The definitive history of the life and death of America's most iconic housing project Chicago's Cabrini Green David Simon creator of *The Wire* Built in the 1940s atop an infamous Italian slum Cabrini Green grew to twenty three towers and a population of 20 000 all of it packed onto just seventy acres a few blocks from Chicago's ritzy Gold Coast Eventually Cabrini Green became synonymous with crime squalor and the failure of government For the many who lived there it was also a much needed resource it was home By 2011 every high rise had been razed the island of black poverty engulfed by the white affluence around it the families dispersed In this novelistic and eye opening narrative Ben Austen tells the story of America's public housing experiment and the changing fortunes of American cities It is an account told movingly though the lives of residents who struggled to make a home for their families as powerful forces converged to accelerate the housing complex's demise Beautifully written rich in detail and full of moving portraits *High Risers* is a sweeping exploration of race class popular culture and politics in modern America that brilliantly considers what went wrong in our nation's effort to provide affordable housing to the poor and what we can learn from those mistakes Compelling Chicago Tribune A fascinating narrative Booklist starred review A weighty and robust history of a people disappeared from their own community Kirkus Reviews Austen has masterfully woven together these deeply intimate stories of the residents at Cabrini against the backdrop of critical public policy decisions Ultimately this book is about how as a country we acknowledge and deal with the very poor Alex Kotlowitz author of *There Are No Children Here* Named a Best Book of the Year by Mother Jones Nominated for the Andrew Carnegie Medal of Excellence in Nonfiction the Goddard Riverside Stephan Russo Book Prize and the Chicago Review of Books Award      Cabrini-Green David T. Whitaker, 2000-06 After decades of stubborn resistance to a high profile redevelopment plan a distinct Chicago landmark is slowly disappearing Sitting in the heart of downtown the high rise buildings of the Cabrini Green housing development have long been a conspicuous element of the city's broad shouldered landscape While many have considered it a neighborhood to avoid others have simply called it home In the midst of its gradual demise a compelling new book boldly examines the legacy of this community from the perspective of those who have lived here raised families here and perhaps even planned to die here Aided by 23 year old Jimmy Biggs and 19 year old Anita Gunartt both of whom were born and raised in Cabrini Green Chicago writer and author David Whitaker has compiled vivid memories from residents that include grandmothers and gang members fathers and college students Complemented by the adept work of Chicago based photographer Blair Jensen the result is at once an authentic tale an enlightening portrait and a streetwise study of the country's most recognized housing development Acting as expert guides and rotating narrators residents lead readers on a virtual tour through their community's troubled past and its uncertain future In reflecting on their many experiences they tell only one story the story of Cabrini Green from the inside out      *Reclaiming the Inner City*

Vale,2024-05-31 The building and management of public housing is often seen as a signal failure of American public policy but this is a vastly oversimplified view In Purging the Poorest Lawrence J Vale offers a new narrative of the seventy five year struggle to house the deserving poor In the 1930s two iconic American cities Atlanta and Chicago demolished their slums and established some of this country s first public housing Six decades later these same cities also led the way in clearing public housing itself Vale s groundbreaking history of these

twice cleared communities provides unprecedented detail about the development decline and redevelopment of two of America's most famous housing projects Chicago's Cabrini Green and Atlanta's Techwood Clark Howell Homes Vale offers the novel concept of design politics to show how issues of architecture and urbanism are intimately bound up in thinking about policy Drawing from extensive archival research and in depth interviews Vale recalibrates the larger cultural role of public housing revalues the contributions of public housing residents and reconsiders the role of design and designers
