On Britain:

The Sun Never Sets Nicholas Tarling, 1986 *Britain's Changing Roadscapes* Lynne Pearce, 2026-02-06 The book addresses long standing geographical debates on place place attachment and kin aesthetics as well as the unique spatial temporal properties of journeying Drawing upon the author's road diaries and photographic archive dating back to the 1990s the analysis centres on a route that runs from Scotland to Cornwall and which incorporates motorways A roads and unclassified country lanes In addition to seeking to capture material evidence of change across a wide variety of road features and driving events many of them transient incidental and mundane the book is also concerned with how change makes its presence known to the observer This includes the question of how and why road users sometimes develop powerful attachments for particular routes and roadside landmarks To this end the analysis is in conversation with recent debates in contemporary archaeology the aesthetics of the everyday and geographical research on dis orientation as well as Henri Bergson's foundational work on the phenomenology of perception and memory And yet it is the restless teeming life of the British roads featured in the case studies the A30 the A82 the M5 the M6 the M74 and Cornwall's narrow winding lanes that makes this book memorable especially given that post millennium many of the changes to which it bears witness are epic in consequence Congestion electrification automation the arrival of SMART motorways and extreme weather events arising from climate change all feature here alongside the disappearance of the roadside cafes filling stations phone boxes lay bys and snack bars associated with twentieth century motoring This interdisciplinary exploration of Britain's changing roads and roadscapes will appeal to academics and students working in and across the fields of social and cultural geography mobilities studies cultural history literary and cultural theory and contemporary archaeology Its autoethnographic case studies historical route descriptions photographic archive and general accessibility mean that it may also be of interest to road enthusiasts and the general reader

The Historical Works Giraldus (Cambrensis), 1905 *The Poems of William Wordsworth* William Wordsworth, 1908 With God on Our Side Ben Edwards, 2013-07-29

This book uses Christian reactions to the Spanish Civil War to analyse the role and importance of Christianity in interwar Britain. This conflict is used as a proxy through which to discuss the status of Christianity in Britain because the Nationalists claimed to be fighting a Holy War against communist atheism. This representation meant that the conflict was of considerable interest to Christians in Britain. British Christians frequently used the war in Spain to discuss their broader concerns. Many leading Catholics and fascistic Protestants argued that the events in Spain were an exaggerated form of the communist threat to Britain; by contrast, many Protestants used the war to voice their wider criticisms of Catholicism. Catholics responded to these chastisements by reasserting that members of their faith were patriots who resisted communist internationalism and atheism. Christian responses to the war therefore increased pre-existing tension between Protestantism and Catholicism. Similarly, Catholicism's already difficult relationship with Labour was adversely affected by these movements' reactions to the conflict. Labour's involvement with the Basque children operations showed that it wanted to maintain relatively harmonious relations with Catholicism but these efforts were unsuccessful. Ultimately, this study uses British Christian reactions to the Spanish Civil War to indicate that Christianity was actually an important aspect of interwar British society.

The Outlook Lyman Abbott, Hamilton Wright Mabie, Ernest Hamlin Abbott, Francis Rufus Bellamy, 1923 **Britain Before Brexit** Bernard Porter, 2021-04-22

Why do the Brexiteers want to leave? Why do the Remainers want to stay? What exactly would a post-Brexit Europe look like? These questions have dominated the post-Brexit socio-political landscape. In this timely and engaging book, Bernard Porter responds to these questions. Each chapter presents different historical episodes contributing to an overall understanding of what Porter calls Britain's most important move in her national life since she risked her whole being to go to war with Germany in 1939. The book comprises a collection of well-researched and considered chapters ranging from Britain's asylum policy for European refugees in the nineteenth and early twentieth centuries to terrorism in mainland Britain and governments' responses to it. Porter draws from a range of sources and personal experiences to investigate the cultural and social history that led us or which specifically didn't lead us to the decision to leave the European Union. The result is an engaging and personal analysis of Britain's distinctive identity and on its former relations with Europe.
