development The events utilized by the author are intermittently pulled out of the biblical and secular vast reservoirs Thus the arguments are worthy and at the height of the author s ambition to be able to convince the reader that when our calamities are not from nature or man made they are evidently self inflicted owing it to the concept that we often are the artisans of our own sufferings Do not miss to read The Hierarchy of Human Sufferings Make it your next bedside book On a Grander Scale Lisa Jardine,2003-01-21 Trough the prism of the tumultuous life and brilliant intellect of Sir Christopher Wren the multitalented architect of Saint Paul s Cathedral in London historian Lisa Jardine unfolds the vibrant extraordinary emerging new world of late seventeenth century science and ideas The man behind the bold imposing beauty of Saint Paul s was as remarkable as the monuments he has left us Wren was a versatile genius who could have pursued a number of brilliant careers with equal virtuosity A mathematical prodigy an accomplished astronomer a skillful anatomist and a founder of the Royal Society he eventually made a career in what he described disparagingly in later life as Rubbish architecture and the design and construction of public buildings Wren was a major figure at a turning point in English history He mapped moons and the trajectories of comets for kings lived and worked under six monarchs pursued astronomy and medicine during two civil wars exercised his creativity through the English Commonwealth the Great Fire the Restoration His royal employment out lasted abdication Dutch invasion and the eventual extinction of the Stuart dynasty Beyond the public achievements Jardine explores Wren s personal motivations and passions He was a sincere intensely moral man with a remarkable capacity for friendship His career was shaped by lasting associations forged during a turbulent boyhood and a lifelong loyalty to the memory of his father s master and benefactor the martyred king Charles I Everything Wren undertook he envisaged on a grander scale bigger better more enduring than anything that had gone before **Proceedings of the Grand Encampment of K[nights] T[emplars]19th Triennial Conclave, New Orleans, Louisiana.
