceress weaves her spells and brews her potions never revealing her real face or true heart. And somewhere in between the struggle to rule the whole of Ombria both its light and shadows will rest in the hands of those whose fractured lives align like the lost pieces of a magical puzzle. Ombria in Shadow Patricia A. McKillip, 2003-02 From the Nebula nominated author of *The Tower at Stony Wood* comes the tale of an enchanted time and place Ombria a city that holds its breath as a straw haired apparition sees its dreams and nightmares take shape in the drawings of a bastard heir.

Patricia A. McKillip and the Art of Fantasy World-Building Audrey Isabel Taylor, 2017-10-31 From wondrous fairy lands to nightmarish hellscapes the elements that make fantasy worlds come alive also invite their exploration. This first book length study of critically acclaimed novelist Patricia A. McKillip's lyrical other worlds analyzes her characters environments and legends and their interplay with genre expectations. The author gives long overdue critical attention to McKillip's work and demonstrates how a broader understanding of world building enables a deeper appreciation of her fantasies. *Here Be Dragons* Stefan Ekman, Stefan Ekman, 2013-02-19 First in depth study of the use of landscape in fantasy literature. Winner of the Mythopoeic Scholarship Award for Myth and Fantasy Studies 2016. Fantasy worlds are never mere backdrops. They are an integral part of the work and refuse to remain separate from other elements. These worlds combine landscape with narrative logic by incorporating alternative rules about cause and effect or physical transformation. They become actors in the drama interacting with the characters offering assistance or hindrance and making ethical demands. In *Here Be Dragons* Stefan Ekman provides a wide ranging survey of the ubiquitous fantasy map as the point of departure for an in depth discussion of what such maps can tell us about what is important in the fictional worlds and the stories that take place there. With particular focus on J. R. R. Tolkien's *The Lord of the Rings* Ekman shows how fantasy settings deserve serious attention from both readers and critics. Includes insightful readings of works by Steven Brust, Garth Nix, Robert Holdstock, Terry Pratchett, Charles de Lint, China Miéville, Patricia McKillip, Tim Powers, Lisa Goldstein, Steven R. Donaldson, Robert Jordan and Neil Gaiman and Charles Vess.
