**International Handbook of Giftedness and Talent** K. A. Heller,F. J. Mönks,R. Subotnik,Robert J. Sternberg,2000-12-18 The first edition of this popular reference work was published in 1993

and received critical acclaim for its achievement in bringing together international perspectives on research and development in giftedness and talent. Scholars welcomed it as the first comprehensive volume in the field and it has proved to be an indispensable resource to researchers. Since the first edition, the scholarly field of giftedness and talent studies has expanded and developed, welcoming contributions from researchers in related disciplines. Several theoretical frameworks outlined in the first edition have now been empirically tested, and a number of new trends have emerged. The Second Edition of the International Handbook of Giftedness and Talent provides an invaluable research tool to academics, researchers, and students interested in the field of giftedness and talent. The contributors are renowned in the field, and the broad range of topics on giftedness that have been studied in the past century, right up to the late 1990s, are represented in this volume. It is truly international in scope, bringing together leading scholars and teachers from all around the world. This new edition has been fully updated and rewritten and includes 22 completely new chapters. It provides a comprehensive review and critical synthesis of significant theory, a unique cross-national perspective with contributions from over 100 distinguished authors covering 24 nations, significant contributions from scholars working in related fields, an increased focus on empirically supported scholarship, and is arranged for quick and easy reference with comprehensive subject and author indexes.

On Being a Gifted Adolescent Yvonne Larsson, 1987 Because of recent criticism of the use of standardized tests to identify gifted individuals, the focus for identification of gifted adolescents has shifted to acceptance of three interrelated aspects: 1. above average ability, 2. task commitment, and 3. creativity. It is now recognized that talented individuals will only do well in circumstances that encourage development of their talents and offer emotional support. Unfortunately, many misconceptions about the gifted and gifted education persist, and many adults have difficulty dealing with immaturity in gifted adolescents. Although evidence is growing that gifted adolescents are more likely than others to reach adulthood without emotional or

psychological difficulties there often arise problems such as intensified stress peer pressure and conflicts between talent and societal expectations particularly with girls who are expected to conform and be neat and quiet Also important especially in Australia is identification of a broad concept of giftedness which would provide opportunities for girls aborigines students from non English speaking backgrounds and poor and rural students A number of projects are being undertaken in Australian states to reach encourage and support a wide variety of gifted students A checklist used to identify gifted underachievers a needs assessment questionnaire and 48 references conclude the document SKC
